Contents

1 Introduction: Analyzing Qualitative Data with Software 1
What Is Qualitative Data? 1
What Types of Data Can Be Analyzed with MAXQDA? 3
The Analytical Functions of MAXQDA 4
Methods for Qualitative Data Analysis 6
Is MAXQDA a Method? 8
References 11

2 Getting to Know the Interface of MAXQDA 13
MAXQDA's Start Dialog 13
MAXQDA's User Interface 15
The Context Menus and the Icons in the Main Windows 17
The Undo Function 18
The Help Functions 18
Important Terms in MAXQDA 18

3 Setting Up a Project and Importing Data 21
What Should You Think About in Advance? 21
Preparing Data 23
Importing Text Files 28
Viewing and Editing Texts Using the "Document Browser" 29
Managing Documents and Document Groups Within the "Document System" 30
Importing PDF Documents, Images, and Tables 31
Importing and Playing Audio and Video 33
Importing Web Pages 35
Recording Meta-Information in Memos 36
Documenting Your Progress 38
References 39

4 Transcribing Audio and Video Recordings 41
No Transcription Without Rules 41
Transcribing Audio Files: Interviews and Focus Groups 43
Transcribing Video Files 46
The Overview of Timestamps 47

Importing Existing Transcriptions with Timestamps 47
Checking a Transcript 48
References 49

5 **Exploring the Data** 51
Exploring Your Data and Making Notes in Memos 52
Highlighting Text Passages with Assorted Colors 54
Searching in Texts with Lexical Search 55
Word Clouds: Visualizing the Most Frequently Used Words 57
Exploring Video Files 59
Linking Data 60
Paraphrasing Texts 62
References 63

6 **Coding Text and PDF Files** 65
About Codes and Categories 66
What Does "Coding" Actually Mean? 67
Creating New Codes and Building a Coding Frame 68
Coding Text 70
More Techniques for Coding 71
The Display of Codes in the "Document Browser" 74
Working with Coded Segments: Comment, Weight, and Delete 75
Overview of Coded Segments: Keeping Track of Your Coding 77
Coding PDF Documents 79
Autocoding Search Results 79
References 81

7 **Coding Video Data, Audio Data, and Images** 83
Characteristics of Video Analysis 84
Coding Video Data Directly or Transcribing First? 84
Coding Video Data in the "Multimedia Browser" 85
Attaching Memos to Video Files and Linking Video Clips 88
Creating Still Images and Integrating Them in Publications 89
Coding Audio Data in the "Multimedia Browser" 89
Coding and Analyzing Images 90
References 91

8 **Building a Coding Frame** 93
Different Types of Coding Frames 94
Paths to a Structured Coding Frame 96
Creating Concept-Driven Categories (Deductive Category Formation) 96
Creating Data-Driven Categories (Inductive Category Formation) 100
Creative Coding: A Tool for the Visual Development of a Coding Frame 102
Documenting the Evolution of the Coding Frame 105

Tips for Coding Frames . . . 106

9 Working with Coded Segments and Memos . . . 107
Retrieving Coded Segments . . . 108
Retrieving Coded Video Clips . . . 113
Differentiating Codes: Splitting Up Coded Segments into Different Codes . . . 114
Merging Codes: Combine Coded Segments from Different Codes into a Single Code . . . 116
Smart Coding Tool: Working Effectively with Codes and Coded Segments . . . 116
Exporting Retrieved Segments . . . 118
Smart Publisher: Presenting Coded Segments in a Report . . . 119
Keeping Track of Memos and Their Content . . . 120
Working with and Printing Memos . . . 121
Reference . . . 122

10 Adding Variables and Quantifying Codes . . . 123
Benefits of Using Variables for Quantitative Data? . . . 123
Managing Variables in the "List of Variables" . . . 125
Entering, Changing, and Viewing Variable Values Within the "Data Editor" . . . 129
Transforming Code Frequencies into Document Variables . . . 131
Creating Frequency Tables and Charts for Document Variables . . . 132
References . . . 134

11 Working with Paraphrases and Summaries, Creating Case Overviews . . . 135
Writing and Categorizing Paraphrases . . . 136
Summary Grid: Writing Thematic Summaries Based on Coded Segments . . . 140
Summary Tables: Creating Case Overviews . . . 142
Creating Document Variables From a Summary Table . . . 144
Alternative Display of Case Overviews . . . 146
Creating Integrative Summaries . . . 147
The Overview of Summaries . . . 148
References . . . 149

12 Comparing Cases and Groups, Discovering Interrelations, and Using Visualizations . . . 151
About Case and Group Comparisons . . . 152
Forming Groups Based on Variable Values . . . 152
Qualitative Contrasting: Comparing Statements of Cases and Groups . . . 154
Quantitative Contrasting: Comparing Frequency of Statements of Cases and Groups . . . 155

Using Visualizations for Analyses and Presentations 157
Code Matrix Browser: Visualizing the Distribution of Codes Per Case or Group 157
Code Relations Browser: Visualizing Co-occurrences of Codes 160
Discovering Complex Interrelationships of Codes 162
Code Configurations: Identifying Multidimensional Patterns 163
Document Portrait: Visualizing the Encodings of a Case 165
Codeline: Representing Timelines and Sequences of Codes 168
