

## Development of regions through financial health of Spa facilities

Jozef Lukáč, Katarína Čulková .....5

## Assessing the flow homogeneity in the intake of the Stará Ľubovňa small hydropower plant by the means of 2D numerical modelling

Lucia Bytčanková, Ján Rumann .....12

## Assessment of the proposed cross section of the fish pass respecting hydrofauna requirements

Lea Čubanová .....17

## Water retention measures in the Trnava city as a prevention against droughts

Michaela Červeňanská, Jakub Mydla, Andrej Šoltész, Daniel Buček .....22

## Sediment transport assessment on river Morava based on 2D hydrodynamic flow model evaluated with Shield's diagram

Daniel Buček, Martin Orfánus, Peter Dušička .....27

## Applied hydraulic research on the project of Kolárovo Water Structure

Ľudovít Možiešik, Martin Orfánus, Ján Rumann, Peter Šulek, Peter Dušička .....31

## Characteristic wave height estimation in the Hulín water reservoir

Petr Pelikán, Miloslav Šlezinger, Jan Deutscher .....35

## From the History of the Faculty of Forestry and Wood Technology.....37
