

CONTENTS

Volume One

Section I

DISCIPLINES

1 Growth and Development	3	4 The Orthopaedic Examination: Clinical Application	51
Normal Growth and Development	3	Screening Examinations	51
Disorders of Normal Growth and Development	3	Hip Examination	51
Malformations	3	Other Newborn Screening Examinations	52
Deformations	5	Scoliosis Examination	52
Disruptions	5	General Childhood Screening Examination	52
Dysplasias	5	The Focused Examination	53
Evolution of Proportionate Body Size	5	Intoeing	53
Physical Growth	5	Flatfoot	54
Head Circumference	5	Leg Length Discrepancy	55
Height and Weight	6	Spinal Deformity	57
Epiphyseal Growth and Closure	6	The Art of Examining the Pediatric Patient	58
Tanner Stages of Development	6	5 Gait Analysis	61
Developmental Milestones	6	Phases of Gait	61
Gross Motor Skills	6	Stance Phase	61
Fine Motor Skills	6	Swing Phase	61
Personal, Social, and Verbal Skills	19	Time Spent in Each Phase	61
2 The Orthopaedic History	22	Temporal (Cadence) Parameters	61
Chief Complaint	22	Neurologic Control of Gait	62
History of Present Illness	22	Function of Gait	62
Family History	22	Gait Energy	62
Birth History	22	Kinematics	63
Prenatal History	22	Sagittal Plane	63
Natal History	23	Coronal Plane	63
Neonatal History	23	Transverse Plane	64
Growth and Development: Key Questions	23	Muscle Activity	64
3 The Orthopaedic Examination: A Comprehensive Overview	24	Types of Muscle Contraction	65
Recognizing Deformities	24	Muscle Activity During Stance and Swing Phases	66
Angular Deformity	24	Gait Analysis Laboratories	67
Range of Motion	24	6 The Limping Child	69
The Shoulder	26	Abnormal Gait Patterns in Children	69
The Elbow	28	Antalgic Gait	69
The Forearm	30	Trendelenburg Gait	69
The Cervical Spine	30	Proximal Muscle Weakness Gait	70
Motion of the Spine	30	Spastic Gait	70
The Hip	31	Short-Limb Gait	70
The Knee	36	Special Considerations Based on Age Group	70
The Ankle	36	Toddler (Ages 1 to 3 Years)	70
The Foot	38	Child (Ages 4 to 10 Years)	72
Muscle Strength	38	Adolescent (Ages 11 to 15 Years)	72
Neurologic Assessment	39	7 Back Pain	73
Developmental Reflexes	39	History	73
		Nature of the Pain	73
		Constitutional Symptoms	73

Aggravating and Alleviating Factors	73
Age-Related Conditions	74
Assessment of General Symptoms	74
Physical Examination	74
General Inspection	74
Assessment of the Spine	74
Neurologic Assessment	75
General Physical Assessment	75
Diagnostic Studies	75
Radiography	75
Bone Scan	76
Computed Tomography	76
Single-Photon Emission Computed Tomography	76
Magnetic Resonance Imaging	76
Laboratory Tests	76
Differential Diagnosis	77
Mechanical Disorders	77
Developmental Disorders	79
Infectious and Inflammatory Conditions	81
Neoplasms	83
Malignancies	84
Intraabdominal and Intrathoracic Causes of Back Pain	86

Section II

ANATOMIC DISORDERS

8 Disorders of the Neck	89
Overview	89
Developmental Anatomy	89
Atlas	89
Axis	89
Subaxial Cervical Spine	90
Unique Characteristics	90
Cervical Deformity: Torticollis	91
Deformity Without Pain—Congenital Torticollis	91
Deformity With Pain	108
Inflammatory and Septic Causes	114
Cervical Deformity: Kyphosis	116
Congenital or Developmental Kyphosis	117
Acquired Postlaminectomy Kyphosis	123
Cervical Hyperlordosis	125
Cervical Instability	127
Os Odontoideum	127
Down Syndrome	127
Atlantooccipital Anomalies	128
Odontoid Anomalies and Ligamentous Instability in Skeletal Dysplasia	128
Nontraumatic Atlantooccipital Instability	129
Subaxial Instability	129
9 Scoliosis	132
Definition	132
Classification of Scoliotic Curves	132

Idiopathic Scoliosis	132
Adolescent Idiopathic Scoliosis	132
Prevalence	132
Natural History	132
Scoliosis Screening	135
Etiology	137
Pathophysiology	138
Clinical Features	139
Radiographic Findings	143
Treatment	146
Curve Patterns	151
Posterior Spinal Instrumentation	164
Development of Instrumentation for Scoliosis Surgery	164
Other Methods of Assessing Screw Placement	168
Clinical Outcome	168
Posterior Mobilization Techniques	168
Anterior Spinal Instrumentation	173
Anterior Approach to Thoracolumbar and Lumbar Curves	173
Solid-Rod Anterior Instrumentation	175
Anterior Instrumentation for Thoracic Deformity	175
Juvenile Idiopathic Scoliosis	176
Predicting Curve Progression	176
Neural Axis Abnormalities	176
Congenital Spinal Deformities	176
Etiology	176
Associated Abnormalities	177
Congenital Scoliosis	178
Congenital Kyphosis	185
Natural History	186
Clinical Features	187
Radiographic Findings	188
Treatment	188
Segmental Spinal Dysgenesis, Congenital Vertebral Displacement, and Congenital Dislocation of the Spine	190
Early-Onset Scoliosis	191
Effect on Respiratory Function	193
Treatment	197
Operative Treatment	202
Results—Magnetic Controlled Growing Rods	212
Hybrid Technique	212
Expansion Thoracoplasty With VEPTR	214
Growth Guidance Constructs	218
Summary	219
Other Causes of Scoliosis	219
Neurofibromatosis	219
Marfan Syndrome	224
Congenital Heart Disease	225
Thoracotomy	226
Laminectomy	227
Irradiation	228
Hysterical Scoliosis	228

