<i>List of Figures</i>	xii
<i>List of Tables</i>	xiii
<i>Foreword: The Malay Archipelago Revisited</i> by Michael R. Dove	xv
<i>Preface</i>	xxi
1 Models of Change	1
<i>A point of departure</i>	1
<i>The origins of order</i>	4
<i>A clock that keeps good time</i>	5
<i>Neutral drift</i>	6
<i>Nonlinear systems</i>	7
<i>Triggers for nonlinear transitions</i>	10
<i>Complex adaptive systems</i>	11
<i>Discovering islands of order</i>	14
<i>Conclusion</i>	20
2 Discovering Austronesia	22
<i>Introduction</i>	22
<i>Dubois' remarkable discovery</i>	23
<i>The first migration of modern humans</i>	26
<i>The second migration: Austronesians</i>	27
<i>Surprises in the data</i>	29
<i>The toolkits: Population genetics and kinship</i>	32
<i>The implications of matrilocality</i>	35
<i>First model: Sex bias and language replacement</i>	37
<i>Why the barrier in Wallacea?</i>	39
<i>Second model: Demographic skew</i>	40
<i>Generations of butterfly effects</i>	41
<i>Conclusion</i>	44
3 Dominance, Selection, and Neutrality	46
<i>Introduction</i>	46
<i>Selection for dominance?</i>	48
<i>The meek shall inherit...</i>	54
<i>Neutral tests and the neutral theory:</i> <i>From genetics to ecology</i>	56

	<i>Transience and time scales: Baby names</i>	59
	<i>Transience and time scales: Potsherds and archaeology</i>	64
	<i>Conclusion</i>	66
4	Language and Kinship in Deep Time	68
	<i>Return to Wehali</i>	73
	<i>Cophylogenies of languages and genes</i>	77
	<i>The implications of host switching</i>	84
	<i>Kinship and language transmission</i>	88
	<i>Language and kinship in deep time</i>	90
	<i>Zooming in to the community scale</i>	91
	<i>Conclusion</i>	95
5	Islands of Cooperation	97
	<i>Prelude: How Bali became Bali</i>	97
	<i>Introduction</i>	98
	<i>Terracing volcanoes</i>	100
	<i>Ecology of the rice terraces</i>	102
	<i>A cooperation game</i>	104
	<i>Testing the game-theoretical model</i>	109
	<i>An agent-based model of the coupled system</i>	111
	<i>Conclusion</i>	116
6	Adaptive Self-Organized Criticality	118
	<i>Mosaics and power laws</i>	119
	<i>Universal Bali: A lattice model</i>	120
	<i>Results of the lattice model</i>	124
	<i>Comparison with satellite imagery</i>	126
	<i>Why power laws?</i>	128
	<i>Conclusion</i>	130
7	Transition Paths	136
	<i>Introduction</i>	136
	<i>Does age matter?</i>	138
	<i>A pilot study of cooperation</i>	141
	<i>Results of the pilot study</i>	143
	<i>Exploring differences in regimes</i>	145
	<i>Conclusion</i>	153
8	From the Other Shore	154
	<i>Revisiting the Austronesian expansion</i>	156
	<i>The protosystem and the structural core</i>	159
	<i>Phase portraits</i>	162
	<i>Sex and power, revisited</i>	165
	<i>Reflections on stone boats</i>	171

<i>Emergence of a new synchronic whole in Bali</i>	175
<i>Afterword</i>	177
<i>Appendix A. Correlation Functions</i>	183
<i>Appendix B. Game and Lattice Models</i>	185
<i>Appendix C. Intra- and Intersubak Coordination of Irrigation</i>	187
<i>Appendix D. Fisher Information</i>	190
<i>Appendix E. Energy Landscape Analysis</i>	192
<i>Appendix F. Survey Questions Used in Chapter 7</i>	194
<i>Index</i>	203
1. Shared Austronesian Y chromosome haplotypes	34
2. Asian ancestry and admixture	38
3. Differences between effective population sizes across the entire archipelago, from west to east	43
4. Genetic markers tracing lines of descent	49
5. Persistence times of non-neutral diversity	51
6. Estimated population sizes	52
7. Power law distribution of baby names	62
8. Clan origin houses in a Sumbanese village	69
9. Solmen commemorating ancestry in a Sumbanese village	70
10. Weaving a sarong	70
11. A cophylogeny of gupberts and lice	73
12. Map of languages in Wehali and neighbors	74
13. A cophylogeny of languages and genes	75
14. Language sharing in the cophylogenies of Timor	76
15. Comparison of languages in adopted villages on Sumba and Timor	78
