## Part I Posture and Dynamic Alignment . . . . . 1

---

<b>Chapter 1</b>	Roots of Imagery for Alignment . . . . .	3
	In Search of Ideal Posture . . . . .	5
	Somatic Disciplines . . . . .	10
	Summary . . . . .	14
<b>Chapter 2</b>	Postural Models and Dynamic Alignment . . . . .	15
	What Your Posture Reveals . . . . .	16
	Postural Habits . . . . .	17
	Rich Sources for Dynamic Alignment . . . . .	18
	Summary . . . . .	29
<b>Chapter 3</b>	Foundations of Mental Imagery . . . . .	31
	Brain as the Basis for Imagery . . . . .	32
	Brain and Consciousness . . . . .	33
	Nervous System . . . . .	36
	Neuroplasticity and Imagery . . . . .	37
	Developing Mind: The Role of Imagery . . . . .	40
	Summary . . . . .	42
<b>Chapter 4</b>	Change Through Imagery . . . . .	43
	Four Steps for Change . . . . .	43
	Body Image as Basic Feedback . . . . .	46
	Developmental Patterns and Mental Imagery . . . . .	50
	Wrong Habits That Feel Right . . . . .	51
	Retaining Your Progress . . . . .	52
	Motivation and Change . . . . .	53
	Summary . . . . .	53
<b>Chapter 5</b>	Benefits and Types of Imagery . . . . .	55
	Benefits: What Imagery Can Do for You . . . . .	56
	Types of Imagery . . . . .	63
	Styles of Imagery Delivery . . . . .	71
	Self-Talk: The Internal Monologue . . . . .	73
	Summary . . . . .	74

<b>Chapter 6</b>	General Guidelines Before Using Imagery . . . . .	75
	Factors That Influence Successful Imagery . . . . .	75
	Guidelines for Using Imagery . . . . .	76
	Training Your Ability to Use Imagery . . . . .	80
	Concentration and Attention . . . . .	82
	Stages of Learning . . . . .	84
	Positions for Anatomical Imagery Work . . . . .	85
	Using Imagery When in Motion . . . . .	88
	Image Narrative, Image Bundles, and Relational Imagery . . . . .	88
	Summary . . . . .	89
<hr/>		
<b>Part II</b>	<b>Biomechanical and Anatomical Principles and Exercises . . . . .</b>	<b>91</b>
<hr/>		
<b>Chapter 7</b>	Finding Your Center and Befriending Gravity . . . . .	93
	Planes for Direction and Location . . . . .	93
	Central Axis . . . . .	95
	Body Geography . . . . .	96
	Joint Movements . . . . .	98
	Force . . . . .	98
	Matter and Mass . . . . .	102
	Summary . . . . .	106
<b>Chapter 8</b>	Laws of Motion and Force Systems . . . . .	107
	Newton's Laws of Motion . . . . .	107
	Force Systems . . . . .	111
	Lever Systems . . . . .	113
	Energy Conservation . . . . .	119
	Ability of Materials to Resist Force . . . . .	120
	Dynamic Stability . . . . .	121
	Summary . . . . .	124
<b>Chapter 9</b>	Joint and Muscle Function . . . . .	125
	Joint Types . . . . .	125
	Bones . . . . .	130
	Connective Tissue and Fascia . . . . .	132
	Muscles . . . . .	134
	Summary . . . . .	146
<hr/>		
<b>Part III</b>	<b>Exercises for Anatomical Imagery . . . . .</b>	<b>147</b>
<hr/>		
<b>Chapter 10</b>	Pelvis, Hip Joint, and Company . . . . .	149
	Pelvic Arches . . . . .	149
	Balancing the Pelvis . . . . .	154
	Motion of the Pelvic Halves . . . . .	172

Counterrotation and Three-Dimensional Alignment . . . . .	179
Pelvic Powerhouse . . . . .	182
Hip Joint and Femur . . . . .	191
Iliopsoas and Piriformis . . . . .	196
Summary . . . . .	203
<b>Chapter 11</b> Knee, Lower Leg, and Foot . . . . .	<b>205</b>
Knee. . . . .	206
Tibia, Fibula, and Ankle . . . . .	221
Foot . . . . .	228
Summary . . . . .	252
<b>Chapter 12</b> Spine and Body Wall . . . . .	<b>253</b>
Functioning Spine . . . . .	253
Pelvis . . . . .	258
Vertebrae . . . . .	261
Facet Joints. . . . .	265
Discs, Spine, and Psychology of Pain. . . . .	270
Spinal Ligaments . . . . .	275
Musculature of the Abdomen and Back . . . . .	277
Abdominal Wall and Fascia . . . . .	281
Abdominal Muscles and the Concept of Core Stability . . . . .	283
Summary . . . . .	290
<b>Chapter 13</b> Shoulders, Arms, and Hands . . . . .	<b>293</b>
Suspension of the Shoulder Girdle . . . . .	303
Glenohumeral Joint . . . . .	313
Humeroscapular Rhythm . . . . .	316
Elbow . . . . .	323
Wrist and Hand . . . . .	329
Summary . . . . .	334
<b>Chapter 14</b> Head and Neck . . . . .	<b>337</b>
Atlas and Axis . . . . .	340
Skull . . . . .	344
Suboccipitals. . . . .	346
Mandible. . . . .	349
Hyoid and Tongue. . . . .	354
Eyes . . . . .	357
Nose and Mouth . . . . .	359
Summary . . . . .	360
<b>Chapter 15</b> Rib Cage, Breath, and Organs . . . . .	<b>363</b>
Rib Cage . . . . .	363
Breath. . . . .	373
Support for Abdominal Organs . . . . .	383
Skin as an Organ . . . . .	387
Summary . . . . .	387

---

**Part IV Returning to Holistic Alignment . . . . . 389**

---

<b>Chapter 16</b> Definitions of Dynamic Alignment . . . . .	391
Plumb Line . . . . .	392
Median Alignment . . . . .	392
Defining Ideal Alignment . . . . .	393
Dynamic Versus Static Alignment . . . . .	393
Dynamic and Static Stability . . . . .	394
Pulling Up and Ideal Alignment . . . . .	397
Summary . . . . .	399
<b>Chapter 17</b> Integrating Dynamic Alignment Exercises . . . . .	401
Alignment in Supine Positions . . . . .	401
Alignment in Sitting Positions . . . . .	402
Standing and Walking Alignment . . . . .	405
Releasing Excess Tension . . . . .	407
Continuing Imagery Exercises . . . . .	411
Bibliography . . . . .	413
Index . . . . .	419
About the Author . . . . .	429
<b>Chapter 18</b> Lower Limbs . . . . .	107
Anatomy . . . . .	107
Biomechanics . . . . .	111
Elbow . . . . .	113
Wrist and Hand . . . . .	119
Summary . . . . .	120
<b>Chapter 19</b> Head and Neck . . . . .	121
Anatomy . . . . .	124
Skull . . . . .	125
Suboccipitals . . . . .	125
Mandible . . . . .	130
Hyoid and Tongue . . . . .	132
Eyes . . . . .	134
Nose and Mouth . . . . .	146
Summary . . . . .	147
<b>Chapter 20</b> Upper Limbs . . . . .	149
Anatomy . . . . .	149
Support for Abdominal Organs . . . . .	151
Skin as an Organ . . . . .	172
Summary . . . . .	172
