

<i>Yu Zhang, Hai Bi, Yidu Yang</i> : Asymptotic lower bounds for eigenvalues of the Steklov eigenvalue problem with variable coefficients .....	1
<i>Martin Ladecký, Ivana Pultarová, Jan Zeman</i> : Guaranteed two-sided bounds on all eigenvalues of preconditioned diffusion and elasticity problems solved by the finite element method .....	21
<i>Huanyuan Li</i> : A blow-up criterion for the strong solutions to the nonhomogeneous Navier-Stokes-Korteweg equations in dimension three .....	43
<i>Martina Pavlačková, Pavel Ženčák</i> : Dirichlet boundary value problem for an impulsive forced pendulum equation with viscous and dry frictions .....	57
<i>Hongli Wang, Jianwei Yang</i> : Incompressible limit of a fluid-particle interaction model .....	69
<i>El-Hassan Benkhira, Rachid Fakhar, Youssef Mandyly</i> : A convergence result and numerical study for a nonlinear piezoelectric material in a frictional contact process with a conductive foundation .....	87
<i>Mohamed Mandari, Mohamed Rhoudaf, Ouafa Soualhi</i> : The generalized finite volume SUSHI scheme for the discretization of the peaceman model .....	115
<i>Abdelghani El Mousaoui, Pierre Argoul, Mohammed El Rhabi, Abdelilah Hakim</i> : Kinetic BGK model for a crowd: Crowd characterized by a state of equilibrium	145
