

PART I • BASIC ASPECTS OF HYBRID IMAGING TECHNOLOGY

- 1 Radiation Sources for Emission Scanning: Positron and Gamma Emission 9**
Konstantinos Zeimpekis
- 2 PET Scanning: Principles and Instrumentation 15**
Joshua D. Schaefferkoetter and David W. Townsend
- 3 SPECT Scanning: Principles and Technologic Options 26**
David R. Gilland and Timothy G. Turkington
- 4 Basics of CT Scanning and Issues Relevant to Hybrid Imaging 33**
Willi A. Kalender
- 5 MR Scanning: Principles Relevant to Hybrid Imaging 39**
Oliver Kraff, Marcel Gratz, Karsten Beiderwellen, and Mark E. Ladd
- 6 Attenuation Correction for Emission Scanning 50**
Ciprian Catana and David W. Townsend
- 7 Options in Image Reconstruction in Hybrid Imaging 64**
Charles Stearns
- 8 Image Coregistration and Coregistered Image Rendering 71**
Cyrill Burger and Geoffrey Warnock
- 9 Quantifying PET and SPECT 81**
Cyrill Burger, Alfred Buck, Timothy G. Turkington, Geoffrey Warnock, and David R. Gilland
- 10 Standardizing PET and SPECT for Quantitative Imaging 89**
Paul Kinahan
- 11 Minimizing Radiation Dose in Hybrid Imaging 96**
Konstantinos Zeimpekis and Gaspar Delso
- 12 A Primer in Compartment Modeling 103**
Cyrill Burger and Alfred Buck

PART II • RADIOPHARMACEUTICALS

- 13 Clinical PET Radiopharmaceuticals Based on ^{18}F Fluorine 115**
Linjing Mu, Anass Johayem, Gustav K. von Schulthess, and Simon M. Ametamey
- 14 Clinical PET Radiopharmaceuticals Prepared from Cyclotron-Produced Positron Emitters Other Than Fluorine 18 123**
Kjell Någren and Christer Halldin
- 15 Clinical PET Radiopharmaceuticals Produced by Generators 130**
Jakub Šimeček and Hans-Jürgen Wester
- 16 Clinical SPECT Radiopharmaceuticals 134**
Martin Behe, Gerrit Westera, and Roger Schibli

PART III • CLINICAL HYBRID IMAGING OF THE BRAIN

- 17 The Normal Brain Scan: Appearance and Data Analysis 143**
Alfred Buck and Geoffrey Warnock
- 18 Cerebrovascular Disease 149**
Alfred Buck and Nadja Khan
- 19 Brain Tumors: Astrocytoma, Oligodendroglioma, and Glioblastoma 159**
Karl-Josef Langen, Norbert Galldiks, Lutz Kracht, Andreas H. Jacobs, and Karl Herholz
- 20 Brain Tumors: Other Primary Brain Tumors, Metastases, and Radiation Injury 169**
Ian Law and Liselotte Højgaard
- 21 Infections of the Central Nervous System 180**
Alfred Buck and Michael Sommerauer
- 22 Epilepsy 186**
Alfred Buck and Michael Sommerauer
- 23 Neurodegenerative Disease: Protocols, Normal Findings, and Pitfalls 193**
Alexander Drzezga
- 24 Dementia 197**
Christoph Hock, Anton Gietl, Alfred Buck, and Alexander Drzezga
- 25 Movement Disorders 210**
Klaus Tatsch

**PART IV • CLINICAL MULTIMODALITY
IMAGING OF THE HEART**

- 27 Protocols, Data Analysis, Normal Scans, and Pitfalls in the Heart** 233
Ronny R. Buechel and Philipp A. Kaufmann
- 28 Coronary Artery Disease: Perfusion** 241
Aju P. Pazhenkottil, Oliver Gaemperli, and Philipp A. Kaufmann
- 29 Coronary Artery Disease: Tissue Viability and Perfusion** 250
Markus Schwaiger and Stephan G. Nekolla
- 30 Noncoronary Cardiac Disease** 266
Frank Bengel

**PART V • CLINICAL HYBRID IMAGING IN
BODY ONCOLOGY**

**PROTOCOLS, NORMAL FINDINGS, ARTIFACTS,
AND PITFALLS**

- 31 Artifacts in Hybrid Extended Region Scans** 279
Gustav K. von Schulthess and Gaspar Delso
- 32 FDG Hybrid Imaging: Protocols, Normal Scans, and Pitfalls** 288
Gustav K. von Schulthess
- 33 Basics of Molecular Imaging of Prostate Cancer** 306
Andreas Wibmer, Irene A. Burger, and Hebert Alberto Vargas
- 34 Somatostatin Receptor SPECT and PET Imaging: Protocols, Normal Findings, Artifacts, and Pitfalls** 317
Harshad R. Kulkarni and Richard P. Baum
- 35 Bone-Seeking Tracers: [^{99m}Tc]Diphosphonate SPECT/CT and [¹⁸F]Fluoride PET/CT** 320
Einat Even-Sapir Weizer
- 36 SPECT and PET Imaging of the Thyroid: Protocols, Dosimetry, Normal Findings, Artifacts, and Pitfalls** 326
Andreas Bockisch, Walter Jentzen, and Sandra Rosenbaum-Krumme
- 37 Sentinel Node SPECT/CT Imaging for Tumor Staging: Protocols, Normal Findings, Artifacts, Pitfalls, and Clinical Applications** 333
Carina Mari Aparici, Youngho Seo, and Randall Hawkins

