<b>Foreword</b> .....					xv
<i>Richard G. Ellenbogen</i>					
<b>Foreword</b> .....					xvi
<i>Roger Härtl</i>					
<b>Preface</b> .....					xvii
<b>Contributors</b> .....					xix
<b>Part 1: Introduction</b>					
<b>1 Anesthesia and Rapid Recovery</b> .....					1
<i>G. Gamian Brusko and Michael Y. Wang</i>					
<b>1.1 Introduction</b> .....	2	<b>1.4 Anesthesia Protocol</b> .....			3
<b>1.2 General Principles of Rapid Recovery</b> .....	2	<b>1.5 Summary</b> .....			3
<b>1.3 Key Components</b> .....	2				
<b>2 Radiation Safety in Full-Endoscopic Spine Surgery</b> .....					5
<i>Lynn McGrath and Christoph P. Hofstetter</i>					
<b>2.1 Introduction</b> .....	5	<b>2.4.2 Get as Much Distance to the Radiation Source as Achievable</b> .....			6
<b>2.2 Occupational Radiation Guidelines</b> .....	5	<b>2.4.3 Protect Yourself against Radiation Exposure</b> ...			6
<b>2.3 Radiation Safety</b> .....	6	<b>2.5 Emerging Technologies</b> .....			7
<b>2.4 ALARA (As Low As Reasonably Achievable) Principle</b> .....	6	<b>2.6 Conclusion</b> .....			7
<b>2.4.1 Restrict the Area and Duration of Exposure</b> ....	6				
<b>3 Essential Imaging in Full-Endoscopic Spine Surgery</b> .....					8
<i>Daniel Carr and Christoph P. Hofstetter</i>					
<b>3.1 Introduction</b> .....	8	<b>3.3.1 Lumbar Spine</b> .....			9
<b>3.2 Features of Intraoperative Fluoroscopy</b> .....	8	<b>3.3.2 Interlaminar Technique</b> .....			9
<b>3.2.1 Magnification</b> .....	8	<b>3.3.3 Transforaminal Technique</b> .....			10
<b>3.2.2 Distortion</b> .....	8	<b>3.4 Thoracic Spine</b> .....			10
<b>3.2.3 Parallax</b> .....	8	<b>3.5 Cervical Spine</b> .....			10
<b>3.3 Fundamental Fluoroscopic Images for Full-Endoscopic Spine Surgery</b> .....	9	<b>3.6 Conclusion</b> .....			11
<b>4 Intraoperative Navigation for Full-Endoscopic Spine Surgery</b> .....					12
<i>Yue Zhou</i>					
<b>4.1 Case Example</b> .....	12	<b>4.3 Indications for Intraoperative Navigation</b> ...			14
<b>4.2 Background</b> .....	12	<b>4.4 Preoperative Planning and Positioning</b> .....			14