10 Kyphosis	253	Principles of Reconstruction	329
Posture	253	Architecture and Hand Physiology	329
Causes of Hyperkyphosis	253	Nerve Function: Sensibility and Power	330
Postural Kyphosis	253	Architecture of the Hand	331
Scheuermann Kyphosis	253	Planning Reconstruction	331
Determining Fusion Levels	257	Evaluation of the Child for Reconstruction	332
Summary	261	Congenital Anomalies	334
Progressive Noninfectious Anterior Fusion	261	Classification	334
Postlaminectomy or Postirradiation Kyphosis	261	Diagnosing Associated Anomalies	334
Postlaminectomy Kyphosis	261	Radial Longitudinal Deficiency	336
Postirradiation Kyphosis	262	Congenital High Scapula (Sprengel Deformity)	343
Miscellaneous Causes of Kyphosis	267	Pseudarthrosis of the Clavicle	344
Achondroplasia	267	Ulnar Longitudinal Deficiency	344
Pseudoachondroplasia	267	Phocomelia (Proximal Longitudinal Dysplasias)	346
Spondyloepiphyseal Dysplasia/ Mucopolysaccharidosis	267	Synostosis of the Radius and Ulna	347
Marfan Syndrome	267	Arthrogyrosis in the Upper Limb	349
11 Other Anatomic Disorders of the Spine	270	Madelung Deformity	354
Spondylolisthesis	270	Polydactyly	358
Classification	270	Syndactyly	368
Pathoanatomy	270	Thumb Abnormalities	378
Clinical Features	274	Macroductyly	380
Radiographic Findings	274	Congenital Band Syndrome	384
Prognosis and Natural History	279	Apert Syndrome	390
Treatment	280	Juvenile Arthritis and Other Noninfectious Inflammatory Conditions	392
Lumbar Disk Herniation	292	General Principles	393
Incidence	292	Wrist Involvement	393
Causes	292	Hand Involvement	397
Clinical Features	293	Treatment of Digital Involvement	398
Radiographic Findings	294	Other Noninfectious Inflammatory Conditions	399
Treatment	294	Infections	400
Slipped Vertebral Apophysis	296	Paronychia	401
Clinical Features	296	Felon	401
Radiographic Findings	296	Herpetic Whitlow	402
Treatment	296	Pyogenic Tenosynovitis	402
Transitional Vertebra (Bertolotti) Syndrome	297	Deep-Space Infections	403
12 Disorders of the Upper Extremity	300	Bite Wounds	403
Introduction	300	Septic Arthritis	403
Embryology	300	Osteomyelitis	403
History and Examination	301	Other Infections	403
Timing of Surgical Procedures	305	Conditions Mimicking Infection	404
Principles of Dressings and Splinting	307	Neonatal Brachial Plexus Palsy	404
Dressings	307	Etiology	404
Hand Therapy	310	Classification	404
Principles of Acute Care	323	Clinical Features	405
General Principles	323	Prognosis and Natural History	405
Tendon Injury	326	Differential Diagnosis	405
Nerve Injury	327	Treatment	405
Skin Injury	327	Residual Deformities	406
Bone Injury	327	Management of Residual Deformities	407
Vascular Injury	328	Tumors of the Upper Limb	410
		Nonneoplastic Masses	410
		Neoplasms	411

Microsurgery	413	<i>Osteotomies That Augment the Acetabulum</i>	469
<i>Replantation (Attachment of Severed Parts)</i>	413	Teratologic Dislocation of the Hip	471
<i>Revascularization</i>	413	14 Legg-Calvé-Perthes Disease	527
<i>Free Tissue Transfer</i>	413	Definition	527
<i>Free Motorized Muscle Transfer</i>	414	Incidence	527
<i>Free Toe Transfer</i>	415	History	527
<i>Free Vascularized Bone Transfers</i>	415	Etiology	528
<i>Free Joint Transfer for Radial Clubhand</i>	417	Pathology and Pathophysiology	534
13 Developmental Dysplasia of the Hip	422	<i>Hip Synovitis</i>	534
Definition	422	<i>Histopathology of the Epiphysis</i>	535
Incidence	422	<i>Findings Suggestive of Double Infarction of the Epiphysis</i>	536
Etiology	423	<i>Pathogenesis of Femoral Head Deformity</i>	537
<i>Ligamentous Laxity</i>	423	<i>Histopathology of the Epiphyseal and the Physeal Cartilage</i>	538
<i>Prenatal Positioning</i>	424	<i>Metaphyseal Changes</i>	540
<i>Postnatal Positioning</i>	424	Clinical Features	540
<i>Racial Predilection</i>	425	<i>Symptoms</i>	540
Associated Conditions	425	<i>Signs</i>	541
Pathophysiology	425	<i>Clinical Course</i>	542
<i>Normal Hip Development</i>	425	<i>Natural History of the Disease</i>	542
<i>Hip Development With Developmental Dysplasia of the Hip</i>	427	Radiographic Findings	543
Natural History	430	<i>Radiographic Staging of Disease Evolution</i>	543
<i>Neonatal Hip Instability</i>	430	<i>Other Radiographic Findings</i>	547
<i>Dysplasia, Subluxation, and Dislocation After the Neonatal Period</i>	430	<i>Scintigraphy</i>	553
Clinical Features	431	<i>Arthrography</i>	553
<i>Neonate</i>	431	<i>Ultrasonography</i>	554
<i>Infant</i>	432	<i>Computed Tomography</i>	554
<i>Walking Child</i>	434	Radiographic Classification Systems for Prognostication	554
Radiographic Findings	434	<i>Catterall Classification</i>	554
<i>Ultrasonography</i>	434	<i>Salter-Thompson Classification</i>	554
<i>Radiography</i>	437	<i>Lateral Pillar Classification</i>	554
<i>Arthrography</i>	440	<i>Classification of End Results</i>	557
<i>Magnetic Resonance Imaging</i>	442	Quantitative Measures of Femoral Head Sphericity and Congruency	561
Screening Criteria	442	<i>Prognostic Risk Factors</i>	561
Treatment	442	Differential Diagnosis	561
<i>Treatment of the Neonate</i>	442	Treatment	563
<i>Treatment of the Young Child (2 to 6 Months Old)</i>	444	<i>Concept of Containment Treatment</i>	563
<i>Treatment of the Child (6 Months to 2 Years Old)</i>	446	<i>Evaluation of the Concept of Containment Treatment</i>	563
<i>Treatment of the Older Child (2 Years Old and Older)</i>	453	<i>Symptomatic Therapy</i>	564
Complications and Pitfalls	453	<i>Nonsurgical Containment Using Orthotic Devices</i>	564
<i>Avascular Necrosis</i>	453	<i>Surgical Containment</i>	565
<i>Inadequate Reduction and Redislocation</i>	458	<i>Other Surgical Treatments</i>	569
<i>Residual Acetabular Dysplasia</i>	458	<i>Our Current Treatment Approach</i>	570
<i>Acetabular Dysplasia Presenting Late</i>	459	<i>During the Early Stages of the Disease</i>	570
Reconstructive Procedures for Dysplasia	461	<i>Treatment of Healed Femoral Heads With Incongruity and Impingement</i>	572
<i>Simple Pelvic Osteotomies That Reposition the Acetabulum</i>	461	<i>Treatment of Osteochondrotic Lesions in the Femoral Head</i>	578
<i>Complex Osteotomies That Reposition the Acetabulum</i>	464	Long-Term Prognosis	579
<i>Spherical Acetabular Osteotomy</i>	468		

