

97	Anterior Scapulae Syndrome	197
98	Treatment of TOS	199
99	Cervicobrachial Syndrome	200
100	Brachial Althesia Syndrome	202
	Scapulocostal Syndrome	204
	Treatment	204
101	Chronic Myopathy	205
102	Priory Myopathy	209
103	Musculoskeletal Disease	211
104	Temporomandibular Pain and Dysfunction	213
105	Periarthritis Shoulder Pain	214
106	Carpal Tunnel Syndrome	215
107	Brachial Plexus Neuropathy	216
108	Shoulder Hand Syndrome	218
109	Trapezius Myopathy	219

Contents

List of Illustrations	xv
CHAPTER 1. Functional Anatomy	
Total Spinal Column	1
Cervical Spine	1
Cervical Spine Functional Units	4
Bibliography	24
CHAPTER 2. The Cervical Nerves	
Greater Superior Occipital Nerve	25
The Sympathetic Nervous System	35
Bibliography	40
CHAPTER 3. Posture	
Chronologic Development of Posture	42
Neurologic Concepts of Posture	43
Developmental Concepts of Posture	46
The Feeling of Proper Posture—Developmental Concept	46
Acquired Postural Influences	47
Bibliography	50
CHAPTER 4. Neck and Arm Pain: Tissue Sites and Mechanisms	
Bibliography	57
CHAPTER 5. Mechanisms of Pain in the Neck and from the Neck	
	59

Trauma	59
Trauma from Tension	62
Trauma from Posture	72
Bibliography	80

CHAPTER 6. Subluxations of the Cervical Spine:

The Whiplash Syndromes 81

Evaluation of the Mechanical Insult to the Cervical Spine	85
The Whiplash Injury: History and Physical Examination	87
Acute Mild Injury	92
Acute Severe Hyperextension Injury	100
Hyperflexion Injuries	103
Posttraumatic Headache	109
Posttraumatic Vertigo	111
Acute Central Spinal Cord Injury	113
Bibliography	121

CHAPTER 7. Cervical Disk Disease in the Production

of Pain and Disability 129

Neurogenic Radicular Pain	129
Extruded Nucleus Pulposus	134
Localization of Root Level by Clinical Examination	134
Root Level Summary	139
Treatment of the Cervical Herniated Disk	144
Conservative Nonsurgical Treatment of the Herniated	
Cervical Disk	147
Bibliography	163

CHAPTER 8. Spondylosis: Degenerative Disk Disease 165

Osteophytosis	166
Bibliography	181

CHAPTER 9. Cervical Spondylotic Myelopathy (CSM) 183

Symptoms of CSM	187
Prognosis	189
Examination	189
Laboratory Confirmation	190
Treatment	191
Conservative Treatment	191
Bibliography	192

CHAPTER 10. Differential Diagnosis of Neck, Arm, and Hand Pain 194

Anterior Scalene Syndrome	197
Treatment of TOS	199
Claviculocostal Syndrome	200
Pectoralis Minor Syndrome	202
Scapulocostal Syndrome	204
Treatment of Scapulocostal Syndrome	206
Chronic Musculoskeletal Pain Syndromes	208
Primary Fibromyalgia Syndrome	209
Myofascial Pain Syndrome	211
Temporomandibular Pain and Dysfunction Syndrome	213
Pericapsulitis Shoulder Pain	213
Carpal Tunnel Syndrome	215
Brachial Plexus Neuritis	218
Shoulder-Hand-Finger Syndrome	218
Summary	219
Bibliography	219
Index	221

1-1	Spinal alignment and movement in view
1-2	Typical cervical movements
1-3	1-6 Annulus fibrosus
1-7	Intervertebral disk: annular alignment
1-8	Hydraulic mechanism of the intervertebral disk
1-9	Elasticity of annular fibers in vertebral movements
1-10	Structure of a collagen fiber
1-11	Composite movements of the cervical spine
1-12	Structural rotation of C-2 upon C-3 vertebra
1-13	Flexion of a typical functional unit
1-14	Translatory gliding on cervical fibers
1-15	Gliding movement in flexing motion
1-16	Poyaminal closure during flexion
1-17	Alteration in spinal canal length
1-18	Elongation of the spinal cord canal
1-19	Occipital-atlas movement
1-20	Axias: first cervical vertebra
1-21	Axias: second cervical vertebra
1-22	Rotation of atlas
1-23	Rotation of C-2 upon C-3 vertebrae
1-24	Occipital-atlas-mus ligaments
1-25	Transverse ligament
1-26	Accessory atlantoaxial ligaments
1-27	Translatory gliding on cervical fibers
1-28	Ligamentum nuchae
1-29	Musculature of the head and neck
