Foreword	vii
Preface	ix
1 Ultrasound Scanning of the Female Pelvis: Normal Findings	1
Introduction	1
Pelvic Wall Structures	1
Nonreproductive Organs	1
Reproductive Organs	3
References	7
2 Ultrasound for Differential Diagnosis of Adnexal Masses	9
Introduction	9
Pattern Recognition.....	9
Scoring Systems	10
Simple Rules.....	10
Logistic Regression Models	12
Reporting Ultrasound Findings of Adnexal Masses.....	12
Other Imaging Techniques for Differential Diagnosis of Adnexal Masses.....	13
Ultrasound-Based Imaging Techniques.....	13
Other Imaging Techniques.....	15
References	16
3 Ultrasound Features of Ovarian Malignancies	17
Introduction	17
Borderline Tumors.....	17
Primary Epithelial Invasive Ovarian Carcinoma.....	18
Primary Nonepithelial Ovarian Malignancies.....	19
Dysgerminoma	20
Sertoli Cell Tumors	20
Granulosa Cell Tumors	21
Other Nonepithelial Ovarian Tumors	21
Metastatic Tumors to the Ovary.....	22
References	23
4 Ultrasound Assessment of Intra-Abdominal Spread of Ovarian Cancer	25
Introduction	25
Computed Tomography (CT) Scan	25
Magnetic Resonance Imaging (MRI)	25
Positron Emission Tomography (PET).....	26
Ultrasound	26
References	29
5 Ultrasound Features of Endometrial Cancer	31
Introduction	31
Ultrasound for Diagnosing Endometrial Cancer	31
Ultrasound Features of Endometrial Cancer	35
References	36
6 Ultrasound Features of Uterine Sarcomas	39
Introduction	39
Ultrasound Features of Uterine Sarcomas	39
Ultrasound Features of Uterine LMS	39

Ultrasound Features of EES.....	40
Other Imaging Techniques for the Diagnosis of Uterine Sarcomas.....	42
References.....	43
7 Ultrasound Assessment of Locoregional Spread of Endometrial Cancer.....	45
Introduction.....	45
Ultrasound for Assessing Myometrial and Cervical Infiltration in Endometrial Cancer.....	45
Two-Dimensional Ultrasound.....	45
Three-Dimensional Ultrasound.....	49
Other Imaging Techniques.....	49
References.....	49
8 Ultrasound Features of Uterine Cervical Cancer.....	51
Introduction.....	51
Ultrasound Features of Uterine Cervical Cancer.....	51
Ultrasound for Assessing Locoregional Spread of Cervical Cancer.....	52
Tumor Size and Stromal Invasion.....	52
Parametrial Infiltration.....	53
Ultrasound for Assessing Treatment Response in Locally Advanced Cervical Cancer.....	57
References.....	57
9 Ultrasound Features of Gestational Trophoblastic Disease.....	61
Introduction.....	61
Hydatiform Mole.....	61
Gestational Trophoblastic Neoplasia.....	63
The Role of Doppler Ultrasound in GTD.....	65
Role of Other Imaging Techniques for Assessing GTD.....	65
References.....	65
10 Ultrasound-Guided Procedures in Gynecologic Oncology.....	67
Introduction.....	67
Tru-Cut Biopsy.....	67
Fine Needle Aspiration (FNA) Biopsy.....	68
Drainage.....	68
Other Ultrasound-Guided Procedures.....	69
References.....	69
11 Ultrasound in Vulvar and Vaginal Cancer.....	71
Introduction.....	71
Role of Ultrasound in Vulvar Cancer.....	71
Role of Ultrasound in Vaginal Cancer.....	73
References.....	76
Index.....	79
