Foreword	vii
Preface	ix
Contributors	xii

## SECTION 1 Translational neuroscience

<b>1. Neural plasticity and its contribution to functional recovery</b>	
<i>N. Sharma, J. Classen and L.G. Cohen (Bethesda, MD, USA and Leipzig, Germany)</i>	<b>3</b>
<b>2. Plasticity of cerebral functions</b>	
<i>R.J. Nudo and D. McNeal (Kansas, KS, USA)</i>	<b>13</b>
<b>3. Neuroplasticity in the spinal cord</b>	
<i>A.N. Kusiak and M.E. Selzer (Washington, DC and Philadelphia, PA, USA)</i>	<b>23</b>
<b>4. Neural tissue transplantation, repair, and rehabilitation</b>	
<i>S.B. Dunnett (Cardiff, UK)</i>	<b>43</b>
<b>5. Clinical trials in neurorehabilitation</b>	
<i>A.L. Behrman, M.G. Bowden, and D.K. Rose (Gainesville, FL, USA)</i>	<b>61</b>
<b>6. Brain-computer interfaces</b>	
<i>J.R. Wolpaw (Albany, NY, USA)</i>	<b>67</b>

## SECTION 2 Basic principles

<b>7. Epidemiology of neurologically disabling disorders</b>	
<i>A. Tennant (Leeds, UK)</i>	<b>77</b>
<b>8. Motor learning principles for neurorehabilitation</b>	
<i>T. Kitago and J.W. Krakauer (New York, NY, USA)</i>	<b>93</b>
<b>9. Outcome measures in stroke rehabilitation</b>	
<i>P. Woods Duncan (Durham, NC, USA)</i>	<b>105</b>
<b>10. Organization of rehabilitation services</b>	
<i>L.A. Graham (Newcastle upon Tyne, UK)</i>	<b>113</b>
<b>11. Functional neuroimaging</b>	
<i>N.S. Ward (London, UK)</i>	<b>121</b>

### **SECTION 3 Management of functional problems**

<b>12. Gait disorders</b> <i>V. Dietz (Zürich, Switzerland)</i>	<b>133</b>
<b>13. The diagnosis and management of adults with spasticity</b> <i>S. Balakrishnan and A.B. Ward (Birmingham and Stoke on Trent, UK)</i>	<b>145</b>
<b>14. Neurorehabilitation approaches to facilitate motor recovery</b> <i>V. Hömberg (Düsseldorf, Germany)</i>	<b>161</b>
<b>15. Neuropathic pain</b> <i>E. Kerstman, S. Ahn, S. Battu, S. Tariq, and M. Grbois (Houston, USA)</i>	<b>175</b>
<b>16. Balance</b> <i>A.M. Bronstein and M. Pavlou (London, UK)</i>	<b>189</b>
<b>17. Neurogenic lower urinary tract dysfunction</b> <i>J.N. Panicker, M. de Sèze, and C.J. Fowler (London, UK and Bordeaux, France)</i>	<b>209</b>
<b>18. Neurogenic bowel</b> <i>M. Coggrave and C. Norton (Harrow and London, UK)</i>	<b>221</b>
<b>19. Neurological rehabilitation: sexuality and reproductive health</b> <i>M.L. Aisen (Downey and Washington, USA)</i>	<b>229</b>
<b>20. Autonomic dysfunction: recognition, diagnosis, investigation, management, and autonomic neurorehabilitation</b> <i>C.J. Mathias, V. Iodice, and D. Low (London, UK)</i>	<b>239</b>
<b>21. Dysphagia</b> <i>G. Malandraki and J. Robbins (Madison, USA)</i>	<b>255</b>
<b>22. Disorders of communication: dysarthria</b> <i>P. Enderby (Sheffield, UK)</i>	<b>273</b>
<b>23. Rehabilitation Robotics</b> <i>H.I. Krebs and B.T. Volpe (Cambridge, Baltimore and Manhasset, USA)</i>	<b>283</b>
<b>24. Neurogenic respiratory failure</b> <i>C.R.K. Hind (Liverpool, UK)</i>	<b>295</b>
<b>25. Chronic fatigue syndrome</b> <i>R. Moss-Morris, V. Deary, and B. Castell (London and Newcastle upon Tyne, UK and Auckland, New Zealand)</i>	<b>303</b>
<b>26. Other physical consequences of disability</b> <i>J. Macfarlane (Newcastle upon Tyne, UK)</i>	<b>315</b>

**SECTION 4 Rehabilitation of cognitive, behavioral, and emotional problems**

<b>27. Rehabilitation of aphasia</b> <i>A. Basso, M. Forbes, and F. Boller (Milan, Italy and Pittsburgh and Bethesda, MD, USA)</i>	<b>325</b>
<b>28. Apraxia: neural mechanisms and functional recovery</b> <i>A.L. Foundas (New Orleans, LA, USA)</i>	<b>335</b>
<b>29. Rehabilitation of spatial neglect</b> <i>A.R. Riestra and A.M. Barrett (Huixquilucan, Mexico and West Orange, NJ, USA)</i>	<b>347</b>
<b>30. Memory deficits</b> <i>B.A. Wilson (Cambs, UK)</i>	<b>357</b>
<b>31. Rehabilitation and management of executive function disorders</b> <i>P.J. Eslinger, C.V. Flaherty-Craig, and F.M. Chakara (Hershey and Lancaster, PA, USA)</i>	<b>365</b>
<b>32. Neurobehavioral disorders</b> <i>N.D. Zasler, M.F. Martelli, and H.E. Jacobs (Richmond, VA, USA)</i>	<b>377</b>
<b>33. Emotional disorders in neurological rehabilitation</b> <i>A. House and C. Hosker (Leeds, UK)</i>	<b>389</b>

**SECTION 5 Specific disorders**

<b>34. Traumatic and non-traumatic brain injury</b> <i>A. Giustini, C. Pistarini, and C. Pisoni (Arco and Pavia, Italy)</i>	<b>401</b>
<b>35. Traumatic spinal cord injury</b> <i>H. Binder (Vienna, Austria)</i>	<b>411</b>
<b>36. Stroke</b> <i>H. Rodgers (Newcastle upon Tyne, UK)</i>	<b>427</b>
<b>37. Neurorehabilitation in Parkinson disease</b> <i>N. Archibald, N. Miller, and L. Rochester (Newcastle upon Tyne, UK)</i>	<b>435</b>
<b>38. Cerebral Palsy</b> <i>R.M. Kent (Wakefield, UK)</i>	<b>443</b>
<b>39. Multiple sclerosis</b> <i>J. Zajicek (Plymouth, UK)</i>	<b>461</b>
<b>40. Rehabilitation of the muscular dystrophies</b> <i>P.H. Pangilinan and J.E. Hornyak (Ann Arbor, MI, USA)</i>	<b>471</b>
<b>41. Rehabilitation of motor neuron disease</b> <i>Z. Simmons (Hershey, PA, USA)</i>	<b>483</b>
<b>42. Rehabilitation of brachial plexus and peripheral nerve disorders</b> <i>K.R. Scott, A. Ahmed, L. Scott and M.J. Kothari (Colorado Springs, CO, Hershey and Hummelstown, PA, USA)</i>	<b>499</b>
