Preface	xiii
About the Editors	xv
Contributors	xvii
Section I: Foundations and Practicalities	1
1. Brain Basics	3
<i>Leonard L. LaPointe</i>	
Introduction	3
Basics of Neuroscience	4
CNS Divisions	4
Summary	7
Chapter Review	7
2. Humanistic Basics: Accommodation, Adjustment, and Aristos	8
<i>Leonard L. LaPointe</i>	
Introduction	9
The Wreck	10
Impairment, Disability, Handicap, Activities, Participation	10
The Illness Experience	11
Stages	12
Being a Patient	15
Mood Alterations and Depression	15
Adaptation to Chronic Illness	16
Chronicity	16
Stages of Chronicity	17
Research in Adaptation	17
Family Systems and Caregivers	19
The Raft	20
Aristos	21
Summary	21
Chapter Review	21
3. Aphasia Theory, Models, and Classification	23
<i>David A. Copland, Malcom R. McNeil, and Marcus Meinzer</i>	
Introduction	23
The Dominant Paradigm	23
Cognitive Neuropsychological Models	24
Computational Models	24
Contemporary Neurobiological Models of Language	25
Theories and Models of Aphasia Rehabilitation	26
Classification Systems	26
Summary	31
4. Neuroimaging and Brain-Based Communication Disorders	35
<i>Julius Fridriksson, Brielle Stark, and Alexandra Basilakos</i>	
Introduction	35
Structural Neuroimaging	35
Improvements in Brain Visualization and Lesion–Symptom Mapping with Structural MRI	36
Functional Neuroimaging	39
Functional Neuroimaging of Treatment	41
Chapter Review	41

5. Care for People with Aphasia and Related Neurogenic Communication Disorders in Acute Hospital Settings	44		
<i>Joseph R. Duffy, Tepanta R.D. Fossett, Jack E. Thomas, and Julie A.G. Stierwalt</i>			
Introduction	44	Some Data from the Mayo Clinic Practice	46
The Acute Care Hospital Setting Defined	45	Considerations for Evaluation and Management	48
Some Relevant Demographics	45	Summary	51
Speech-Language Pathology Service in the Acute Hospital Setting: The Literature	46	Chapter Review	51
		Case Studies	51
6. Multicultural and Multilinguistic Issues	55		
<i>Joyce L. Harris</i>			
Introduction	55	Client-Centered Approaches to Intervention ...	59
The Culturally and Linguistically Diverse Client Base	55	Multicultural and Multilinguistic Issues in Communication	59
Health Profile of Culturally and Linguistically Diverse Populations	57	Summary	61
Professional Issues	58	Chapter Review	61
		Glossary	61
Section II: Assessment and Treatment			
			65
7. General Principles of Assessment	67		
<i>Rachel K. Johnson</i>			
Introduction	67	Guidelines for Assessment According to Clinic Setting	74
Background	67	Summary	75
Goals of the Assessment	67	Chapter Review	75
Assessment Procedures	68		
Assessment Tools	71		
8. Naming and Word Retrieval Impairments	77		
<i>Anastasia M. Raymer</i>			
Introduction	77	Treatment of Word Retrieval Impairments	80
Pathophysiology of Naming Impairments	77	Future Directions and Summary	84
Assessment of Naming	78	Chapter Review	85
Nature and Differentiating Features of Naming Impairments	80	Case Study	85
9. Comprehension	90		
<i>Mikyong Kim</i>			
Introduction	90	Summary	98
Assessment	90	Chapter Review	99
Treatment	93	Glossary	99
Clinical Case Illustration	97		

10. Acquired Impairments of Reading and Writing	100		
<i>Pélagie M. Beeson, Kindle Rising, and Steven Z. Rapcsak</i>			
Introduction	100	Alexia/Agraphia Profiles Associated with Peripheral Impairments	107
Impairments to Central Reading and Spelling Processes	100	Summary	110
Alexia and Agraphia Profiles Associated with Left Perisylvian Damage and Phonological Impairment	101	Chapter Review	110
Alexia/Agraphia Associated with Extrasylvian Damage and Semantic and/or Orthographic Impairment	105		
11. Syntax and Linguistic-Based Approaches	113		
<i>Gayle DeDe and Erin O'Bryan</i>			
Introduction	113	Syntactically Oriented Treatments II: Treatments that Focus on Sentence Structure ..	118
Why Are Some Sentences More Difficult than Others?	113	Summary	121
Syntax	114	Chapter Review	121
Assessment	116	Case Study	122
Syntactically Oriented Treatments I: Verb-Centered Treatments	118	Questions for Discussion	122
12. Pragmatics and Discourse	124		
<i>Leanne Togher</i>			
Introduction	124	Summary	130
Pragmatics	124	Chapter Review	130
Discourse	126		
13. Social and Life Participation Approaches to Aphasia Intervention	135		
<i>Roberta J. Elman</i>			
Introduction	135	Treatment	138
Models of Health Care	135	Specific Treatment Approaches	139
Evolution Toward a Social Approach	137	Discharge Issues	141
Emphasis on Wellness and Quality of Life	138	Chronicity of Aphasia	141
Focus on Conversation	138	Advocacy and Raising Awareness	141
The Insider's Perspective	138	Summary	141
Evaluation	138	Chapter Review	141
14. Assistive Technology	146		
<i>Joanne P. Lasker</i>			
Introduction	146	Technology Designed to Improve Communicative Functions—AAC Systems	150
Technology to Restore Function: Computer-Based Treatment	146	Conventional Technology Reenvisioned for People with Aphasia	152
Treatment Modalities Addressed	147	Summary	153
Computer-Based Approaches that Bridge Practice and Communication	149	Chapter Review	153

