Preface

XI

PART I

Chapter 1	The function and consequences of moult	1
1.1	Functions of the plumage	1
1.2	Plumage maintenance and the need for plumage renewal	2
1.2.1	Feather maintenance and wear	2
1.2.2	Adjustments to the plumage	3
1.3	The processes and costs of moult	5
1.3.1	The products and processes of moult	6
1.3.2	Costs of moult	6
1.3.3	Conclusions	7
1.4	Environmental effects on new feather quality	7
1.5	Fitting moult into the annual cycle	7
Chapter 2	Terminology and methods in moult research	9
2.1	Arrangement of the feathers	9
2.1.1	Flight-feathers	9
2.1.2	Wing-coverts	11
2.2	Terminology of plumages, feather generations and moults	11
2.2.1	Concepts of moult and plumage terminologies	11
2.2.2	General terms	13
2.2.3	Moult terms	13
2.2.4	Terms for plumages, feathers and feather generations	14
2.2.5	Age classes	14
2.3	Recording moult, plumage and feather properties	15
2.3.1	What to record: moult progress or moult intensity and of which feather tract?	15
2.3.2	Scoring flight-feather moult	16
2.3.3	Scoring body-feather moult	17
2.3.4	Mass of feathers	17
2.3.5	Quantification of feather wear	19
2.3.6	Feather growth rates	19
2.3.7	Physical properties of feathers and fault bars	20
2.4	Analysing moult data	21
2.4.1	Seasonal timing and duration (progress) of moult	21
2.4.2	Moult intensity and moult speed	23
2.4.3	Sequence of moult	24
2.4.4	Extent of moult	24
Chapter 3	The moult of adults	25
3.1	Introduction to the moult strategies	25
3.2	Sequence of moult	26
3.2.1	Basic sequence of the complete moult	26
	Flight-feathers	26
	Body-feathers and wing-coverts	27

3.2.2	Functional aspects of the basic sequence of moult	27
3.2.3	Variations and exceptions to the basic moult sequence	29
	Primaries	29
	Secondaries	29
	Tertials	31
	Rectrices	31
	Wing-coverts	32
	Variation in the relationships between flight-feather tracts	32
3.3	Moult strategies	32
3.3.1	Complete post-breeding moult in the breeding area: Moult strategies 1 and 2	32
	Complete post-breeding moult in the breeding area	32
	Partial pre-breeding moult	33
3.3.2	Complete moult in the non-breeding area: Moult strategy 3	34
	Partial moult before autumn migration	34
	Suspension of the complete moult within the non-breeding area	34
	Additional partial pre-breeding moult	34
	Conclusions	35
3.3.3	Seasonally divided moult of remiges: Moult strategy 4	35
	Seasonally divided primary moult (moult strategy 4a)	35
	Seasonally divided secondary moult (moult strategies 4b and 4c)	36
3.3.4	Partial and complete biannual moult of remiges: Moult strategy 5	37
3.3.5	Summary and concluding remarks	38
3.4	Timing and duration of the complete moult	39
3.4.1	Timing and duration of the complete post-breeding moult in the breeding area	39
	Timing of moult	39
	Moult duration	40
3.4.2	Moult under time constraints	41
	Reduction of moult duration	41
	Overlap between breeding and moult	42
	Overlap between moult and autumnal activities	43
	Arrested moult	43
	Transfer of moult to the non-breeding season	44
3.4.3	Timing of moult in trans-Saharan migrants	44
3.5	Summary and concluding remarks	47
3.6	Summary graphs and table of the moult strategies of European passerines	49
Chapter 4	The moult during the first year of life	61
4.1	Introduction	61
4.2	The juvenile plumage	61
4.2.1	Development of the juvenile plumage and completion after fledging	61
4.2.2	Structure and quality of the juvenile plumage	62
4.2.3	Coloration of the juvenile plumage	63
4.3	Sequence of post-juvenile moult	64
4.3.1	Sequence of the complete post-juvenile moult	64
4.3.2	Sequence of the partial post-juvenile moult	64
	General sequence	64
	Wing-coverts and alula	65
	Tertials	66
	Secondaries	66
	Rectrices	67
4.3.3	Eccentric and other sequences of partial primary moults (post-juvenile and first pre-breeding)	67
4.3.4	Sequence and priorities of moult	69
4.4	How juveniles assume the adult moult strategies	71
4.4.1	Moult strategies 1 and 2: partial (complete) post-juvenile and complete post-breeding moult in the breeding area	71
	Partial pre-breeding moult	72
4.4.2	Moult strategies 3 and 5: complete moult in the non-breeding area	72
	Incomplete first pre-breeding moult	73