<b>4.5</b>	<b>Surgical Technique</b> .....	15	<b>4.7</b>	<b>Pearls and Pitfalls</b> .....	17
<b>4.6</b>	<b>Conclusion</b> .....	17			
<b>5</b>	<b>Endoscopic Instruments</b> .....				18
	<i>Saqib Hasan and Christoph P. Hofstetter</i>				
<b>5.1</b>	<b>Introduction</b> .....	18	<b>5.6</b>	<b>Surgical Instruments</b> .....	22
<b>5.2</b>	<b>Working-Channel Endoscope</b> .....	18	5.6.1	Instruments for Targeting and Creating an Approach Corridor .....	22
5.2.1	Optical System .....	18	5.6.2	Instruments to Maintain the Artificial Working Space .....	23
5.2.2	Illumination .....	20	5.6.3	Instruments for Dissection and Removing Tissue .....	23
5.2.3	Irrigation Channels .....	20	5.6.4	Radiofrequency Instruments .....	23
5.2.4	Working Channel .....	20	5.6.5	Lasers .....	23
<b>5.3</b>	<b>Illumination</b> .....	21	5.6.6	Motorized Instruments .....	24
<b>5.4</b>	<b>Video Equipment</b> .....	21	5.6.7	Basic Surgical Instruments .....	24
<b>5.5</b>	<b>Fluid Pump</b> .....	22			
<b>6</b>	<b>Operating Room Setup: The Basics</b> .....				26
	<i>Saqib Hasan and Christoph P. Hofstetter</i>				
<b>6.1</b>	<b>Introduction</b> .....	26	<b>6.4</b>	<b>Equipment Setup</b> .....	26
<b>6.2</b>	<b>Operating Room Layout</b> .....	26	<b>6.5</b>	<b>Operative Field</b> .....	27
<b>6.3</b>	<b>Positioning</b> .....	26	<b>6.6</b>	<b>Staff</b> .....	27
<b>7</b>	<b>Applied Anatomy for Full-Endoscopic Spine Surgery</b> .....				28
	<i>Daniel Carr and Christoph P. Hofstetter</i>				
<b>7.1</b>	<b>Cervical Spine Applied Anatomy</b> .....	28	<b>7.3</b>	<b>Lumbar Spine Applied Anatomy</b> .....	30
7.1.1	Posterior Fascia .....	28	7.3.1	Lamina and Ligamentum Flavum .....	30
7.1.2	Lamina and Ligamentum Flavum .....	28	7.3.2	Lateral Recess .....	32
7.1.3	Facet Joints and Intervertebral Foramen .....	28	7.3.3	Kambin's Triangle .....	32
<b>7.2</b>	<b>Thoracic Spine Applied Anatomy</b> .....	30	7.3.4	Intervertebral Foramen .....	33
7.2.1	Lamina and Ligamentum Flavum .....	30	7.3.5	Pedicle Morphology .....	33
7.2.2	Facet Joints and Intervertebral Foramen .....	30			
<b>8</b>	<b>Principles of Full-Endoscopic Surgical Technique</b> .....				36
	<i>Christoph P. Hofstetter</i>				
<b>8.1</b>	<b>Progression of Full-Endoscopic Spine Surgery</b> .....	36	<b>8.4</b>	<b>Continuous Irrigation</b> .....	37
8.1.1	Radiographic Identification of Target Area .....	36	<b>8.5</b>	<b>Working with Tools via the Working Channel</b> .....	37
8.1.2	Transition from Imaging to Palpation .....	36	<b>8.6</b>	<b>Hemostasis</b> .....	37
8.1.3	Transition from Palpation to Direct Visualization .....	36	8.6.1	Areas of Frequent Bleeding .....	37
<b>8.2</b>	<b>Holding the Working-Channel Endoscope</b> ..	36			
<b>8.3</b>	<b>Utilizing the Tubular Retractor</b> .....	37			