15 Slipped Capital Femoral Epiphysis	581	18 Disorders of the Leg	630
Incidence and Epidemiology	581	Disorders of the Knee Presenting in	
Classification	582	Infancy	630
Functional Classification	582	Congenital Hyperextension and	
Classification Based on Onset of		Dislocation of the Knee	630
Symptoms	582	Congenital Dislocation of the Patella	635
Morphologic Classification	582	Disorders of the Legs Presenting	
Etiology	583	After Infancy	636
Mechanical Factors	583	Genu Varum (Bowlegs)	636
Endocrine Factors	584	Genu Valgum (Knock-Knees)	656
Pathology	585	Tibial Torsion	663
Clinical Features	586	Bowing of the Tibia	664
Stable, Chronic Slipped Capital Femoral		Congenital Pseudarthrosis of the Fibula	679
Epiphysis	586	19 Disorders of the Foot	682
Unstable Acute or Acute-on-Chronic		Introduction	682
Slipped Capital Femoral Epiphysis	586	Normal Variations	682
Chondrolysis Complicating Slipped		Os Trigonum	682
Capital Femoral Epiphysis	587	Accessory Navicular	686
Radiographic Findings	587	Osteochondroses	689
Plain Radiography	587	Köhler Disease	689
Computed Tomography	588	Freiberg Infracrion	690
Technetium-99 Bone Scan	588	Congenital Deformities	691
Ultrasonography	588	Postural Deformities	691
Magnetic Resonance Imaging	588	Talipes Calcaneovalgus	694
Treatment	589	Flexible Flatfoot (Pes Planovalgus)	696
Initial Management	589	Skewfoot	706
Definitive Treatment	589	Congenital Talipes Equinovarus (Clubfoot)	706
Residual Deformity After Primary		Vertical Talus	741
Treatment	595	Tarsal Coalition	747
Prophylactic Treatment of the		Cleft Foot	754
Contralateral Hip	598	Neurogenic Abnormalities	755
Complications	598	Cavus Foot	755
Avascular Necrosis	599	Toe Deformities	768
Chondrolysis	603	Hallux Valgus	768
Prognosis	604	Hallux Valgus Interphalangeus	775
Remodeling After Epiphyseal Stabilization	604	Hallux Varus	775
Summary of Natural History and		Hallux Rigidus	777
Prognosis	605	Polydactyly	778
16 Congenital Coxa Vara	616	Syndactyly	779
Incidence	616	Macrodactyly	780
Etiology	616	Varus Fifth Toe	782
Clinical Features	616	Curly Toe	783
Radiographic Findings	617	Hammer Toe	784
Pathophysiology	618	Mallet Toe	785
Biomechanics	619	Longitudinal Epiphyseal Bracket	785
Treatment	619	Hair Tourniquet Syndrome	785
17 Disorders of the Femur	625	Subungual Exostosis	786
Femoral Anteversion	625	Glomus Tumor	786
Definition	625	20 Limb Length Discrepancy	806
Clinical Features	625	Leg Length Inequality	806
Differential Diagnosis	625	Etiology and Associated Conditions	806
Prognosis and Natural History	625	Impact of Inequality	807
Association With Other Conditions	626	Assessment of Inequality	809
Measurement	627	Prediction of Leg Length Inequality	
Treatment	627	in the Skeletally Immature Child	812
Snapping Iliotibial Band Syndrome	628	Treatment	823

Angular Deformity	850	<i>Bilateral Upper-Limb and One Lower-Limb</i>	
<i>Etiology</i>	850	Absence	920
<i>Normal Lower Extremity Alignment</i>	850	Prosthetic Management	920
<i>Assessment of Deformity</i>	850	<i>Concepts of Prosthetic Management</i>	920
<i>Principles of Deformity Correction</i>	853	<i>Prosthetic Management of Specific</i>	
<i>Surgical Options for Deformity</i>		<i>Deficiencies</i>	923
<i>Correction</i>	853		
Section III			
COMMON ORTHOPAEDIC DISORDERS			
21 Limb Deficiencies	873	22 Arthritis	928
Proximal-Distal Axis	873	Joints	928
Anterior-Posterior Axis	873	<i>General Considerations</i>	928
Dorso-Ventral Axis	873	<i>Joint Fluid Analysis</i>	928
<i>Genetic Regulation of Limb Development</i>	874	Juvenile Idiopathic Arthritis (Formerly	
Classifying Limb Deficiencies	875	Juvenile Rheumatoid Arthritis)	930
<i>Frantz and O'Rahilly Classification System</i>	875	<i>Definition and Classification</i>	930
<i>International Society for Orthotics/</i>		<i>Incidence and Prevalence</i>	930
<i>International Society for Prosthetics</i>		<i>Demographics</i>	930
<i>and Orthotics International</i>		<i>Etiology</i>	930
<i>Classification System</i>	876	<i>Pathology</i>	932
General Treatment Concepts	877	<i>Clinical Features</i>	932
<i>Timing of Treatment</i>	877	<i>Laboratory Evaluation</i>	935
<i>Social Factors</i>	878	<i>Radiographic Evaluation</i>	935
<i>Long-Term Planning</i>	878	<i>Treatment</i>	936
Congenital Absence of Limbs	880	Enthesitis-Related Arthritis and	
<i>Timing of Limb Malformation and</i>		Spondyloarthropathies	938
<i>Deformation</i>	880	<i>Juvenile Ankylosing Spondylitis</i>	938
<i>Etiology of Limb Absence</i>	880	<i>Reactive Arthritis</i>	939
<i>Heritable Limb Deficiencies and</i>		<i>Psoriatic Arthritis</i>	939
<i>Associated Anomalies</i>	881	Acute Transient Synovitis of the Hip	940
<i>Hypothesis of Subclavian Artery</i>		<i>Etiology</i>	940
<i>Supply Disruption Sequence</i>	882	<i>Clinical Features</i>	941
<i>Psychosocial Issues</i>	883	<i>Diagnostic Studies</i>	941
Congenital Lower Limb Deficiencies	884	<i>Differential Diagnosis</i>	941
<i>Proximal Focal Femoral Deficiency</i>	884	<i>Clinical Course</i>	941
<i>Fibular Deficiency</i>	894	<i>Treatment</i>	942
<i>Tibial Deficiency</i>	900	<i>Natural History</i>	942
<i>Foot Deficiency</i>	903	Neuropathic Arthropathies	942
Congenital Upper Limb Deficiencies	903	<i>Clinicopathologic Features</i>	942
<i>Transverse Deficiencies</i>	903	<i>Radiographic Findings</i>	942
<i>Radial Deficiency</i>	907	<i>Treatment</i>	943
<i>Ulnar Deficiency</i>	909	Tuberculous Arthritis	943
Acquired Limb Absences	910	Tuberculosis of the Spine	943
<i>Primary Causes and Treatment Principles</i>	910	Gonococcal Arthritis	943
<i>Surgical Amputations</i>	914		
<i>Complications</i>	916	23 Infections of the Musculoskeletal	
<i>Psychosocial Aspects</i>	918	System	945
Multilimb Deficiencies	918	Overview	945
<i>Bilateral Upper Limb Absence</i>	918	Radiology	946
<i>Bilateral Lower Limb Absence</i>	919	<i>Plain Radiography</i>	946
<i>Bilateral Upper and Lower Limb Absence</i>		<i>Ultrasonography</i>	946
<i>(Quadrimebic Limb Deficiency)</i>	919	<i>Fluoroscopy</i>	947
<i>One Upper-Limb and One Lower-Limb</i>		<i>Nuclear Imaging</i>	948
<i>Absence</i>	920	<i>Computed Tomography</i>	948
		<i>Magnetic Resonance Imaging</i>	949
		Laboratory Studies	953
		<i>Complete Blood Count</i>	953
		<i>Erythrocyte Sedimentation Rate</i>	954
		<i>C-Reactive Protein</i>	954
		<i>Interleukin-6</i>	954

