

Contents

I. General part

1	Delimitation of the Bacillariophyceae	1
2	Terminology	2
2.1	Glossary	2
2.2	Appendix to glossary	13
3	Material and structure of the cell wall	17
4	Morphology of the cell-wall	18
4.1	Form types and symmetry	19
4.2	Morphological structures of the cell wall	21
4.3	Wall perforations without a velum	25
4.3.1	Stigmata and stigmoids ("isolated puncta")	25
4.3.2	Apical pore fields and other mucilage producing structures	27
4.3.3	Labiolate- and strutted processes	28
4.4	Raphes	29
4.4.1	Median raphes	29
4.4.2	Canal raphes	32
4.5	Longitudinal canals	32
4.6	Surface structures	33
4.6.1	Spines, connecting spines and setae	33
4.6.2	Other surface structures	33
4.7	Teratological structures	34
4.8	Structural elements of the cell girdle	34
4.9	Inner valves	35
4.9.1	Inner valve formation (Häutungen)	36
4.9.2	Resting spores	36
5	Reproduction	37
5.1	Asexual reproduction and changing the outline	37
5.2	Sexual reproduction – auxospore formation	39
6	Euplasmatic structures	41
7	Valve morphogenesis	44
8	Movement	45
9	Methods	47
9.1	Preservation of field samples	47
9.2	Separation from inorganic substances	47
9.3	Decalcification and separation from organic substrates	48
9.4	Removing organic remains	48
9.5	Preparation of fossil material	51
9.6	Preparation of slides	51
10	Taxonomic concept of this flora	52

II. Keys from the Bacillariophyceae-Vols. 2/1–2/4

IIA. English keys	57
Classification of the Bacillariophyceae	59
A. Order Centrales (Vol. 2/3)	59
B. Order Pennales (Vol. 2/1–2/4)	67
1. Suborder Araphidineae (Vol. 2/3)	67
Family Fragilariaceae (Vol. 2/3)	67
2. Suborder Raphidineae	74
1. Family Eunotiaceae (Vol. 2/3)	74

2. Family Achnanthaceae (Vol. 2/4)	82
3. Family Naviculaceae (Vol. 2/1)	93
4. Family Bacillariaceae (Vol. 2/2)	163
5. Family Epithemiaceae (Vol. 2/2)	182
6. Family Surirellaceae (Vol. 2/2)	184
II.B Clefs françaises	189
A. Ordre Centrales (Vol. 2/3)	189
B. Ordre Pennales (Vol. 2/1-2/4)	197
1. Sous-Ordre Araphidineae (Vol. 2/3)	197
Famille Fragilariaceae (Vol. 2/3)	197
2. Sous-Ordre Raphidineae	205
1. Famille Eunotiaceae (Vol. 2/3)	205
2. Famille Achnanthaceae (Vol. 2/4)	213
3. Famille Naviculaceae (Vol. 2/1)	224
4. Famille Bacillariaceae (Vol. 2/2)	282
5. Famille Epithemiaceae (Vol. 2/2)	303
6. Famille Surirellaceae (Vol. 2/2)	306
