Foreword	7	3 Regions of the trunk, regiones trunci	
1 Regions of the head, regiones capitis		3.1 Regions of the chest	43
1.1 The brain case	9	3.1.1 Topography of the thoracic wall	44
1.1.1 Frontal, parietal and temporal region	9	3.1.2 Presternal region	45
Vascular and nerve supply to the scalp	10	3.1.3 Pectoral region, clavipectoral triangle	46
1.1.2 External surface of the cranial base	11	3.1.4 Pleural cavities	48
1.1.3 Internal surface of the cranial base	11	Boundaries of the pleura and their projection	
1.2 Superficial regions of the face	14	on the chest surface	49
1.2.1 Orbital region	14	Boundaries and projection of the lungs	
1.2.2 Nasal region	15	on the chest surface	50
1.2.3 Oral region	15	Projection of the heart	50
1.2.4 Buccal region	17	3.1.5 Mediastinum	52
1.2.5 Parotidomasseteric region	19	Superior mediastinum	52
1.2.6 Mental region	19	Inferior anterior mediastinum	57
1.3 Deep regions of the face	19	Inferior middle mediastinum	57
1.3.1 Infratemporal region	19	Inferior posterior mediastinum	57
1.3.2 Pterygopalatine fossa	22	3.2 Regions of the abdomen	57
1.3.3 Pterygomandibular space	22	3.2.1 Projection of organs onto the anterior	
1.3.4 Parapharyngeal space	22	abdominal wall	58
1.3.5 Retropharyngeal space	22	3.2.2 Abdominal wall structure	59
1.3.6 The orbit	22	3.2.3 Inguinal region, the groin	61
Orbital content	24	3.2.4 Peritoneal cavity	62
1.3.7 Nasal cavity	26	3.2.4.1 Supramesocolic part of the peritoneal	
1.3.8 Oral cavity	27	cavity	62
1.3.9 Tonsillar region	29	■ Lesser sac	64
1.3.10 Sublingual region	29	■ Position and syntopy of the liver	64
		■ Position and syntopy of the gallbladder	
		and the biliary ducts	65
		■ Syntopy of the abdominal oesophagus	67
		■ Position and syntopy of the stomach	67
		■ Position and syntopy of the spleen	67
		■ Position and syntopy of the duodenum	67
		■ Position and syntopy of the pancreas	69
2 Regions of the neck, regiones cervicales		3.2.4.2 Inframesocolic part of the peritoneal cavity	71
2.1 Anterior triangle of the neck	31	■ Right inframesocolic space	73
2.1.1 Muscular triangle (omotracheal)	31	■ Left inframesocolic space	73
2.1.2 Submandibular triangle, digastric triangle	36	■ Organs in the inframesocolic space	73
2.1.3 Submental triangle	39	3.2.5 Retroperitoneum	75
2.1.4 Carotid triangle	39	■ The middle part of the retroperitoneal	
2.1.5 Sternocleidomastoid region	41	space	75
2.1.6 Scalenovertebral triangle	42		
2.2 Lateral region of the neck	42		

■ The lateral part of the retroperitoneal space.....	75	4.6	Regions of forearm	101	
3.3	Regions of the pelvis.....	77	■ Anterior antebrachial region.....	101	
3.3.1	Position and syntopy of the urinary bladder..	77	■ Posterior antebrachial region.....	102	
3.3.2	Position and syntopy of the rectum.....	78	4.7	Wrist regions.....	103
3.3.3	Topography of the male pelvis	79	■ Anterior carpal region	103	
3.3.4	Topography of the female pelvis	80	■ Posterior carpal region	105	
3.3.5	Perineal regions.....	81	4.8	Palmar region	106
■ Male urogenital region	82	4.9	Dorsum of the hand.....	107	
■ Female urogenital region.....	83	4.10	The fingers.....	107	
■ Anal region.....	84				
■ Ischioanal (ischiorectal) fossa.....	85				
3.4	Regions of the back and nuchal regions	86	5	Regions of lower limb,	
3.4.1	Dorsal regions	86		regiones membri inferioris	
3.4.2	Posterior cervical (nuchal) region	86	5.1	Gluteal region	109
3.4.3	Vertebral and sacral region.....	90	5.2	Femoral regions.....	109
■ Topography of the vertebral canal.....	90	■ Anterior femoral region	110	■ Posterior femoral region.....	114
3.4.4	Lumbar region.....	90	5.3	Knee regions	115
			■ Anterior knee region.....	115	
			■ Posterior knee region (popliteal fossa)....	116	
			5.4	Leg regions.....	117
			■ Anterior crural region.....	117	
			■ Posterior crural region, the calf.....	118	
			5.5	Retromalleolar regions.....	119
			■ Medial retromalleolar region	119	
			■ Lateral retromalleolar region	119	
			5.6	Dorsum of the foot	120
			5.7	Sole of the foot.....	121
			5.8	The toes	122
4	Regions of the upper limb,				
	regiones membri superioris				
4.1	Scapular region.....	93			
4.2	Deltoid region.....	93			
4.3	The axilla.....	95			
4.4	Anterior and posterior region of the arm....	98			
4.5	Elbow regions	99			
■ Anterior cubital region	99				
■ Posterior cubital region	101