<b>9</b>	<b>Essential Tasks of Full-Endoscopic Spine Surgery</b> .....				39
	<i>Christoph P. Hofstetter</i>				
9.1	<b>Create a Working Space</b> .....	39	9.5	<b>Off-Axis Resection of Soft Tissue</b> .....	40
9.2	<b>Defining a Bony Edge</b> .....	39	9.6	<b>Retraction of Neural Elements</b> .....	40
9.3	<b>Optimizing Off-Axis Reach</b> .....	39	9.7	<b>Using the Drill</b> .....	43
9.4	<b>Resection of Soft Tissue in Line with Endoscope</b> .....	40			
<b>10</b>	<b>Preoperative Diagnostic Workup</b> .....				44
	<i>Daniel Carr and Christoph P. Hofstetter</i>				
10.1	<b>Introduction</b> .....	44	10.3	<b>Imaging</b> .....	44
10.2	<b>History and Physical Examination</b> .....	44	10.4	<b>Diagnostic Injections</b> .....	44
<b>Part 2: Lumbar</b>					
<b>11</b>	<b>Interlaminar Endoscopic Lateral Recess Decompression</b> .....				48
	<i>Christoph P. Hofstetter</i>				
11.1	<b>Case Example</b> .....	48	11.7	<b>Identification of the Lateral Margin of Neural Elements</b> .....	52
11.2	<b>Indications</b> .....	48	11.8	<b>Lateral Recess Decompression</b> .....	52
11.3	<b>Approach</b> .....	48	11.9	<b>Retraction of Neural Elements</b> .....	53
11.4	<b>Visualization of the Target Area</b> .....	49	11.10	<b>Ventral Decompression of Neural Elements</b> .....	53
11.5	<b>Hemilaminotomy</b> .....	50	11.11	<b>Pearls and Pitfalls</b> .....	53
11.6	<b>Enter Epidural Space</b> .....	50			
<b>12</b>	<b>Interlaminar Endoscopic Lumbar Discectomy</b> .....				55
	<i>Lynn McGrath and Christoph P. Hofstetter</i>				
12.1	<b>Case Example</b> .....	55	12.4	<b>Enter Epidural Space</b> .....	57
12.2	<b>Indications</b> .....	55	12.4.1	Identify Lateral Margin of Neural Elements . . .	57
12.3	<b>Approach</b> .....	55	12.4.2	Resection of Disk Sequester. . . . .	57
12.3.1	Tissue Dilation and Placement of Working Tube. . . . .	55	12.4.3	Retraction of Neural Elements . . . . .	58
12.3.2	Visualization of the Target Area . . . . .	56	12.4.4	Resection of Residual Disk Fragments and Exploration of the Annular Defect . . . . .	58
12.3.3	Hemilaminotomy . . . . .	57	12.5	<b>Pearls and Pitfalls</b> .....	58
<b>13</b>	<b>Interlaminar Contralateral Endoscopic Lumbar Foraminotomy</b> .....				61
	<i>Christoph P. Hofstetter</i>				
13.1	<b>Case Example</b> .....	61	13.4	<b>Identify Bony Landmarks</b> .....	62
13.2	<b>Indications</b> .....	61	13.5	<b>Laminotomy</b> .....	62
13.3	<b>Approach</b> .....	61	13.6	<b>Enter Epidural Space</b> .....	63

<b>13.7</b>	<b>Contralateral Recess Decompression</b> .....	63	<b>13.9</b>	<b>Pearls and Pitfalls</b> .....	64
<b>13.8</b>	<b>Contralateral Foraminotomy</b> .....	63			
<b>14</b>	<b>Lumbar Endoscopic Unilateral Laminotomy for Bilateral Decompression</b> .....	65			
	<i>Saqib Hasan and Christoph P. Hofstetter</i>				
<b>14.1</b>	<b>Case Example</b> .....	65	<b>14.6</b>	<b>Flavectomy</b> .....	68
<b>14.2</b>	<b>Indications</b> .....	65	14.6.1	Lateral Recess Decompression .....	68
<b>14.3</b>	<b>Approach</b> .....	65	14.6.2	Mobilization of Neural Elements .....	69
<b>14.4</b>	<b>Identification of Bony Landmarks</b> .....	66	<b>14.7</b>	<b>Pearls and Pitfalls</b> .....	69
<b>14.5</b>	<b>Laminotomy</b> .....	67			
<b>15</b>	<b>Endoscopic Extraforaminal Lumbar Discectomy</b> .....	71			
	<i>Christoph P. Hofstetter</i>				
<b>15.1</b>	<b>Case Example</b> .....	71	<b>15.5</b>	<b>Identify Bony Landmarks</b> .....	71
<b>15.2</b>	<b>Indications</b> .....	71	15.5.1	Foraminal Decompression .....	72
<b>15.3</b>	<b>Preoperative Planning</b> .....	71	15.5.2	Extraforaminal Decompression .....	73
<b>15.4</b>	<b>Approach</b> .....	71	<b>15.6</b>	<b>Pearls and Pitfalls</b> .....	73
<b>16</b>	<b>Transforaminal Endoscopic Lumbar Discectomy</b> .....	74			
	<i>Christoph P. Hofstetter</i>				
<b>16.1</b>	<b>Case Example</b> .....	74	<b>16.6</b>	<b>Identify the Traversing Nerve Root</b> .....	76
<b>16.2</b>	<b>Indications</b> .....	74	<b>16.7</b>	<b>Resect the Disk Fragment</b> .....	76
<b>16.3</b>	<b>Preoperative Planning</b> .....	74	<b>16.8</b>	<b>Inspect the Annular Defect</b> .....	78
<b>16.4</b>	<b>Approach</b> .....	74	<b>16.9</b>	<b>Pearls and Pitfalls</b> .....	78
<b>16.5</b>	<b>Identify Bony Landmarks</b> .....	75			
<b>17</b>	<b>Trans-Superior Articular Process Endoscopic Lumbar Approach</b> .....	79			
	<i>Christoph P. Hofstetter</i>				
<b>17.1</b>	<b>Case Example</b> .....	79	<b>17.5</b>	<b>Identify Bony Landmarks</b> .....	80
<b>17.2</b>	<b>Indications</b> .....	79	17.5.1	Decompression of the Intervertebral Foramen ..	82
<b>17.3</b>	<b>Preoperative Planning</b> .....	80	17.5.2	Decompression of the Lateral Recess .....	83
<b>17.4</b>	<b>Approach</b> .....	80	<b>17.6</b>	<b>Pearls and Pitfalls</b> .....	84
<b>18</b>	<b>Transforaminal Endoscopic Lumbar Interbody Fusion</b> .....	85			
	<i>Michael Y. Wang</i>				
<b>18.1</b>	<b>Indications</b> .....	85	<b>18.3</b>	<b>Discectomy and Endplate Preparation</b> .....	85
<b>18.2</b>	<b>Approach and Access</b> .....	85	18.3.1	Interbody Cage Placement and Osteobiologics ..	86