Local Tissue and Blood Cultures (Microbiology)	955
Staphylococcus aureus	955
Streptococcus pyogenes	956
Kingella kingae	956
Streptococcus pneumoniae	957
Neisseria meningitidis	958
Neisseria gonorrhoeae	958
Borrelia burgdorferi	958
Mycobacterium tuberculosis	959
Nontuberculous Mycobacteria	959
Treponema pallidum	959
Brucella melitensis	959
Bartonella henselae	960
Mycotic Organisms	961
Coccidioides immitis	961
Blastomyces dermatitidis	962
Actinomyces israelii	962
Sporothrix schenckii	962
Disease Manifestations	963
Osteomyelitis	963
Septic Arthritis	975
Tuberculous Arthritis	978
Tuberculosis of the Spine	982
Gonococcal Arthritis	985
Pyomyositis	986
Other Soft Tissue Infections of Orthopaedic Significance	988
Infection in Challenging Locations	990
Spine	990
Pelvis	992
Foot	994
Systemic Diseases Associated With Infection	994
Sickle Cell Disease	994
Chronic Granulomatous Disease	996
Human Immunodeficiency Virus	996

MUSCULOSKELETAL TUMORS

24 General Principles of Tumor Management	999
Tumors of the Musculoskeletal System	999
Classification	999
Clinical Features	999
Radiographic Findings	1000
Staging Studies	1001
Biopsy	1001
Treatment	1002
25 Benign Musculoskeletal Tumors	1003
Simple Bone Cysts (Solitary Bone Cyst, Unicameral Bone Cyst)	1003
Incidence	1003

Etiology	1003
Pathology	1005
Clinical Features	1005
Radiographic Findings	1005
Differential Diagnosis	1005
Treatment	1005
Aneurysmal Bone Cyst	1008
Incidence	1008
Etiology	1008
Pathology	1008
Clinical Features	1009
Radiographic Findings	1009
Treatment	1010
Fibrous Dysplasia	1013
Incidence	1013
Classification	1013
Etiology	1013
Pathology	1013
Clinical Features	1013
Radiographic Findings	1014
Differential Diagnosis	1015
Treatment	1015
Osteofibrous Dysplasia of the Tibia and Fibula (Campanacci Disease)	1016
Incidence	1016
Etiology	1017
Pathology	1017
Clinical Features	1017
Radiographic Findings	1017
Differential Diagnosis	1017
Treatment	1017
Solitary Osteochondroma	1019
Incidence	1019
Etiology	1019
Pathology	1019
Clinical Features	1019
Radiographic Findings	1019
Differential Diagnosis	1020
Sarcomatous Change	1020
Treatment	1020
Hereditary Multiple Exostoses	1021
Incidence	1021
Etiology	1021
Pathology	1022
Clinical Features	1022
Radiographic Findings	1025
Differential Diagnosis	1025
Sarcomatous Change	1025
Treatment	1025
Solitary Enchondroma	1026
Incidence	1026
Pathology	1026
Clinical Features	1027
Radiographic Findings	1027
Differential Diagnosis	1027
Treatment	1027

Multiple Enchondromatosis (Ollier Disease) and Maffucci Syndrome	1028	<i>Etiology</i>	1042
<i>Pathology</i>	1028	<i>Pathology</i>	1042
<i>Clinical Features</i>	1028	<i>Clinical Features</i>	1042
<i>Radiographic Findings</i>	1028	<i>Radiographic Findings</i>	1042
<i>Sarcomatous Change</i>	1028	<i>Differential Diagnosis</i>	1042
<i>Treatment</i>	1028	<i>Natural History</i>	1042
Chondroblastoma	1029	<i>Treatment</i>	1043
<i>Incidence</i>	1029	Primary Synovial Chondromatosis	1043
<i>Etiology</i>	1029	<i>Incidence</i>	1043
<i>Pathology</i>	1030	<i>Etiology</i>	1043
<i>Clinical Features</i>	1030	<i>Pathology</i>	1043
<i>Radiographic Findings</i>	1031	<i>Clinical Features</i>	1043
<i>Differential Diagnosis</i>	1032	<i>Radiographic Findings</i>	1044
<i>Treatment</i>	1032	<i>Treatment</i>	1044
Chondromyxoid Fibroma	1032	Pigmented Villonodular Synovitis and Giant Cell Tumor of the Tendon Sheath	1045
<i>Incidence</i>	1032	<i>Incidence</i>	1045
<i>Etiology</i>	1032	<i>Etiology</i>	1045
<i>Pathology</i>	1032	<i>Pathology</i>	1045
<i>Clinical Features</i>	1032	<i>Clinical Features</i>	1045
<i>Radiographic Findings</i>	1032	<i>Radiographic Findings</i>	1045
<i>Differential Diagnosis</i>	1033	<i>Differential Diagnosis</i>	1045
<i>Treatment</i>	1033	<i>Treatment</i>	1046
Osteoid Osteoma	1033	Dysplasia Epiphysealis Hemimelica (Trevor Disease)	1046
<i>Incidence</i>	1033	<i>Incidence</i>	1046
<i>Etiology</i>	1033	<i>Etiology</i>	1047
<i>Pathology</i>	1033	<i>Pathology</i>	1047
<i>Clinical Features</i>	1034	<i>Clinical Features</i>	1047
<i>Radiographic Findings</i>	1034	<i>Radiographic Findings</i>	1047
<i>Differential Diagnosis</i>	1034	<i>Natural History</i>	1048
<i>Treatment</i>	1034	<i>Treatment</i>	1048
Osteoblastoma	1036	26 Malignant Bone Tumors	1049
<i>Incidence</i>	1036	Osteosarcoma	1049
<i>Pathology</i>	1036	<i>Classic Osteosarcoma</i>	1049
<i>Clinical Features</i>	1036	<i>Metastatic Osteosarcoma</i>	1061
<i>Radiographic Findings</i>	1037	Ewing Sarcoma and Peripheral Primitive Neuroectodermal Tumor	1061
<i>Differential Diagnosis</i>	1037	<i>Pathology</i>	1063
<i>Treatment</i>	1038	<i>Clinical Features</i>	1065
Langerhans Cell Histiocytosis (Histiocytosis X)	1038	<i>Radiographic Findings</i>	1066
<i>Eosinophilic Granuloma: Solitary and Multiple Without Extraskelatal Involvement</i>	1038	<i>Staging</i>	1067
<i>Pathology</i>	1038	<i>Biopsy</i>	1067
<i>Hand-Schüller-Christian Disease: Multifocal Eosinophilic Granuloma With Extraskelatal Involvement (Chronic Disseminated Type)</i>	1040	<i>Prognosis</i>	1068
<i>Letterer-Siwe Disease: Multifocal Eosinophilic Granuloma (Acute Disseminated or Infantile Form)</i>	1041	<i>Treatment</i>	1069
Nonossifying Fibroma and Fibrous Cortical Defect	1042	Chondrosarcoma	1071
<i>Incidence</i>	1042	<i>Pathology</i>	1072
		<i>Radiographic Findings</i>	1072
		<i>Treatment</i>	1073
		Soft Tissue Sarcomas	1073
		<i>Rhabdomyosarcoma</i>	1073
		<i>Nonrhabdomyosarcoma Soft Tissue Sarcoma</i>	1075

