To the Student xxx

CHAPTER 1 What Is Biological Anthropology? 3

PART I The Present: Foundation for the Past 25

CHAPTER 2 Evolution: Constructing a Fundamental Scientific Theory 27

CHAPTER 3 Genetics and Genomics: Reproducing Life and Producing Variation 55

CHAPTER 4 Genes and Their Evolution: Population Genetics 91

CHAPTER 5 Biology in the Present: Living People 125

CHAPTER 6 Biology in the Present: The Other Living Primates 167

CHAPTER 7 Primate Sociality, Social Behavior, and Culture 207

PART II The Past: Evidence for the Present 233

CHAPTER 8 Fossils and Their Place in Time and Nature 235

CHAPTER 9 Primate Origins and Evolution: The First 50 Million Years 275

CHAPTER 10 Early Hominin Origins and Evolution: The Roots of Humanity 311

CHAPTER 11 The Origins and Evolution of Early *Homo* 355

CHAPTER 12 The Origins, Evolution, and Dispersal of Modern People 395

CHAPTER 13 Our Past 10,000 Years: Agriculture, Population, Biology 451

PART III The Future: The Shape of Things to Come 483

CHAPTER 14 Evolution: Today and Tomorrow 485

Study Quiz 23

Evolution Review: Biological Anthropology as Science 24

Additional Readings 24