18.3.2	Percutaneous Screw Fixation and Spondylolisthesis Correction.....	86	18.4	<b>Pearls and Pitfalls.....</b>	86
18.3.3	Postoperative Care .....	86			

**Part 3: Thoracic**

<b>19</b>	<b>Transforaminal Endoscopic Thoracic Discectomy.....</b>				90
	<i>Christoph P. Hofstetter</i>				
19.1	<b>Case Example.....</b>	90	19.3.1	Delineate Dura–Disk Interface .....	92
19.2	<b>Indications .....</b>	90	19.3.2	Resect Disk Herniation.....	92
19.2.1	Operating Room Setup and Patient Position....	91	<b>19.4</b>	<b>Pearls and Pitfalls.....</b>	92
19.2.2	Approach .....	91			
19.3	<b>Identify Bony Landmarks and Foraminoplasty.....</b>	91			

**Part 4: Cervical**

<b>20</b>	<b>Anterior Endoscopic Cervical Discectomy.....</b>				96
	<i>J. N. Alastair Gibson</i>				
20.1	<b>Case Example.....</b>	96	20.5	<b>Discectomy .....</b>	97
20.2	<b>Indications .....</b>	96	20.6	<b>Foraminotomy .....</b>	97
20.3	<b>Approach.....</b>	97	20.7	<b>Pearls and Pitfalls.....</b>	99
20.4	<b>Tissue Dilation and Placement of Working Tube .....</b>	97			
<b>21</b>	<b>Posterior Endoscopic Cervical Foraminotomy.....</b>				100
	<i>Christoph P. Hofstetter</i>				
21.1	<b>Case Example.....</b>	100	21.7	<b>Foraminal Decompression.....</b>	102
21.2	<b>Indications .....</b>	100	21.8	<b>Optional Partial Caudal Pedicle Resection ..</b>	103
21.3	<b>Approach.....</b>	100	21.9	<b>Optional Resection of Disk-Osteophyte Complex.....</b>	103
21.4	<b>Identification of Bony Landmarks .....</b>	102	21.10	<b>Pearls and Pitfalls.....</b>	103
21.5	<b>Hemilaminotomy .....</b>	102			
21.6	<b>Identify the Index-Level Nerve Root .....</b>	102			
<b>22</b>	<b>Cervical Endoscopic Unilateral Laminotomy for Bilateral Decompression.....</b>				105
	<i>Daniel Carr and Christoph P. Hofstetter</i>				
22.1	<b>Case Example.....</b>	105	22.5	<b>Hemilaminotomy.....</b>	107
22.2	<b>Indications .....</b>	105	22.6	<b>Undercutting the Spinous Process .....</b>	108
22.3	<b>Approach.....</b>	105	22.7	<b>Contralateral Decompression.....</b>	108
22.4	<b>Visualizing Target Area .....</b>	107	22.8	<b>Pearls and Pitfalls.....</b>	108