INJURIES

27 General Principles of Managing Orthopaedic Injuries 1131

Properties of the Immature Skeleton	1131
<i>Plastic Deformation</i>	1131
<i>Fractures</i>	1131
<i>Remodeling and Overgrowth</i>	1132
<i>Physéal Injuries</i>	1133
Harris Growth Arrest Lines	1134
Classification of Physéal Injuries	1135
Treatment of Physéal Injuries	1136
Complications of Physéal Injuries	1137
<i>Assessment of Growth Disturbance</i>	1137
Treatment of Physéal Arrest	1139
<i>Observation</i>	1140
Growth Modulation	1140
<i>Completion</i>	1141
<i>Resection</i>	1141
Care of the Multiply Injured Child	1143
<i>Anatomic and Physiologic Characteristics Specific to Children</i>	1143
<i>Management of Airway, Breathing, and Circulation</i>	1144
Primary and Secondary Assessments	1145
Open Fractures	1146
Overview of Treatment	1147
Gunshot Wounds	1148
Lawnmower Injuries	1148
Compartment Syndrome	1149
<i>Incidence</i>	1149
<i>Pathophysiology</i>	1149
<i>Diagnosis</i>	1149
<i>Prevention and Treatment</i>	1150
Vascular Injuries	1151
Casts	1152
<i>Principles of Application</i>	1152
<i>Materials</i>	1153
Child Abuse	1153
<i>Incidence</i>	1154
<i>Diagnosis</i>	1154
<i>Reporting</i>	1154
Summary	1155
28 Spinal Injuries 1156	
Traumatic Injuries of the Cervical Spine	1156
<i>Anatomy</i>	1156
<i>Epidemiology</i>	1156
<i>Diagnosis</i>	1157
<i>Radiographic Findings</i>	1157
<i>Treatment</i>	1160
Traumatic Injuries of the Thoracic and Lumbar Spine	1165
<i>Anatomy</i>	1166
<i>Mechanism of Injury</i>	1166

<i>Diagnosis</i>	1167
<i>Radiographic Findings</i>	1168
<i>Treatment</i>	1169
Pharmacologic Treatment of Spinal Cord Injury	1172
Spinal Cord Injury Without Radiographic Abnormality	1173
Complications After Spinal Cord Injury	1174
29 Upper Extremity Injuries 1175	
Injuries to the Clavicle	1175
<i>Anatomy</i>	1175
<i>Mechanism of Injury</i>	1175
<i>Diagnosis</i>	1176
<i>Radiographic Findings</i>	1177
<i>Treatment</i>	1177
<i>Complications</i>	1180
Fractures of the Scapula	1180
<i>Anatomy</i>	1180
<i>Mechanism of Injury</i>	1180
<i>Diagnosis</i>	1180
<i>Treatment</i>	1181
<i>Complications</i>	1181
<i>Associated Conditions</i>	1182
Fractures Involving the Proximal Humeral Physis	1182
<i>Anatomy</i>	1182
<i>Mechanism of Injury</i>	1183
<i>Classification</i>	1183
<i>Diagnosis</i>	1183
<i>Treatment</i>	1184
<i>Complications</i>	1185
Traumatic Dislocation of the Glenohumeral Joint	1186
<i>Anatomy</i>	1186
<i>Diagnosis</i>	1187
<i>Treatment</i>	1187
<i>Complications</i>	1188
Fractures of the Proximal Metaphysis and Shaft of the Humerus	1188
<i>Anatomy</i>	1188
<i>Mechanism of Injury</i>	1189
<i>Diagnosis</i>	1190
<i>Treatment</i>	1190
<i>Complications</i>	1191
Fractures About the Elbow	1191
<i>Supracondylar Fractures of the Humerus</i>	1191
<i>Transphyseal Fractures</i>	1216
<i>Lateral Condyle Fractures</i>	1219
<i>Medial Epicondyle Fractures</i>	1228
<i>Elbow Dislocations</i>	1230
<i>Radial Head and Neck Fractures</i>	1233
<i>Olecranon Fractures</i>	1241
<i>Uncommon Elbow Fractures</i>	1243
<i>Associated Conditions</i>	1246

Fractures of the Forearm	1247
<i>Monteggia Fractures</i>	1247
<i>Fractures of the Shaft of the Radius and Ulna</i>	1253
<i>Fractures of the Distal Forearm</i>	1261
Fractures and Dislocations of the Wrist and Hand	1268
<i>Fractures of the Scaphoid</i>	1268
<i>Dislocation and Fracture-Dislocation of the Immature Wrist</i>	1269
<i>Fractures and Dislocations of the Hand</i>	1271
30 Lower Extremity Injuries	1274
Pelvis and Acetabulum	1274
<i>Pelvis</i>	1274
<i>Acetabulum</i>	1288
Hip	1294
<i>Hip Dislocations</i>	1294
<i>Hip Fractures</i>	1303
Femur	1316
<i>Femoral Shaft Fractures</i>	1316
Knee	1332
<i>Distal Femoral Injuries and Fractures</i>	1332
<i>Patellar Fractures</i>	1344
<i>Tibial Tuberosity Fractures</i>	1348
<i>Proximal Tibial Physeal Fractures</i>	1352
<i>Proximal Tibiofibular Joint Dislocations</i>	1358
Tibia and Fibula	1360
<i>Anatomy</i>	1360
<i>Tibial and Fibular Fractures</i>	1361
<i>Proximal Tibial Metaphyseal Fractures</i>	1362
<i>Tibial and Fibular Diaphyseal Fractures</i>	1364
<i>Open Tibial Diaphyseal Fractures</i>	1369
<i>Distal Tibial Metaphyseal Fractures</i>	1376
<i>Stress Fractures of the Tibia</i>	1376
<i>Ipsilateral Femoral and Tibial Fracture ("Floating Knee")</i>	1377
Ankle	1378
<i>Anatomy</i>	1378
<i>Ankle Fractures</i>	1379
<i>Classification</i>	1379
<i>Clinical Features</i>	1381
<i>Radiographic Findings</i>	1381
<i>Treatment</i>	1383
<i>Complications</i>	1389
Foot	1399
<i>Talar Fractures</i>	1399
<i>Calcaneal Fractures</i>	1405
<i>Tarsometatarsal (Lisfranc) Fractures</i>	1408
<i>Metatarsal Fractures</i>	1412
<i>Fractures of the Base of the Fifth Metatarsal</i>	1413
<i>Phalangeal Fractures</i>	1415
<i>Lawnmower Injuries</i>	1415
<i>Puncture Injuries of the Foot</i>	1416

