Contents

1 Health, Health Indicators, and Public Health 1
1.1 What Is Health? Using the ICF 2
1.2 International Classification of Functioning, Disability, and Health 7
1.3 Epidemiology and Epidemiological Research 8
1.4 Health Indicators, Mortality, Morbidity, and Multimorbidity 13
1.4.1 Mortality 13
1.4.2 Life Expectancy 14
1.4.3 Perceived Health 17
1.4.4 Years of Life Lost 18
1.4.5 Morbidity 18
1.4.6 Medical Consumption 19
1.4.7 Multimorbidity 20
1.4.8 Health Inequalities 21
References 23

2 Health, Health Risks, and Mapping Public Health 25
2.1 Lalonde Report 25
2.2 Endogenous, Personal Health Determinant 30
2.2.1 Endogenous Health Determinant: Genetic, Hereditary Factors 30
2.2.2 Endogenous, Personal Health Determinant: Acquired Properties 32
2.3 Health Determinants Lifestyle and Behavior 35
2.4 External Environment: Health Determinant Physical Environment 39
2.5 External Environment: Health Determinant Social Environment 42
2.6 Exogenous Health Determinant: Medical Care and Prevention 45
References 47

3 Prevention Within the Nursing Profession 49
3.1 Universal, Primary Prevention 51

3.2 Selective, Indicated, Secondary Prevention 52
3.2.1 Screening 53
3.2.2 Patients' Delay and Doctors' Delay 54
3.2.3 Case-Finding 54
3.3 Care-Related, Tertiary Prevention 56
3.4 Classifications of Prevention 57
3.5 Levels of Prevention, Individual, and Collective Prevention 60
3.6 Prevention and the Complexity of Health Behavior 61
3.7 Prevention: Health Protection, Health Promotion, and Disease Prevention 63
3.8 Health Protection 64
3.9 Health Promotion and Health Education: In Short 65
3.10 Health Education 70
3.11 Disease Prevention, Patient Education, and Self-Management: In Short 72
3.12 Patient Education 73
3.13 Self-management 73
3.14 Prevention: Targets 74
3.15 The Intertwining of Prevention and Care 76
References 78

4 Health Promotion and Health Education: Improving Patients' Health Status 81
4.1 Health Promotion and Health Education: What Is the Difference? 82
4.2 Intentional Health Education and Facilitating Health Education 83
4.3 Intervention Mapping: Planning Model Intentional Health Education 85
4.4 Conditions and Principles of Intervention Mapping 87
4.5 Intervention Mapping Step 1: Needs Assessment 88
4.6 Intervention Mapping Step 1: Analysis of Lifestyle and Behavior 92
4.6.1 Explaining (Health) Behavior 94
4.6.2 Theory of Planned Behavior: Behavior and Intention 96
4.6.3 Theory of Planned Behavior: Barriers 96
4.6.4 Theory of Planned Behavior: Attitudes 97
4.6.5 Theory of Planned Behavior: Subjective Norms or Social Influence 100
4.6.6 Theory of Planned Behavior: Perceived Behavioral Control and Self-Efficacy 101
4.7 Intervention Mapping Step 2: Defining Performance and Change Objectives 103
4.7.1 Objectives 103
4.7.2 Performance Objectives 104
4.7.3 Change Objectives 105

4.8 Intervention Mapping Step 3: Methods and Theories for Change Intention and Behavior 107
4.8.1 Usefull Methods for Changing (Health) Behavior, Risk-Perception 108
4.8.2 Usefull Methods for Changing (Health) Behavior, Decisional Balance 109
4.8.3 Usefull Methods for Changing (Health) Behavior, Handling Social Influence 110
4.8.4 Usefull Methods for Changing (Health) Behavior, Guided Practice 111
4.8.5 Usefull Methods for Changing (Health) Behavior, Action Planning 112
4.8.6 Useful Methods for Changing (Health) Behavior, Coping Planning 112
4.9 Intervention Mapping Step 4: Designing the Health Intervention . . 113
4.10 Intervention Mapping Step 4: Model of Behavior Change 115
4.10.1 Model of Behavior Change: Contact the Patient, Risk Perception 116
4.10.2 Model of Behavior Change: Changing the Social–Cognitive Determinant Attitudes 117
4.10.3 Model of Behavior Change: Changing the Social–Cognitive Determinants Subjective Norms and Social Influence 120
4.10.4 Model of Behavior Change: Changing the Social–Cognitive Determinants Perceived Behavioral Control and Self-Efficacy 122
4.10.5 Model of Behavior Change: Achieving Changes in (Health) Behavior 124
4.10.6 Model of Behavior Change: Sustaining Changes in (Health) Behavior 126
4.11 Intervention Mapping Step 4: Designing the Health-Intervention – Stages of Change 128
4.12 Intervention Mapping Step 5: Implementation Plan 132
4.13 Intervention Mapping Step 6: Evaluation Plan 135