**Part 5: Additional Topics**

<b>23</b>	<b>Adapting Full-Endoscopic Technique for Challenging Cases</b> .....	112		
	<i>Christoph P. Hofstetter</i>			
<b>23.1</b>	<b>Morbidly Obese Patients</b> .....	112	<b>23.3.2</b>	Pearls and Pitfalls .....
				114
23.1.1	Case Example .....	112	<b>23.4</b>	<b>Resection of Synovial Cysts</b> .....
23.1.2	Pearls and Pitfalls .....	112		114
<b>23.2</b>	<b>Adapting the Transforaminal Approach for Caudally Migrated Disk Herniations</b> .....	112	23.4.1	Case Example .....
				116
23.2.1	Case Example .....	112	23.4.2	Pearls and Pitfalls .....
23.2.2	Pearls and Pitfalls .....	112		116
<b>23.3</b>	<b>Adapting the Transforaminal Approach for Rostrally Migrated Disk Herniations</b> .....	112	<b>23.5</b>	<b>Transforaminal Access to L5/S1 in Patients with a High Iliac Crest</b> .....
				116
23.3.1	Case Example .....	114	23.5.1	Case Example .....
				116
			23.5.2	Pearls and Pitfalls .....
				116
<b>24</b>	<b>Endoscopic Revision Surgery</b> .....	118		
	<i>Ralf Wagner and Christoph P. Hofstetter</i>			
<b>24.1</b>	<b>Principles</b> .....	118	24.3.3	Interlaminar Endoscopic Lateral Recess Decompression Revision .....
				121
<b>24.2</b>	<b>Indications</b> .....	118	24.3.4	Transforaminal Endoscopic Lateral Recess Decompression Revision .....
				122
<b>24.3</b>	<b>Illustrative Cases</b> .....	118	24.3.5	Interlaminar Endoscopic Approach for Resection of Retropulsed Interbody Cage .....
				123
24.3.1	Interlaminar Endoscopic Lumbar Discectomy Revision .....	118	24.3.6	Transforaminal Endoscopic Thoracic Discectomy Revision .....
24.3.2	Transforaminal Endoscopic Lumbar Discectomy Revision .....	119		123
			24.3.7	Interlaminar Endoscopic Approach for Resection of Sacroiliac Bolt .....
				123
<b>25</b>	<b>Complications Associated with Full-Endoscopic Spine Surgery</b> .....	126		
	<i>Jun Ho Lee and Christoph P. Hofstetter</i>			
<b>25.1</b>	<b>Types of Complications</b> .....	126	25.3.4	Pearls and Pitfalls .....
				129
<b>25.2</b>	<b>Dural Lacerations</b> .....	126	<b>25.4</b>	<b>Hematomas</b> .....
				129
25.2.1	Dural Lacerations Encountered during the Transforaminal Approach .....	126	25.4.1	Case Examples .....
25.2.2	Case Examples .....	126		130
25.2.3	Dural Lacerations Encountered during the Interlaminar Approach .....	127	25.4.2	Pearls and Pitfalls .....
25.2.4	Case Examples .....	128		130
<b>25.3</b>	<b>Dural Lacerations in Full-Endoscopic Spine Surgery</b> .....	129	<b>25.5</b>	<b>Paresthesias</b> .....
				131
25.3.1	Clinical Symptoms .....	129	25.5.1	Case Example .....
25.3.2	Management Algorithm .....	129		131
25.3.3	Surgical Technique .....	129	<b>25.6</b>	<b>Incomplete Transforaminal Endoscopic Lumbar Discectomy</b> .....
				131
			25.6.1	Case Example .....
				132
			25.6.2	Pearls and Pitfalls .....
				134

**26 Perioperative Care in Full-Endoscopic Spine Surgery** ..... 135  
*Lynn McGrath and Christoph P. Hofstetter*

**26.1 Introduction** ..... 135      **26.4 Wound Healing** ..... 135

**26.2 Infection Control** ..... 135      **26.5 Mobilization** ..... 136

**26.3 Pain Management** ..... 135      **26.6 Conclusion** ..... 136

**Appendix: AOSpine Nomenclature System** ..... 137

**Index** ..... 138