Section VI

NEUROMUSCULAR DISORDERS

31 Disorders of the Brain	1419
Levels of Involvement	1419
<i>Spinomuscular Level</i>	1419
<i>Spinal Level</i>	1419
<i>Neural Level</i>	1419
<i>Myoneural Level</i>	1419
<i>Extrapyramidal Level</i>	1419
<i>Pyramidal (Corticospinal) Level</i>	1419
<i>Cerebellar Level</i>	1420
Cerebral Palsy	1420
<i>Definition</i>	1420
<i>Epidemiology</i>	1421
<i>Etiology</i>	1421
<i>Classification</i>	1421
<i>Evaluation</i>	1422
<i>Muscle Strength</i>	1428
<i>Prognosis for Ambulation</i>	1428
<i>Treatment</i>	1428
<i>Management of Foot Involvement in Cerebral Palsy</i>	1434
<i>Management of Knee Involvement in Cerebral Palsy</i>	1452
<i>Management of Rotational Abnormalities of the Femur and Tibia</i>	1459
<i>Management of Hip Involvement in Cerebral Palsy</i>	1460
<i>Management of Upper Limb Involvement in Cerebral Palsy</i>	1481
<i>Management of Spinal Deformity in Cerebral Palsy</i>	1484
<i>Management of Fractures in Cerebral Palsy</i>	1496
<i>Outcome Assessment</i>	1496
Rett Syndrome	1497
<i>Diagnosis</i>	1497
<i>Pathogenesis</i>	1498
<i>Clinical Features</i>	1498
<i>Treatment</i>	1499
Hereditary Spastic Paraparesis	1499
<i>Pathogenesis</i>	1499
<i>Clinical Features</i>	1499
<i>Treatment</i>	1500
Ataxia Syndromes	1501
<i>Friedreich Ataxia (Hereditary Spinocerebellar Ataxia)</i>	1501
32 Disorders of the Spinal Cord	1530
Myelomeningocele	1530
<i>Incidence</i>	1530
<i>Embryology</i>	1531
<i>Causative Factors</i>	1531
<i>Pathology</i>	1532

Natural History	1533	34 Disorders of the Peripheral Nervous System	1680
Prognosis	1535	Hereditary Motor and Sensory Neuropathies	1680
Associated Health Problems	1535	Charcot-Marie-Tooth Disease	1680
Complications	1537	Hypertrophic Interstitial Neuritis (Dejerine-Sottas Disease)	1691
Treatment	1539	Refsum Disease	1693
Other Forms of Spinal Dysraphism	1562	Congenital and Acquired Analgia	1693
Lipomenocele	1562	Congenital Insensitivity to Pain	1693
Tethered Cord (Thickened Filum Terminale)	1563	Familial Dysautonomia (Riley-Day Syndrome; Hereditary Sensory and Autonomic Neuropathy Type III)	1696
Diastematomyelia	1564	Congenital Sensory Neuropathy	1699
Spina Bifida Occulta	1565	Hereditary Sensory Radicular Neuropathy (Hereditary Sensory and Autonomic Neuropathy Type I)	1699
Caudal Regression Syndrome (Sacral and Lumbosacral Agenesis)	1565	Congenital Insensitivity to Pain With Anhidrosis (Hereditary Sensory and Autonomic Neuropathy Type IV)	1699
Spinal Muscular Atrophy	1568	Lesch-Nyhan Syndrome	1700
Etiology	1568	Syringomyelia	1700
Pathogenesis	1568	Guillain-Barré Syndrome (Acute Polyradiculoneuritis)	1701
Classification	1568	Cause and Pathophysiology	1701
Grading	1569	Diagnosis	1701
Differential Diagnosis	1569	Clinical Features	1702
Diagnostic Evaluation	1569	Differential Diagnosis	1703
Treatment	1571	Treatment	1703
33 Poliomyelitis	1582	Prognosis	1704
Worldwide Eradication Efforts	1582	Sciatic and Peroneal Nerve Palsy	1704
Postpolio Syndrome	1582	Causes	1704
Pathology	1583	Clinical Features	1704
Course and Prognosis	1583	Radiographic Findings	1705
Treatment Overview	1583	Treatment	1705
Acute Phase	1584	35 Muscle Diseases	1706
Convalescent Phase	1585	Muscular Dystrophies	1706
Chronic Phase	1586	Overview	1706
Management of the Hip	1591	Duchenne Muscular Dystrophy	1709
Soft Tissue Contracture	1591	Becker Muscular Dystrophy	1720
Gluteus Medius Paralysis	1593	Emery-Dreifuss Muscular Dystrophy	1721
Gluteus Maximus Paralysis	1594	Limb-Girdle Muscular Dystrophy	1722
Paralytic Dislocation of the Hip	1596	Facioscapulohumeral Muscular Dystrophy	1723
Management of the Knee	1598	Infantile Facioscapulohumeral Muscular Dystrophy	1725
Quadriceps Femoris Paralysis	1598	Scapuloperoneal Dystrophy	1725
Flexion Deformity of the Knee	1600	Congenital Muscular Dystrophy	1725
Genu Recurvatum	1601	Orthopaedic Disorders	1726
Flail Knee	1602	Myotonic Dystrophy	1726
Management of Specific Deformities of the Foot and Ankle	1603	Etiology	1726
Normal Physiology	1603	Clinical Features	1726
Treatment of Muscle Imbalance	1603	Medical Concerns	1728
Arthrodesis of the Foot and Ankle	1610	Treatment and Prognosis	1728
Management of the Trunk	1617		
Management of the Shoulder	1617		
Classification	1618		
Arthrodesis of the Shoulder	1618		
Management of the Elbow	1619		
Paralysis of the Biceps Brachii and Brachialis Muscles	1619		
Paralysis of the Triceps Brachii Muscle	1626		
Management of the Forearm	1626		

