List of Contributors / 209

Index / 211

A second objective is to encourage a learning environment of self-discovery. Success in "teaching" is less the result of the talent of the teacher or the intellect of the student than it is the medium of communication itself. As the saying goes, "The medium is the message." Paul Goodman and Charles Weingartner in *Breaking as a Subversive Activity*—the title of the typical learning environment where students are expected to obey and submit. "The Right