5 Patient Education and Improving Patients' Self-Management 141
5.1 Disease Prevention, Patient Education, and Self-Management 144
5.2 Self-Management 146
5.3 Chronic Care Model 148
5.4 Stepped Care 149
5.5 Self-Management: Prerequisites 150
5.6 Barriers in Promoting Patients' Self-Management: Provision of Information 152

5.7 Barriers in Promoting Patients' Self-Management: Communication Between the Patient and the Nursing Professional 157
5.8 Effects of Promoting Self-Management: Patient Satisfaction 160
5.9 Effects of Promoting Self-Management: Concordance 161
5.9.1 Nonconcordance: Characteristics 164
5.10 Effects of Promoting Self-Management: Understanding and Remembering 168
5.11 Effects of Promoting Self-Management: Patients' Well-Being 171
5.12 Effects of Promoting Self-Management: Patient Participation. 173
5.13 Effects of Promoting Self-Management: Shared Decision-Making . . . 175
5.14 Effects of Promoting Self-Management: Improved Self-Management. 177
5.15 Intervention Mapping for the Development of Self-Management Interventions 178
5.15.1 Intervention Mapping, Step 1: Assessing the Health Problem. 179
5.15.2 Intervention Mapping, Step 2: Performance and Change Objectives to Improve Self-Management 180
5.15.3 Intervention Mapping, Step 3: Methods and Theories to Improve Self-Management 180
5.15.4 Intervention Mapping, Step 3: Methods and the Patient's Phase of Life 181
5.15.5 Intervention Mapping, Step 4: Design of Self-Management Intervention 182
5.16 Intervention Mapping, Step 4: Model Supporting Patients' Self-Management 182
5.16.1 Model Supporting Patient Self-Management: Intake and Risk Perception 183
5.16.2 Model Supporting Patient Self-Management: Attitudinal Change 184
5.16.3 Model Supporting Patient Self-Management: Resisting Social Pressure and Seeking Social Support. 186
5.16.4 Model Supporting Patient Self-Management: Perceived Behavioral Control and Self-Efficacy 188
5.16.5 Model Supporting Patient Self-Management: Planning Behavior Change 188
5.16.6 Model Supporting Patient Self-Management: Behavior Change and Handling Barriers 189
5.16.7 Model Supporting Patient Self-Management: Sustaining Behavior Change. 190
5.17 Intervention Mapping, Step 4: Motivational Interviewing 191
5.18 Intervention Mapping, Step 4: Transtheoretical Model, Stages of Change 195
5.19 Intervention Mapping, Step 4: Patient Participation Model Improving the Self-Management in Patients with Chronic, Major Health Problems. 197

5.20 Intervention Mapping, Step 4: 5As 201
5.21 Intervention Mapping, Step 4: Ask-Tell-Ask 202
5.22 Intervention Mapping, Step 4: Supportive Social Relations 202
5.23 Intervention Mapping, Step 4: Informed Consent 204
5.24 Intervention Mapping, Step 4: eHealth 206
5.25 Intervention Mapping, Step 5: Implementation Plan Self-Management Intervention 211
5.25.1 Communication Process: Source 211
5.25.2 Communication Process: Message 212
5.25.3 Communication Process: Message—Patients' Recalling and Participation 212
5.25.4 Communication Process: Strategy—Individual or Group Education 214
5.25.5 Communication Process: Strategy—Leaflets and Brochures . . . 215
5.25.6 Communication Process: Receiver 216
5.26 Intervention Mapping, Step 5: Implementation Plan—Facilitation of the Self-Management Intervention 217
5.27 Intervention Mapping, Step 6: Evaluation Plan 219
5.28 Training: Model Supporting Patient Self-Management 220
5.28.1 Training 1: Step Supporting Patient Self-Management—Intake and Risk Perception 221
5.28.2 Training 2: Step Supporting Patient Self-Management—Attitudinal Change 222
5.28.3 Training 3: Step Supporting Patient Self-Management—Resisting Social Pressure and Seeking Social Support 224
5.28.4 Training 4: Step Supporting Patient Self-Management—Perceived Behavioral Control and Self-Efficacy 226
5.28.5 Training 5: Step Supporting Patient Self-Management—Planning Behavior Change Using Action Planning 227
5.28.6 Training 6: Step Supporting Patient Self-Management—Behavior Change and Handling Barriers Using Coping Planning 229
5.28.7 Training 7: Step Supporting Patient Self-Management—Sustaining Behavior Change 230