Metabolic Diseases of Muscle	1728		
<i>Thomsen Myotonia</i>	1728		
Polymyositis and Dermatomyositis	1729		
<i>Etiology</i>	1730		
<i>Diagnosis</i>	1730		
<i>Pathology</i>	1730		
<i>Clinical Features</i>	1730		
<i>Laboratory Findings</i>	1731		
<i>Treatment</i>	1732		
<i>Prognosis</i>	1733		
Myositis Ossificans	1733		
<i>Classification</i>	1733		
<i>Pathology</i>	1733		
<i>Clinical Features</i>	1733		
<i>Radiographic Findings</i>	1733		
<i>Differential Diagnosis</i>	1734		
<i>Treatment</i>	1734		
Progressive Fibrosis of the Quadriceps	1734		
<i>Etiology</i>	1735		
<i>Pathophysiology</i>	1735		
<i>Clinical Features</i>	1735		
<i>Treatment</i>	1735		
Myasthenia Gravis	1735		
<i>Incidence</i>	1735		
<i>Etiology</i>	1735		
<i>Clinical Features</i>	1735		
<i>Diagnosis</i>	1736		
<i>Treatment</i>	1736		
Section VII			
OTHER ORTHOPAEDIC DISORDERS			
36 Skeletal Dysplasias	1749		
Overview	1749		
Nomenclature and Classification	1751		
Achondroplasia	1751		
<i>Genetics</i>	1751		
<i>Pathophysiology</i>	1751		
<i>Clinical Features</i>	1752		
<i>Radiographic Findings</i>	1753		
<i>Diagnosis</i>	1753		
<i>Orthopaedic Considerations</i>	1753		
<i>Outcomes Research</i>	1765		
Hypochondroplasia	1766		
<i>Genetics</i>	1766		
<i>Clinical Features</i>	1766		
<i>Radiographic Findings</i>	1766		
<i>Orthopaedic Considerations</i>	1766		
<i>Treatment</i>	1767		
Thanatophoric Dwarfism	1767		
<i>Genetics</i>	1767		
<i>Prenatal Diagnosis</i>	1767		
<i>Clinical Features</i>	1767		
<i>Radiographic Findings</i>	1767		
<i>Prognosis</i>	1767		
Pseudoachondroplasia	1767		
<i>Genetics</i>	1767		
<i>Pathology</i>	1768		
<i>Clinical Features</i>	1769		
<i>Radiographic Findings</i>	1769		
<i>Orthopaedic Considerations</i>	1770		
Spondyloepiphyseal Dysplasia	1772		
<i>Spondyloepiphyseal Dysplasia Congenita</i>	1772		
<i>Spondyloepiphyseal Dysplasia Tarda</i>	1774		
Multiple Epiphyseal Dysplasia	1776		
<i>Genetics</i>	1777		
<i>Pathology</i>	1778		
<i>Clinical Features</i>	1778		
<i>Radiographic Findings</i>	1778		
<i>Orthopaedic Considerations</i>	1779		
Diastrophic Dysplasia (Diastrophic Dwarfism)	1781		
<i>Genetics</i>	1781		
<i>Pathology</i>	1781		
<i>Clinical Features</i>	1781		
<i>Radiographic Findings</i>	1782		
<i>Diagnosis</i>	1784		
<i>Orthopaedic Considerations</i>	1784		
<i>Prognosis</i>	1787		
Kniest Dysplasia (Pseudometatrophic Dysplasia)	1788		
<i>Genetics</i>	1788		
<i>Pathology</i>	1789		
<i>Clinical Features</i>	1789		
<i>Radiographic Findings</i>	1790		
<i>Treatment</i>	1790		
<i>Orthopaedic Considerations</i>	1790		
Chondrodysplasia Punctata	1790		
<i>Genetics</i>	1790		
<i>Pathology</i>	1790		
<i>Clinical Features</i>	1790		
<i>Radiographic Findings</i>	1791		
<i>Prenatal Diagnosis</i>	1791		
<i>Orthopaedic Considerations</i>	1792		
<i>Prognosis</i>	1792		
Metaphyseal Chondrodysplasia	1792		
<i>Jansen Type</i>	1792		
<i>Schmid Type</i>	1793		
<i>Cartilage–Hair Hypoplasia (McKusick Type)</i>	1797		
Osteopetrosis	1799		
<i>Types</i>	1799		
<i>Genetics</i>	1800		
<i>Pathology</i>	1800		
<i>Clinical Features</i>	1800		
<i>Radiographic Findings</i>	1801		
<i>Laboratory Findings</i>	1801		
<i>Prenatal Diagnosis</i>	1802		
<i>Differential Diagnosis</i>	1802		
<i>Treatment</i>	1802		
<i>Orthopaedic Considerations</i>	1803		
Progressive Diaphyseal Dysplasia (Camurati-Engelmann Disease)	1803		
<i>Genetics</i>	1803		
<i>Pathology</i>	1804		
<i>Clinical Features</i>	1804		

Radiographic Findings	1805	Differential Diagnosis	1819
Laboratory Findings	1805	Treatment	1819
Differential Diagnosis	1805	Mucopolysaccharidoses	1819
Treatment	1805	Diagnosis	1820
Osteopoikilosis	1805	Radiographic Findings	1820
Genetics	1805	Types	1820
Pathology	1806	Niemann-Pick Disease	1836
Clinical Features	1806	37 Orthopaedic-Related Syndromes	1837
Radiographic Findings	1806	Marfan Syndrome	1837
Differential Diagnosis	1807	Hereditary and Incidence	1837
Clinical Course	1807	Genetics	1837
Osteopathia Striata	1807	Clinical Features	1837
Genetics	1807	Diagnosis	1839
Clinical Features	1807	Differential Diagnosis	1840
Radiographic Findings	1807	Treatment	1841
Differential Diagnosis	1807	Infantile Marfan Syndrome	1842
Clinical Course	1807	Prognosis	1843
Melorheostosis	1808	Hereditary Progressive Arthro-	
Etiology	1808	Ophthalmopathy (Stickler Syndrome)	1843
Pathology	1808	Clinical Features	1843
Clinical Features	1808	Orthopaedic Manifestations	1843
Radiographic Findings	1809	Congenital Contractural	
Clinical Course	1809	Arachnodactyly (Beals Syndrome)	1843
Differential Diagnosis	1810	Clinical Features	1843
Treatment	1810	Radiographic Findings	1844
Orthopaedic Considerations	1810	Differential Diagnosis	1844
Infantile Cortical Hyperostosis		Treatment	1845
(Caffey Disease)	1810	Homocystinuria	1845
Genetics	1810	Biochemical Defect and Pathophysiology	1846
Pathology	1811	Clinical Features	1846
Clinical Features	1811	Diagnosis	1848
Radiographic Findings	1811	Treatment	1848
Prenatal Diagnosis	1811	Nail-Patella Syndrome (Hereditary	
Diagnosis	1811	Onycho-Osteodysplasia)	1849
Differential Diagnosis	1811	Inheritance and Genetics	1849
Treatment	1811	Clinical Features	1849
Orthopaedic Considerations	1811	Radiographic Findings	1850
Clinical Course	1812	Associated Anomalies	1850
Pyknodysostosis	1812	Treatment	1850
Genetics	1812	Larsen Syndrome	1851
Pathology	1812	Clinical Features	1851
Clinical Features	1812	Neurologic Evaluation	1852
Radiographic Findings	1812	Differential Diagnosis	1853
Differential Diagnosis	1814	Radiographic Findings	1853
Orthopaedic Considerations	1814	Treatment	1855
Clinical Course	1815	Summary	1861
Cleidocranial Dysostosis	1815	Down Syndrome (Trisomy 21)	1861
Genetics	1815	Clinical Features	1863
Clinical Features	1815	Treatment	1863
Radiographic Findings	1816	Neurofibromatosis	1869
Orthopaedic Considerations	1817	Historical Perspective	1871
Other Considerations	1817	Neurofibromatosis Type 1	
Idiopathic Osteolysis	1817	(von Recklinghausen Disease)	1871
Types	1818	Neurofibromatosis Type 2	1876
Hereditary Multicentric Osteolysis		Fibrodysplasia Ossificans Progressiva	1877
With Recessive Inheritance	1819	Cause	1877
Radiographic Findings	1819	Histology and Pathology	1877

