

# FACCE D'AMORE

FACCE D'AMORE is Jakub's second solo album. While his first, ANIMA SACRA, focused on the spirit through sacred music of the 18th century, this second album features an array of operatic arias painting the musical picture of a male lover in the Baroque. The selected pieces approach the theme of love from totally different angles: the joy of reciprocated love, but also love-fuelled anger, even madness. Underlying this spectrum of emotional experiences is a gradual journey through the baroque era featuring a programme of works some known, some never before recorded.