15. Treatment Effectiveness and Evidence-Based Practice	155
<i>Randall R. Robey</i>	
Introduction	155
An Overview of Treatment Effectiveness	155
Meta-Analyses and Systematic Reviews of Aphasia Treatment Literature	155
An Overview of Evidence-Based Practice	157
Four Sources of Information	157
Five Procedural Steps	158
Making Evidence-Based Practice Work	159
Taking Stock	162
Chapter Review	163
16. Telepractice	165
<i>Julie A.G. Stierwalt</i>	
Introduction	165
Case Study	165
Telepractice	166
Application in Speech Pathology	168
The Future of Telepractice	168
Chapter Review	169
17. Digital and Electronic Advances in the Management of Aphasia and Related Neurogenic Language Disorders	172
<i>Rene L. Utianski</i>	
Introduction	172
Assessment	172
Treatment	173
Challenges	174
Summary	175
Chapter Review	175
Case Studies	176
18. Resources for Families and Clinicians	178
<i>Adrienne B. Hancock</i>	
Introduction	178
Characteristics of Caregivers	178
Caregivers and Patients as Part of a Family System	178
Caregivers' Needs	179
Resources	179
General Information	180
Organizations	180
Videos and Materials	181
Resources Especially for Families and Caregivers	182
Resources Especially for Clinicians	183
Important Perspectives	183
Summary	184
19. Funding and Reimbursement of Speech-Language Services	185
<i>Nancy B. Swigert</i>	
Introduction	185
Government-Sponsored Programs	185
Private Insurance	187
Retrospective and Prospective Payment Systems	187
Medicare Reimbursement in Different Settings	188
Changes in Reimbursement—Shift Focus to Value and Outcomes	191
Guidelines and Regulations for Reimbursement	191
Penalties and Repayment	192
Coding to Support Reimbursement	192
Ethics of Reimbursement	194
Summary	195
Chapter Review	195
Case Study	195

Section III: Related Cognitive-Language Disorders	197
20. Primary Progressive Aphasia	199
<i>Stephanie M. Grasso, Holly A. Hinshelwood, and Maya L. Henry</i>	
Introduction	199
Clinical Phenotypes	200
Assessment of Speech-Language and Cognition in Primary Progressive Aphasia	203
Speech and Language Treatment for Primary Progressive Aphasia	203
Summary	207
Chapter Review	207
Case Study	207
21. Communication Disorders Associated with Right Hemisphere Brain Damage	211
<i>Margaret L. Blake and Jessica Connors</i>	
Introduction	211
General Characteristics	211
Communication	212
Attention and Neglect	213
Executive Functions	214
Summary	215
Chapter Review	215
22. Dementia	217
<i>Michelle S. Bourgeois</i>	
Introduction	217
Nature and Differentiating Features	218
Evaluation	220
Treatment	222
Memory Treatment Strategies	222
Environmental Strategies	223
Summary	224
Chapter Review	224
23. Traumatic Brain Injury, Blast Injuries, and Multisystem Injuries	228
<i>Carl A. Coelho and Andre Lindsey</i>	
Introduction	228
Epidemiology	228
Blast Injuries	228
Pathophysiology of Traumatic Brain Injury	229
Prognosis Following Traumatic Brain Injury	230
Rehabilitation Outcomes	231
Continuum of Care for Traumatic Brain Injury ..	231
Cognitive and Communicative Impairments Following Traumatic Brain Injury	232
Summary of Evidence-Based Reviews for Cognitive–Communicative Interventions ...	234
Behavioral Interventions	236
Summary	236
Chapter Review	237
24. Communication and Cognition	240
<i>Mary H. Purdy</i>	
Introduction	240
Components of Cognition	240
Cognition and Communication	246
Cognition and Communication Following Brain Damage	247
Summary	248
Chapter Review	248
Index	251