4.4.3	Moult strategy 4: seasonally divided moult	73
	First partial pre-breeding moult including primaries	73
	First partial pre-breeding moult including secondaries	73
4.4.4	Summary and concluding remarks	74
4.5	Variation in extent, timing and duration of the post-juvenile moult in the breeding area	75
4.5.1	Experimental evidence of control of post-juvenile moult	75
4.5.2	Intraspecific variation in timing and extent of the partial post-juvenile moult	76
	Variation with hatching date	76
	Differences between populations	77
	Differences between the sexes and effects of energetic and nutrient stress	77
	Intraspecific variation in the extent of post-juvenile moult during the course of the non-breeding season and between wintering sites	78
4.5.3	Interspecific variation in timing and extent of the partial post-juvenile moult	79
	Timing and duration	79
	Extent	80
4.5.4	Partial post-juvenile primary moult in the breeding area	82
4.5.5	Complete post-juvenile moult in the breeding area	83
4.6	Summary and concluding remarks	84

PART II

Chapter 5 Ageing European passerines **87**

5.1	Ageing criteria in live birds	87
5.2	Ageing using plumage characters	88
5.2.1	Recognition of juvenile feathers	88
	Structure and shape	88
	Coloration	88
	Wear	88
	Growth bars and fault bars	89
5.2.2	Differences in extent of moult	90
5.2.3	Differences between post-juvenile and subsequent feather generations	90
5.3	General ageing criteria in European passerines based on moult	90
5.3.1	Species with a complete post-juvenile moult in the first summer/autumn: Moult Type A	91
5.3.2	Species with a partial post-juvenile/complete post-breeding moult in the breeding area: Moult Type B	92
5.3.3	Species with a partial post-juvenile/complete post-breeding moult in the breeding area and a partial pre-breeding moult in winter/spring: Moult Type C	95
5.3.4	Species with a complete moult in the non-breeding area: Moult Type D	96

Chapter 6 Species accounts **99**

6.1	Presentation of the data and how to use it	99
6.1.1	Material	99
6.1.2	Relevance of the data	99
6.1.3	Presentation and analysis of the data	99
6.2	Procedure of ageing	100

Species accounts

<i>Lanius collurio</i>	Red-backed Shrike	102
<i>Lanius senator</i>	Woodchat Shrike	105
<i>Lanius nubicus</i>	Masked Shrike	108
<i>Oriolus oriolus</i>	Eurasian Golden Oriole	110
<i>Garrulus glandarius</i>	Eurasian Jay	112
<i>Pica pica</i>	Eurasian Magpie	114
<i>Nucifraga caryocatactes</i>	Spotted Nutcracker	116
<i>Corvus corone</i>	Carrion Crow	117
<i>Bombycilla garrulus</i>	Bohemian Waxwing	120

