

Contributing Authors vii
 Series Preface xi
 Preface xiii

Section I Cerebrovascular Arterial Surgery/ Intervention

- 1 Arch and Great Vessel Reconstruction with Debranching Techniques** 1
W. Anthony Lee and Alexander Kulik
- 2 Extrathoracic Revascularization (Carotid–Carotid, Carotid–Subclavian Bypass and Transposition)** 7
Edward Y. Woo and Scott M. Damrauer
- 3 Carotid Surgery: Interposition/Endarterectomy (Including Eversion)/Ligation** 15
Vinit N. Varu and Wei Zhou
- 4 Carotid Surgery: Bifurcation Stenting with Distal Protection** 24
Zhen S. Huang and Darren B. Schneider
- 5 Carotid Surgery: Distal Exposure and Control Techniques and Complication Management** 34
Cheong J. Lee
- 6 Vertebral Transposition Techniques and Stenting** 40
Mark D. Morasch

Section II Management of the Thoracic Outlet

- 7 Neurogenic Thoracic Outlet Syndrome Exposure and Decompression: Supraclavicular** 45
Robert W. Thompson and Chandu Vemuri
- 8 Neurogenic Thoracic Outlet Syndrome Exposure and Decompression: Transaxillary** 59
George J. Arnaoutakis, Thomas Reifsnnyder, and Julie Ann Freischlag
- 9 Venous and Arterial Thoracic Outlet Syndrome** 66
Jason T. Lee

Section III Upper Extremity Reconstruction/ Revascularization

- 10 Proximal to the Wrist: Upper Extremity Reconstruction/Revascularization** 74
Mohamed A. Zayed and Ronald L. Dalman
- 11 Distal to the Wrist: Upper Extremity Revascularization and Reconstruction** 91
Michael G. Galvez and James Chang

Section IV Thoracic Aorta Distal to the Pericardium

- 12 Exposure and Open Surgical Reconstruction in the Chest: The Thoracoabdominal Aorta** 99
Germano Melissano, Efrem Civilini, Enrico Rinaldi, and Roberto Chiesa
- 13 Thoracic Aortic Stent Graft Repair for Aneurysm, Dissection, and Traumatic Transection** 107
Brant W. Ullery and Jason T. Lee
- 14 Exposure and Open Surgical Management at the Diaphragm** 118
Peter H. U. Lee and Ramin E. Beygui

Section V Hybrid, Open and Endovascular Approaches to the Suprarenal Abdominal Aorta

- 15 Retroperitoneal Aortic Exposure** 123
Matthew Mell
- 16 Hybrid Revascularization Strategies for Visceral/Renal Arteries** 128
Benjamin W. Starnes
- 17 Snorkel/Chimney and Periscope Visceral Revascularization during Complex Endovascular Aneurysm Repair** 136
Jason T. Lee and Ronald L. Dalman

- 18 Branched and Fenestrated Endovascular Stent Graft Techniques** 145
Gustavo S. Oderich and Karina S. Kanamori

Section VI Celiac, Mesenteric, Splenic, Hepatic and Renal Artery Disease Management

- 19 Stenting, Endografting, and Embolization Techniques: Celiac, Mesenteric, Splenic, Hepatic, and Renal Artery Disease Management** 156
Mohamed A. Zayed and Ronald L. Dalman
- 20 Visceral Reconstruction to Facilitate Cancer Management: Celiac, Mesenteric, Splenic, Hepatic and Renal Artery Disease Management** 169
Mohamed A. Zayed and E. John Harris, Jr.
- 21 Hepatic- and Splenic-Based Renal Revascularization** 183
Fred Weaver, Sung Wan Ham, and Grace Huang

Section VII The Abdominal Aorta and Iliac Arterial System

- 22 Advanced Aneurysm Management Techniques: Open Surgical Anatomy and Repair** 192
Elizabeth Blazick and Mark F. Conrad
- 23 Advanced Aortic Aneurysm Management: Endovascular Aneurysm Repair—Standard and Emergency Management** 203
Vinit N. Varu and Ronald L. Dalman
- 24 Advanced Aneurysm Management Techniques: Management of Internal Iliac Aneurysm Disease** 212
W. Anthony Lee
- 25 Occlusive Disease Management: Isolated Femoral Reconstruction, Aortofemoral Open Reconstruction, and Aortoiliac Reconstruction with Femoral Crossover for Limb Salvage** 221
Nathan Itoga and E. John Harris, Jr.
- 26 Occlusive Disease Management: Iliac Angioplasty and Femoral Endarterectomy** 231
Venita Chandra

Section VIII Infringuinal Arterial Disease Management/Limb Salvage Strategies

- 27 Management of the Infected Femoral Graft** 241
Matthew Mell
- 28 Surgical Exposure of the Lower Extremity Arteries** 247
Luke X. Zhan and Joseph L. Mills, Sr.
- 29 Percutaneous Femoral–Popliteal Reconstruction Techniques: Reentry Devices** 258
Danielle E. Cafasso and Peter A. Schneider
- 30 Percutaneous Femoral–Popliteal Reconstruction Techniques: Antegrade Approaches** 265
F. Gallardo Pedrajas and Peter A. Schneider
- 31 Maximizing Vein Conduit for Autogenous Bypass** 279
Gregory J. Landry
- 32 Tibial Interventions: Tibial-Specific Angioplasty Considerations and Retrograde Approaches** 289
Georges E. Al Khoury and Rabih A. Chaer
- 33 Perimalleolar Bypass and Hybrid Techniques** 302
Geetha Jeyabalan and Rabih A. Chaer

Section IX Surgical Management of Venous Disease

- 34 Acute Iliofemoral Deep Vein Thrombosis and May-Thurner Syndrome: Surgical and Interventional Management** 313
Sharon C. Kiang and Brian G. DeRubertis
- 35 Transjugular Intrahepatic Portosystemic Shunt** 321
Ranjith Vellody and Narasimham L. Dasika
- 36 Surgery for Portal Hypertension in Children and Adults** 334
Michael J. Englesbe and Amit K. Mathur