HEAD AND NECK TUMORS

38 Head and Neck Cancer 341

*Martin W. Huellner, Felix P. Kuhn,
and Hugh D. Curtin*

**39 Tumors with an Unknown Primary
(CUP) 362**

Martin W. Huellner and Hugh D. Curtin

40 Thyroid Cancer 375

*Andreas Bockisch, Rainer Gorges, Lutz Freudenberg,
and Sandra Rosenbaum-Krumme*

TUMORS OF THE THORAX

41 Non-Small Cell Lung Cancer 383

Lars Husmann, Paul Stolzmann, and Hans Steinert

42 Small Cell Lung Cancer 392

Lars Husmann, Paul Stolzmann, and Hans Steinert

43 Malignant Pleural Mesothelioma 394

*Isabelle Opitz, Thomas Frauenfelder,
and Patrick Veit-Haibach*

44 Mediastinal Tumors 400

Lars Husmann, Bert-Ram Sah, and Paul Stolzmann

TUMORS OF THE GASTROINTESTINAL TRACT

45 Esophageal and Gastric Cancers 403

Patrick Veit-Haibach

**46 Malignant Tumors of the Hepatobiliary
Tract and Pancreas 411**

Mijin Yun

47 Gastrointestinal Stromal Tumors 423

Gerald Antoch

48 Neuroendocrine Tumors 430

*Richard P. Baum, Harshad R. Kulkarni, and
Niklaus Schäfer*

49 Colorectal and Anal Carcinoma 438

Cristina Nanni and Patrick Veit-Haibach

BREAST CANCER AND GENITOURINARY TUMORS

50 Carcinoma of the Breast 451

Richard L. Wahl

51 Renal Tumors and Bladder Cancer 469

Hossein Jadvar and Peter S. Conti

52 Tumors of the Female Genital Tract 474

*Julie K. Schwarz, Kathryn J. Fowler,
Farrokh Dehdashti, and Perry W. Grigsby*

53 Testicular Cancer 488

Irene A. Burger and Hebert Alberto Vargas

54 Prostate Cancer 494

Werner Langsteger, Reza Vali, and Mohsen Beheshti

TUMORS OF BONE, JOINTS, MUSCLES, SKIN, AND CONNECTIVE TISSUE

55 Malignant Bone Tumors 503

Janet F. Eary

56 Bone Metastases 509

Einat Even-Sapir Weizer

57 Benign Bone Tumors 521

Klaus Strobel

58 Soft Tissue Sarcomas 526

Janet F. Eary

59 Melanoma 537

*Hans Steinert, Jil Dreier, Reinhard Dummer,
and Niklaus Schäfer*

TUMORS OF THE LYMPHATIC AND HEMOPOIETIC SYSTEMS

60 Malignant Lymphoma 549

Pek-Lan Khong and Niklaus Schäfer

61 Multiple Myeloma 562

Cristina Nanni and Stefano Fanti

RADIATION THERAPY

62 Radiation Oncology: Staging, Follow-Up,
and Planning 567

*Heiko Schöder, Andreas Rimmer,
and John Humm*

PART VI • NONNEOPLASTIC DISEASE IN THE BODY

63 Physiologic Basis of Inflammation
Imaging 589

Achim H. Kaim and Gustav K. von Schulthess

- 64 Soft Tissue Inflammation Including Vessels and Grafts 593**
Sabine Lardenoije, Chantal P. Bleeker-Rovers, and Wim J. G. Oyen
- 65 Musculoskeletal Infections 604**
Klaus Strobel and Carsten Pietsch
- 66 Infections in Patients with Orthopedic Implants 612**
Christopher Palestro
- 67 Rheumatologic Disease 623**
Carsten Pietsch and Klaus Strobel
- 68 Trauma 629**
Carsten Pietsch and Klaus Strobel
- 69 Parathyroid and Benign Thyroid Disease 635**
Harvey A. Ziessman
- 70 Pulmonary Thromboembolism 641**
Paul Stolzmann, Lars Husmann, and Hans Steinert

PART VII • CLINICAL HYBRID IMAGING IN PEDIATRIC PATIENTS

- 71 Special Considerations in Pediatric Patients 647**
Lise Borgwardt, Anne Kiil Berthelsen, Annika Loft, and Liselotte Højgaard
- 72 Pediatric Whole-Body Oncology 653**
Annika Loft, Pek-Lan Khong, Lise Borgwardt, Anne Kiil Berthelsen, and Liselotte Højgaard
- 73 Pediatric Inflammation and Other Nonneoplastic Diseases 660**
Lise Borgwardt and Liselotte Højgaard

Index 669
