Preface .....	v
List of Contributors .....	xi
<b>PART I. GENETIC ANALYSIS .....</b>	<b>1</b>
1 Construction of Libraries for Isolation of Adrenergic Receptor Genes <i>Margaret A. Scofield, Jean D. Deupree, and David B. Bylund</i> .....	3
2 Isolation of Adrenergic Receptor Genes <i>Margaret A. Scofield, Jean D. Deupree, and David B. Bylund</i> .....	37
3 Analyses of Adrenergic Receptor Sequences <i>Jean D. Deupree, Margaret A. Scofield, and David B. Bylund</i> .....	53
4 Polymerase Chain Reaction Screening of Genomic Libraries for Adrenergic Receptor Genes <i>Dianne M. Perez and Michael J. Zuscik</i> .....	73
5 Solution-Phase Library Screening for Identification of Rare Adrenergic Receptor Clones <i>Dianne M. Perez and Michael J. Zuscik</i> .....	91
6 Genetic Polymorphisms of Adrenergic Receptors <i>Ian P. Hall, Amanda P. Wheatley, and Jane C. Dewar</i> .....	117
<b>PART II. RNA ANALYSIS .....</b>	<b>127</b>
7 Northern Blot Analyses Detecting Adrenergic Receptor mRNAs <i>Judith C. W. Mak</i> .....	129
8 Ribonuclease Protection Assay for the Detection of $\beta_1$ -Adrenergic Receptor RNA <i>Yong-Feng Yang and Curtis A. Machida</i> .....	139
9 Determination of Adrenergic Receptor mRNAs by Quantitative Reverse Transcriptase-Polymerase Chain Reactions <i>Stefan Engelhardt and Martin J. Lohse</i> .....	155
10 Nuclear Run-On Assays for Measurement of Adrenergic Receptor Transcription Rate <i>Zhuo-Wei Hu and Brian B. Hoffman</i> .....	169

11	Primer Extension Methods for Determination of $\beta_1$ -Adrenergic Receptor mRNA Start Sites <b>Yi-Tang Tseng and James F. Padbury</b> .....	181
PART III. EXPRESSION ANALYSIS .....		187
12	Use of Eukaryotic Vectors for the Expression of Adrenergic Receptors <b>Stéphane Schaak, Jean-Christophe Devedjian, and Hervé Paris</b> .....	189
13	Expression of $\beta$ -Adrenergic Receptors in Recombinant Baculovirus-Infected Insect Cells <b>A. Donny Strosberg and Jean-Luc Guillaume</b> .....	207
14	Expression of $\beta$ -Adrenergic Receptors in <i>E. coli</i> <b>Ralf Jockers and A. Donny Strosberg</b> .....	215
15	Use and Pharmacological Analysis of Established and Transfected Cell Lines Expressing Adrenergic Receptors <b>Hongying Zhong and Kenneth P. Minneman</b> .....	221
16	Transient Transfection and Adrenergic Receptor Promoter Analysis <b>Yi-Tang Tseng and James F. Padbury</b> .....	235
17	Antisense RNA/DNA-Based Techniques to Probe Adrenergic Receptor Function <b>Hsien-Yu Wang, Fubao Lin, and Craig C. Malbon</b> .....	241
18	Targeted Disruption of Adrenergic Receptor Genes <b>Daniel K. Rohrer</b> .....	259
PART IV. RECEPTOR AND SECOND MESSENGER ANALYSIS .....		279
19	Development of Antibodies to Adrenergic Receptors <b>Suleiman W. Bahouth</b> .....	281
20	Western Blot Detection of Adrenergic Receptors <b>Suleiman W. Bahouth</b> .....	301
21	UV Crosslinking of Adrenergic Receptors and Ligands: <i>Detection by SDS-PAGE</i> <b>Michael K. Sievert, John F. Resek, Zhongren Wu, Yajing Rong, and Arnold E. Ruoho</b> .....	315
22	Detection of $\beta$ -Adrenergic Receptors by Radioligand Binding <b>Cheryl D. Dunigan, Patricia K. Curran, and Peter H. Fishman</b> ...	329
23	Assessing Adrenergic Receptor Conformation Using Chemically Reactive Fluorescent Probes <b>Anne Dam Jensen and Ulrik Gether</b> .....	345
24	Biochemical Methods for Detection and Measurement of Cyclic AMP and Adenylyl Cyclase Activity <b>Steven R. Post, Rennolds S. Ostrom, and Paul A. Insel</b> .....	363

25	Assay of Arachidonic Acid Release Coupled to $\alpha_1$ - and $\alpha_2$ -Adrenergic Receptors <b>Lincoln Edwards and Paul Ernsberger</b> .....	375
26	Patch-Clamp Recording Methods for Examining Adrenergic Regulation of Potassium Currents in Ocular Epithelial Cells <b>Jennifer S. Ryan, Chanjuan Shi, and Melanie E. M. Kelly</b> .....	391
PART V. TRANSACTIVATOR ANALYSIS .....		409
27	Southwestern Blots for Detection of a DNA Binding Protein Recognizing the $\alpha_{1B}$ -Adrenergic Receptor Gene Promoter <b>Bin Gao and George Kunos</b> .....	411
28	DNase I Footprinting Analysis of Transcription Factors Recognizing Adrenergic Receptor Gene Promoter Sequences <b>Bin Gao and George Kunos</b> .....	419
29	Electrophoretic Mobility Shift Assay for Detection of DNA Binding Proteins Recognizing $\beta$ -Adrenergic Receptor Gene Sequences <b>Philbert Kirigiti and Curtis A. Machida</b> .....	431
30	Determination of mRNA Stability and Characterization of Proteins Interacting with Adrenergic Receptor mRNAs <b>Burns C. Blaxall and J. David Port</b> .....	453
PART VI. MICROSCOPY ANALYSIS .....		467
31	Use of Immunohistochemistry and Confocal Microscopy in the Detection of Adrenergic Receptors <b>Ruth L. Stornetta</b> .....	469
32	Distribution of $\alpha_{2A}$ - and $\alpha_{2C}$ -Adrenergic Receptor Immunoreactivity in the Central Nervous System <b>Diane L. Rosin</b> .....	475
33	Quantitative Light Microscopic Autoradiography of $\alpha_2$ -Adrenergic Radioligand Binding Sites <b>Ursula H. Winzer-Serhan and Frances M. Leslie</b> .....	507
34	<i>In Situ</i> Hybridization of Adrenergic Receptor mRNA in Brain <b>Mark Stafford Smith and Debra A. Schwinn</b> .....	519
35	Use of Electron Microscopy in the Detection of Adrenergic Receptors <b>Chiye Aoki, Sarina Rodrigues, and Hitoshi Kurose</b> .....	535
Index .....		565
