

Contents

1 Protocol of Performance of Sonography of Fetal Abdomen and Normal Appearance	1
1.1 Introduction	1
1.2 Technique and Protocols	1
1.3 Amniotic Fluid Dynamics	4
Suggested Reading	4
2 Sonography of Fetal Gastrointestinal Tract (GIT)	5
2.1 Oesophagus	5
2.2 Visualisation of Stomach by Sonography	7
2.3 Esophageal Atresia	8
2.3.1 Sonographic Features	9
2.4 Gastric Pseudomass	12
2.5 Pyloric Atresia (PA)	12
2.6 Duodenal Obstruction	14
2.6.1 Differential Diagnosis	16
2.7 Duodenal and Esophageal Atresia	17
2.8 Gastrointestinal Duplication Cysts	17
2.8.1 Gastric Duplication Cyst	17
2.8.2 Small Bowel Duplication Cysts	19
2.9 Small Bowel	21
2.9.1 Small Bowel Atresia	22
2.10 Congenital Chloride Diarrhea (CCD)	25
2.11 Echogenic Bowel (EB)	26
2.12 Fetal Large Bowel	27
2.13 Anorectal Malformation (ARM)	28
2.13.1 Sonographic Features	28
2.13.2 Technique of Seeing the Fetal Anus	28
2.13.3 Nonvisualized Fetal Anus	28
2.14 Urorectal Septal Malformation (URSM) Sequence or Cloacal Malformation	31
Suggested Reading	37
3 Fetal Genitourinary Tract Sonography	39
3.1 Introduction	39
3.2 Ultrasound Scanning Technique of Fetal Urinary Tract (Extended Fetal Urosonography)	40
3.3 Amniotic Fluid and Urinary Tract Anomaly	46
3.4 Urinary Tract Dilatation	49
3.5 Cystic Renal Disease	54
3.5.1 Decision Tree Approach to Renal Cystic Disease	55
3.5.2 Obstructive Dysplasia of Kidneys	56
3.5.3 Multicystic Dysplasia (MCD) of Kidney	56
3.5.4 Simple Renal Cyst	59

3.5.5	Inherited Renal Cystic Disease	60
3.5.6	Renal Anomalies with Typical Ultrasound Pattern as Part of Polymalformative Syndromes	66
3.6	Renal Anomalies with Atypical Ultrasound Pattern	71
3.7	Nonvisualized Kidney	72
3.7.1	Unilateral Nonvisualized Kidney	72
3.7.2	Bilateral Nonvisualized Kidneys	75
3.8	Unilateral Smaller Kidney	76
3.9	Hydronephrosis	78
3.10	Hydroureteronephrosis	80
3.10.1	Unilateral Hydroureteronephrosis	80
3.10.2	Ectopic Ureteric Opening	84
3.10.3	Duplex Collecting System of Kidneys	85
3.10.4	Bilateral Hydroureteronephrosis	87
3.11	Megacystis or Dilated Urinary Bladder	88
3.11.1	Urethral Atresia	89
3.11.2	Posterior Urethral Valves	90
3.11.3	Anterior Urethral Valves	94
3.11.4	Anterior Urethral Atresia	95
3.11.5	Megacystis Microcolon Intestinal Hypoperistalsis Syndrome (MMIHS)	97
3.11.6	Megacystis Megaureter Complex	98
3.11.7	Prune Belly Syndrome	99
3.12	Nonvisualized Urinary Bladder	99
3.12.1	Renal Tubular Dysgenesis	100
3.13	Duplication of Urinary Bladder	101
3.14	Megalourethra	104
3.15	Sirenomelia	106
	Suggested Reading	112
4	Masses and Fluid Collection in Fetal Abdomen	113
4.1	Confirmation	113
4.1.1	Organ or Plane of Origin Is Determined by the Following Features	114
4.1.2	Characterization	114
4.2	Fetal Abdominal Cysts	121
4.2.1	Ultrasound Imaging Approach	121
4.2.2	Ovarian Cyst	124
4.2.3	Mesenteric Lymphangioma	126
4.2.4	Gastrointestinal Duplication Cysts	127
4.2.5	Choledochal Cyst	127
4.2.6	Liver or Splenic Cysts	127
4.2.7	Retroperitoneal Lymphangioma	127
4.2.8	Cystic Lesions of Urinary Tract	128
4.2.9	Hydrocolpos	129
4.2.10	Meconium Cyst	129
4.2.11	Urachal Cyst	131
4.2.12	Vesical Diverticulum	132
4.2.13	Fetus in Fetu	133
4.2.14	Umbilical Vein Varix	133

4.3	Solid Intraabdominal Masses in Fetus	135
4.3.1	Liver	135
4.3.2	Adrenal Glands	137
4.3.3	Infradiaphragmatic Bronchopulmonary Sequestration	140
4.3.4	Bronchopulmonary Foregut Malformation	142
4.4	Echoes in Gall Bladder	143
4.5	Fetal Ascites	143
4.5.1	Hydrops Fetalis	143
4.5.2	Isolated Fetal Ascites	145
	Suggested Reading	150
5	Fetal Abdominal Wall Sonography	151
5.1	Introduction	151
5.2	Embryology	151
5.2.1	Development of Cloaca	151
5.3	Physiological Herniation of Bowel in the Fetus	152
5.4	Omphalocele	152
5.4.1	Ultrasound Features	153
5.4.2	Associated Genetic and Structural Abnormalities	153
5.4.3	Differential Diagnosis	153
5.4.4	Prognosis	153
5.5	Gastroschisis	155
5.5.1	Ultrasound Features	155
5.6	Umbilical Cord Hernia	157
5.6.1	Ultrasound Features	157
5.6.2	Outcome	157
5.7	Bladder and Cloacal Exstrophy	158
5.7.1	Aetiopathogenesis	158
5.7.2	Prenatal Ultrasound Findings	159
5.7.3	Outcome of Bladder and Cloacal Exstrophy	160
5.8	Ectopia Cordis and Pentalogy of Cantrell	162
5.8.1	Etiopathogenesis	162
5.8.2	Ultrasound Features	162
5.8.3	Associated Anomalies	162
5.9	Limb Body Wall Complex/Body Stalk Anomaly	164
5.9.1	Aetiopathogenesis	164
5.9.2	Ultrasound Features	164
5.9.3	Associated Anomalies	164
5.9.4	Prognosis	164
5.10	Amniotic Band Syndrome	168
5.10.1	Aetiopathogenesis	168
5.10.2	Ultrasound Features	168
5.11	Prognosis in ABS	169
5.12	Parasitic Twin	169
	Suggested Reading	170
