PART 1

Conceptualising Research

1

1 Introduction

3

Why a Special Textbook for Planning Research? 3

What to Expect in this Book 4

Reference 6

2 What are Methods? What is Methodology?

7

Methods 7

Method + ology 10

More '-ologies' 11

Choosing Methods, Building Methodology 13

And Finally, a Little Bit about Paradigms 16

Conclusion 16

Suggested Further Reading 17

References 18

3 Theories in Planning Research: How they can Help You

19

Theory in Planning Research 19

Theory, Research Questions and Method 22

Theory as the 'State of the Art' 26

Finding the 'Right' Theory 27

Conclusion 29

Suggested Further Reading 29

References 30

Interlude 1: Developing your Research Question

31

Suggested Further Reading 33

4 The Big Divide? Quantitative vs Qualitative Approaches

34

Quantity or Quality? 34

How Does a Sample Represent the World? 38

<i>What Do We Do with the Data?</i>	39	
<i>Do I Have to Choose One or the Other?</i>	40	
Conclusion	41	
Suggested Further Reading	41	
5 The Case Study Approach		43
<i>What is a Case Study?</i>	43	
<i>Why would I Use a Case Study?</i>	46	
<i>When is a Study of a Case Not a Case Study?</i>	47	
<i>How Many Cases is Enough?</i>	49	
<i>What Needs to be Covered?</i>	50	
Conclusion	52	
Suggested Further Reading	52	
References	53	
PART 2		
Methods		55
Interlude 2: How your Literature Review Supports your Research		57
Suggested Further Reading	58	
PART 2.1		
Understanding Places		59
6 Describing Places from Secondary Data – and some Cautionary Tales		61
<i>Applications of Secondary Data</i>	61	
<i>Steps in Using Secondary Data</i>	63	
Conclusion	73	
Suggested Further Reading	73	
References	74	
Interlude 3: Good Data Management Practice – Keeping Things Sharable, Reliable, and Ethical		75
Reference	78	
7 Evaluating Places: Auditing and Site Analysis Techniques		79
<i>Types of Questions that Audits and Site Analysis can Help Address</i>	79	
<i>Using Audits to Generate Data</i>	80	
<i>Conducting an Audit</i>	84	
<i>Analysing Data from Audits</i>	85	
<i>Site Analysis</i>	87	
Conclusion	89	
Suggested Further Reading	90	
References	90	

8 Understanding Urban Change: Land Use Surveys	91
<i>What are Land Use Surveys and Why are they Important to Planning?</i>	91
<i>Determining the Scope: Issues of Scale, Complexity and Time</i>	93
<i>Discrete Identifiers and your Base Map</i>	94
<i>Land Use Categories</i>	96
<i>Types of Data and Administration of your Survey</i>	98
<i>Analysing Land Use Survey Data</i>	100
<i>Conclusion</i>	102
<i>Suggested Further Reading</i>	102
<i>References</i>	102
Interlude 4: Fieldwork	103
PART 2.2	
Working with People	105
9 Gauging Public Opinion: Questionnaires	107
<i>When would I Use a Questionnaire?</i>	108
<i>Steps for Administering a Survey</i>	109
<i>Questionnaire Design</i>	109
<i>Sampling</i>	115
<i>Recording and Analysis</i>	122
<i>Communication</i>	124
<i>Conclusion</i>	124
<i>Suggested Further Reading</i>	125
<i>References</i>	125
Interlude 5: Presenting and Interpreting Results – Quantitative Data	126
<i>Suggested Further Reading</i>	130
10 Interrogating Stakeholders' Ideas: Focus Groups and Iterative Methods	131
<i>Focus Groups</i>	132
<i>Ask the Experts: The Delphi Technique</i>	139
<i>Conclusion</i>	143
<i>Suggested Further Reading</i>	144
<i>Reference</i>	144
Interlude 6: Coding Data for Qualitative Analysis	145
<i>Suggested Further Reading</i>	148
<i>References</i>	148
11 Exploring Accounts, Opinions and Attitudes: In-depth Interviews	149
<i>What Types of Research are Interviews Useful For?</i>	149
<i>Preparation</i>	151

<i>The Interview Process</i>	158
<i>Analysing and Interpreting Interview Data</i>	160
<i>Conclusion</i>	162
<i>Suggested Further Reading</i>	163
<i>References</i>	163

PART 2.3

Interrogating Practice

165

12 People in Place, People in Practice: Non-verbal Methods

167

<i>The Complexities of Place and Practice</i>	168
<i>Passive and Participant Observation</i>	169
<i>Cognitive Mapping</i>	175
<i>Photographic Enquiry</i>	180
<i>Conclusion</i>	183
<i>Suggested Further Reading</i>	184
<i>References</i>	185

13 What can Documents Tell you about Planning Practice? Three Types of Text Analysis

186

<i>Text Analysis vs Other Reading Tasks</i>	187
<i>Content Analysis</i>	188
<i>Storyline Analysis</i>	193
<i>Critical Discourse Analysis</i>	196
<i>And Finally, a Few Words of Caution</i>	202
<i>Suggested Further Reading</i>	203
<i>References</i>	204

14 Planning Research as Practical Action: Participatory Methods

205

<i>Participatory Research – Not a Single Method</i>	206
<i>Workshop Methods for Place-based Planning</i>	208
<i>Project-based Methods in Participatory Action Research</i>	215
<i>Conclusion</i>	219
<i>Suggested Further Reading</i>	220
<i>References</i>	220

PART 3

Putting it into Practice

223

15 Looking After Yourself and Others: Ethical and Personal Issues in Planning Research

225

<i>Research Ethics Principles – an Overview</i>	226
<i>Ethics in Planning Practice and Research</i>	227
<i>Harm, Risk and Benefit in Human Research</i>	228
<i>How can Planning Researchers Ensure they are Ethical Researchers?</i>	230

Conclusion	236
Suggested Further Reading	237
References	237

16 Pulling it All Together 239

Designing your Research Project	239
The Research Proposal	242
Conducting the Research	245
Writing Up the Research	247
Conclusion	251
Suggested Further Reading	251
References	252