<i>Clinical Features</i>	1878	38 Metabolic and Endocrine Disorders of Bone	1928
<i>Radiographic Findings</i>	1879	Biology of Healthy Bone	1928
<i>Treatment</i>	1879	<i>Bone Cell Biology</i>	1928
Ehlers-Danlos Syndrome	1880	<i>Bone Matrix and Mineralization</i>	1928
<i>Clinical Features</i>	1880	Metabolic Bone Disorders	1929
<i>Classification</i>	1881	<i>Vitamin Disorders</i>	1929
<i>Treatment</i>	1882	<i>Hypophosphatemic Rickets</i>	1935
Gaucher Disease	1882	<i>Clinical Features</i>	1939
<i>Genetics and Heredity</i>	1882	<i>Treatment</i>	1941
<i>Pathology and Diagnosis</i>	1882	<i>Disorders of Vitamin A</i>	1942
<i>Clinical Features</i>	1883	<i>Vitamin C Deficiency</i>	1942
<i>Orthopaedic Manifestations</i>	1885	<i>Osteogenesis Imperfecta</i>	1944
<i>Treatment</i>	1888	Prognostication and Parental Counseling	1965
<i>Prognosis</i>	1889	<i>Osteoporosis</i>	1965
Arthrogyposis (Arthrogyposis Multiplex Congenita)	1889	<i>Hypophosphatasia</i>	1967
<i>Cause</i>	1890	<i>Osteopetrosis</i>	1969
<i>Genetics</i>	1891	<i>Renal Osteodystrophy</i>	1970
<i>Pathology</i>	1891	39 Hematologic Disorders	1976
<i>Clinical Features</i>	1891	Hemophilia	1976
<i>Differential Diagnosis</i>	1893	<i>Incidence</i>	1976
<i>Treatment</i>	1893	<i>Classification and Inheritance</i>	1976
Cranioacropotarsal Dysplasia (Freeman-Sheldon or Whistling Face Syndrome)	1904	<i>Clinical Features</i>	1976
<i>Clinical Features</i>	1904	<i>Treatment</i>	1982
<i>Treatment</i>	1904	<i>Athletic Participation</i>	1988

Plate 25.3 Ischial-Bearing Above-Knee Amputation (Midriph Amputation)	1094
Plate 25.4 Disarticulation of the Knee Joint	1102
Plate 25.5 Below-Knee Amputation	1106
Plate 25.6 Posterior Approach for Forequarter Amputation (Littlewood Technique)	1110
Plate 25.7 Disarticulation of the Shoulder	1119
Plate 25.8 Amputation Through the Arm	1122
Plate 25.9 Disarticulation of the Elbow	1125
Plate 31.1 Percutaneous Achilles Tendon Lengthening	1203
Plate 31.2 Split Anterior Tibialis Tendon Transfer	1204
Plate 31.3 Extraarticular Arthrodesis of the Subtalar Joint (Once Procedure)	1206
Plate 31.4 Lateral Column Lengthening	1210
Plate 31.5 Hamstring Lengthening	1212
Plate 31.6 Rectus Femoris Transfer	1214
Plate 31.7 Abductor Contracture Release	1216
Plate 31.8 Proximal Hamstring Release	1218
Plate 31.9 Shelf Acetabular Augmentation	1220
Plate 31.10 Dega Osteotomy	1222
Plate 31.11 Extensor Carpi Ulnaris-Extensor Carpi Radialis Brevis Transfer	1224
Plate 31.12 Fractional Lengthening of the Finger and Wrist Flexors in the Forearm Operative Technique	1225
Plate 33.1 Fractional Lengthening of the Hamstrings	1628
Plate 33.2 Iliopsoas Muscle Transfer for Paralysis of the Hip Abductors	1634
Plate 33.3 Lloyd Roberts Technique of Intertrochanteric Oblique Osteotomy of the Proximal End of the Femur and Internal Fixation With Coventry Apparatus (Lag Screws and Plate)	1644

Plate 35.2 Scapulothoracic Stabilization for Scapular Exposure of the Spine for Posterior Instrumentation and Fusion	232
Plate 9.2 Posterior Spinal Instrumentation and Fusion Using Hooks	232
Plate 9.3 Posterior Spinal Instrumentation and Fusion Using Pedicle Screws	237
Plate 9.4 Anterior Instrumentation of the Spine for Thoracolumbar or Lumbar Scoliosis	244
Plate 12.1 Lateral Rotation Osteotomy of the Humerus	418
Plate 12.2 Rerouting of the Biceps Brachii Tendon to Convert its Motion from Supinator to Pronator of the Forearm (Zancolli Procedure)	420
Plate 12.1 Modified Great Scapulothoracic for Congenital High Scapula (Spengel Deformity)	420
Plate 12.2 Woodward Operation for Congenital High Scapula	420
Plate 13.1 Closed Reduction and Casting for Developmental Dislocation of the Hip	472
Plate 13.2 Medial Approach for Open Reduction of the Developmentally Dislocated Hip	474
Plate 13.3 Open Reduction of Developmental Hip Dislocation Through the Anterolateral Approach	479
Plate 13.4 Femoral Shortening and Derotation Osteotomy Combined With Open Reduction of the Hip	486
Plate 13.5 Intertrochanteric Varus Osteotomy and Internal Fixation With a Blade Plate	487
Plate 13.6 Greater Trochanteric Epiphysodesis	491
Plate 13.7 Distal and Lateral Transfer of the Greater Trochanter	492
Plate 13.8 Lateral Advancement of the Greater Trochanter	504
Plate 13.9 Wagner Intertrochanteric Double Osteotomy	506
Plate 13.10 Lateral Closing Wedge Valgization Osteotomy of the Proximal Femur With Distal and Lateral Advancement of the Greater Trochanter	508
Plate 13.11 Pemberton Osteotomy	512
Plate 13.12 Salter Innominate Osteotomy	520
Plate 12.1 Percutaneous Cannulated Screw Fixation ("Pinning") of Slipped Capital Femoral Epiphysis	606
Plate 12.2 Scheme and Principles of the Dunn Procedure (Open Reduction of the Capital Epiphysis With Shortening of the Femoral Neck)	611
Plate 12.3 Ktner/Barnard Osteotomy of the Base of the Femoral Neck for Slipped Capital Femoral Epiphysis	612
Plate 12.4 Intracapsular Hip Fusion for Avascular Necrosis	614
Plate 19.1 Open Reduction of Dorsolateral Dislocation of the Talocalcaneonavicular Joint (Congenital Vertical Talus)	787
Plate 19.2 Plantar Fasciomy	793