<i>Periparus ater</i>	Coal Tit	122
<i>Cyanistes caeruleus</i>	Eurasian Blue Tit	124
<i>Parus major</i>	Great Tit	126
<i>Riparia riparia</i>	Sand Martin	129
<i>Hirundo rustica</i>	Barn Swallow	130
<i>Delichon urbicum</i>	Common House Martin	131
<i>Phylloscopus trochilus</i>	Willow Warbler	133
<i>Phylloscopus collybita</i>	Common Chiffchaff	136
<i>Acrocephalus schoenobaenus</i>	Sedge Warbler	140
<i>Acrocephalus scirpaceus</i>	Eurasian Reed Warbler	142
<i>Acrocephalus palustris</i>	Marsh Warbler	144
<i>Hippolais icterina</i>	Icterine Warbler	146
<i>Locustella naevia</i>	Common Grasshopper Warbler	147
<i>Locustella fluviatilis</i>	River Warbler	150
<i>Sylvia atricapilla</i>	Eurasian Blackcap	152
<i>Sylvia borin</i>	Garden Warbler	156
<i>Sylvia nisia</i>	Barred Warbler	159
<i>Sylvia curruca</i>	Lesser Whitethroat	162
<i>Sylvia communis</i>	Common Whitethroat	165
<i>Troglodytes troglodytes</i>	Eurasian Wren	172
<i>Sitta europaea</i>	Eurasian Nuthatch	174
<i>Sturnus vulgaris</i>	Common Starling	176
<i>Turdus torquatus</i>	Ring Ouzel	177
<i>Turdus merula</i>	Common Blackbird	179
<i>Turdus pilaris</i>	Fieldfare	182
<i>Turdus iliacus</i>	Redwing	184
<i>Turdus philomelos</i>	Song Thrush	185
<i>Turdus viscivorus</i>	Mistle Thrush	188
<i>Muscicapa striata</i>	Spotted Flycatcher	190
<i>Erithacus rubecula</i>	European Robin	194
<i>Luscinia svecica</i>	Bluethroat	197
<i>Luscinia luscinia</i>	Thrush Nightingale	199
<i>Luscinia megarhynchos</i>	Common Nightingale	200
<i>Ficedula hypoleuca</i>	European Pied Flycatcher	202
<i>Phoenicurus ochruros</i>	Black Redstart	206
<i>Phoenicurus phoenicurus</i>	Common Redstart	209
<i>Saxicola rubetra</i>	Whinchat	212
<i>Oenanthe oenanthe</i>	Northern Wheatear	215
<i>Cinclus cinclus</i>	White-throated Dipper	218
<i>Passer domesticus</i>	House Sparrow	219
<i>Passer montanus</i>	Eurasian Tree Sparrow	221
<i>Prunella modularis</i>	Dunnock	222
<i>Motacilla flava</i>	Western Yellow Wagtail	224
<i>Motacilla cinerea</i>	Grey Wagtail	229
<i>Motacilla alba alba</i>	White Wagtail	232
<i>Anthus campestris</i>	Tawny Pipit	236
<i>Anthus pratensis</i>	Meadow Pipit	239
<i>Anthus trivialis</i>	Tree Pipit	242
<i>Anthus spinoletta</i>	Water Pipit	245
<i>Fringilla coelebs</i>	Common Chaffinch	248
<i>Fringilla montifringilla</i>	Brambling	250
<i>Coccothraustes coccothraustes</i>	Hawfinch	253
<i>Pyrrhula pyrrhula</i>	Eurasian Bullfinch	255
<i>Chloris chloris</i>	European Greenfinch	257
<i>Linaria cannabina</i>	Common Linnet	260
<i>Acanthis cabaret</i>	Lesser Redpoll	263
<i>Loxia curvirostra</i>	Red Crossbill	265
<i>Carduelis carduelis</i>	European Goldfinch	271
<i>Carduelis citrinella</i>	Citril Finch	274
<i>Serinus serinus</i>	European Serin	276
<i>Spinus spinus</i>	Eurasian Siskin	279
<i>Emberiza citrinella</i>	Yellowhammer	283
<i>Emberiza cia</i>	Rock Bunting	285
<i>Emberiza hortulana</i>	Ortolan Bunting	287
<i>Emberiza schoeniclus</i>	Common Reed Bunting	290

APPENDIX: The use of skull pneumatization for ageing	293
The process of skull pneumatization	293
Recognition of skull pneumatization	293
Skull pneumatization scores	294
Age determination using skull pneumatization	295
Explanations of the graphs	295
References	301
Scientific names with their English, German, French, Italian and Spanish translations	317
Index	320
Quick reference key	322
