

# Contents

Acknowledgments .....	vii
Chapter 1. Introduction .....	1
1.1 Discovery .....	1
1.2 General Introduction .....	2
1.3 Just for Fun—An Isotope Biography of Mr. Polychaete .....	16
Chapter 2. Isotope Notation and Measurement .....	21
Overview .....	21
2.1 The Necessary Minimum for Ecologists .....	22
2.2 Why Use the $\delta$ Notation? .....	31
2.3 Why Is $\delta$ a Good Substitute for % Heavy Isotope? .....	34
2.4 $\delta$ and the Ratio-of-Ratios .....	35
2.5 Chapter Summary .....	37
Chapter 3. Using Stable Isotope Tracers .....	40
Overview .....	40
3.1 Isotope Circulation in the Biosphere .....	41
3.2 Landscape Ecology and Isotope Maps .....	50
3.3 Community Ecology and Invasive Species in Food Webs .....	54
3.4 Life History Ecology and Animal Migrations .....	59
3.5 Plants, Microbes, and Scaling Up .....	62
3.6 Chapter Summary .....	66
Chapter 4. Isotope Chi (“I Chi”) .....	76
Overview .....	76
4.1 Chocolate Isotopes .....	77
4.2 Oxygen in the Sea .....	81
4.3 Equations for Isotope Chi (“I Chi”) .....	87

4.4 Building an I Chi Gain–Loss Model, Step by Step . . . . .	91
4.5 Errors in I Chi Models . . . . .	98
4.6 Exact Equations for I Chi Models . . . . .	101
4.7 Cows in a Pasture . . . . .	106
4.8 Chapter Summary . . . . .	114
Chapter 5. Mixing . . . . .	119
Overview . . . . .	119
5.1 Isotope Mixing in Food Webs . . . . .	120
5.2 Isotope Sourcery . . . . .	134
5.3 Mixing Mechanics . . . . .	139
5.4 Advanced Mixing Mechanics . . . . .	142
5.5 Mixing Assumptions and Errors or the Art and Wisdom of Using Isotope Mixing Models . . . . .	149
5.6 River Sulfate and Mass-Weighted Mixing . . . . .	159
5.7 A Special Muddy Case and Mixing Through Time . . . . .	164
5.8 The Qualquan Chronicles and Mixing Across Landscapes . . . . .	167
5.9 Dietary Mixing, Turnover, and a Stable Isotope Clock . . . . .	173
5.10 Chapter Summary . . . . .	176
Chapter 6. Isotope Additions . . . . .	183
Overview . . . . .	183
6.1 Addition Addiction . . . . .	184
6.2 The Golden Spike Award for Isotopes . . . . .	187
6.3 Chapter Summary . . . . .	190
Chapter 7. Fractionation . . . . .	194
Overview . . . . .	194
7.1 Fractionation Fundamentals . . . . .	196
7.2 Isotopium and Fractionation in Closed Systems . . . . .	214
7.3 A Strange and Routine Case . . . . .	222
7.4 A Genuine Puzzle—Fractionation or Mixing? . . . . .	226
7.5 Cracking the Closed Systems . . . . .	229
7.6 Equilibrium Fractionation, Subtle Drama in the Cold . . . . .	233
7.7 A Supply/Demand Model for Open System Fractionation . . . . .	242
7.8 Open System Fractionation and Evolution of the Earth’s Sulfur Cycle . . . . .	254
7.9 Open System Legacies . . . . .	264
7.10 Conducting Fractionation Experiments . . . . .	267
7.11 Chapter Summary . . . . .	270

Chapter 8. Scanning the Future .....	277
Overview .....	277
8.1 The Isotope Scanner .....	277
8.2 Mangrove Maude .....	278
8.3 The Beginner's Advantage—Imagine! .....	282
8.4 Chapter Summary .....	283
Appendix. Important Isotope Equations and Useful Conversions .....	285
Erratum .....	E1
Index .....	297

*Supplemental Electronic Materials on the Accompanying CD*

- A. Chapter 1
  - Color Figures and Cartoon Problems
- B. Chapter 2
  - Color Figures and Cartoon Problems
  - Technical Supplement 2A: Measuring Spiked Samples
  - Technical Supplement 2B: Ion Corrections
  - Technical Supplement 2C: The Ratio Notation and The Power of 1
- C. Chapter 3
  - Color Figures and Cartoons Problems
- D. Chapter 4
  - Color Figures and Cartoons Problems
  - I Chi Spreadsheets
- E. Chapters 5
  - Color Figures and Cartoons Problems
  - I Chi Spreadsheets
- F. Chapter 6
  - Color Figure and Cartoon Problems
  - I Chi Spreadsheet
  - Technical Supplement 6A: How Much Isotope Should I Add?
  - Technical Supplement 6B: Noisy Data and Data Analysis with Enriched Samples

- G. Chapter 7
  - Color Figures and Cartoons
  - Problems
  - I Chi Spreadsheets
  - Technical Supplement 7A: A Chemist's View of Isotope Effects
  - Technical Supplement 7B: Derivations of Closed System Isotope Equations
- H. Chapter 8
  - Color Figures and Cartoons
  - Problems
- I. All Problems for Chapters 1–8
- J. All Answers to Problems for Chapters 1–8
- K. All Figures and Cartoons
- L. All I Chi Spreadsheets
- M. A Reading List
