

# CONTENTS

Introduction .....	9
<b>1. GENERAL UROLOGY .....</b>	<b>10</b>
1.1 Urological symptoms .....	10
1.2 Special methods in urological diagnostics .....	13
1.2.1 Medical history and physical examination .....	13
1.2.2 Laboratory diagnostics .....	14
1.2.2.1 Urine examination .....	14
1.2.2.2 Blood tests .....	16
1.2.3 Imaging examinations .....	16
1.2.4 Urodynamic examination – see the special chapter .....	19
1.3 Special methods of urological treatment .....	20
1.3.1 Catheterization .....	20
1.3.2 Endoscopy .....	21
1.3.3 Nephrostomy .....	23
1.3.4 Laparoscopy .....	23
1.3.5 Biopsy .....	23
1.4 Renal failure .....	24
1.4.1 Acute renal failure .....	24
1.4.2 Chronic renal failure .....	25
1.4.2.1 Division according to the degree of damage to the glomerular filtration capacity .....	25
1.4.2.2 Treatment of chronic renal failure .....	26
<b>2. CONGENITAL DEFECTS OF URINARY AND GENITAL TRACTS .....</b>	<b>29</b>
2.1 Congenital defects of the bladder and kidneys .....	30
2.1.1 Congenital anomalies of kidneys .....	30
2.1.1.1 Deviations in kidney count, kidney volume, renal rotational anomalies, kidney shape varieties .....	30
2.1.1.2 Position deviations of kidneys – renal dystopia (renal ectopia) .....	30
2.1.1.3 Renal dysplasia, renal hypoplasia and cystic kidney diseases .....	31
2.1.1.4 Abnormalities of renal calyces .....	31
2.1.2 Congenital defects of the renal pelvis and ureter .....	31
2.1.2.1 Congenital hydronephrosis .....	31
2.1.2.2 Megaureter .....	32
2.1.2.3 Supernumerary ureters .....	32
2.1.2.4 Ureterocele .....	33
2.1.2.5 Ectopic megaureter .....	33
2.1.2.6 Vesicoureteral (vesicorenal) reflux – VUR .....	33
2.1.2.7 Retrocaval ureter .....	34

2.1.3 Congenital anomalies of lower urinary tract (the urinary bladder and urachus) . . . . .	34
2.2 Congenital anomalies of the male genitalia . . . . .	34
2.2.1 Congenital anomalies of the male urethra . . . . .	34
2.2.2 Cryptorchism . . . . .	35
2.2.3 Phimosi s . . . . .	35
2.2.4 Hydrocele . . . . .	36
2.2.5 Varicocele – See the chapter 8.2 Scrotal diseases . . . . .	36
2.3 Disorders of sex development . . . . .	36
2.4 Transsexualism . . . . .	37
<b>3. URINARY AND GENITAL TRACT INFECTIONS . . . . .</b>	<b>39</b>
3.1 Urinary tract infections in adults . . . . .	41
3.2 Male genital tract infections . . . . .	48
3.3 Urinary tract infections in children . . . . .	50
3.4 Specific infections . . . . .	50
3.4.1 Urogenital tuberculosis (UGTB) . . . . .	50
3.4.2 Schistosomosis (schistosomiasis, bilharziasis) . . . . .	51
3.4.3 Actinomycosis . . . . .	52
<b>4. UROLITHIASIS . . . . .</b>	<b>54</b>
4.1 Definition and occurrence . . . . .	54
4.2 Etiopathogenesis – causative factors of urolithiasis and its types . . . . .	54
4.3 Nomenclature . . . . .	57
4.4 Clinical signs and diagnostics . . . . .	57
4.5 Treatment of nephrolithiasis . . . . .	60
4.6 Treatment of ureterolithiasis . . . . .	61
4.7 Prevention of urolithiasis . . . . .	62
4.8 Cystolithiasis . . . . .	63
<b>5. URO-ONCOLOGY . . . . .</b>	<b>64</b>
5.1 Introduction . . . . .	64
5.2 Penile carcinoma (C60) . . . . .	65
5.3 Prostate carcinoma (C61) . . . . .	66
5.3.1 Clinical notes . . . . .	66
5.3.2 Diagnosis . . . . .	67
5.3.3 Treatment of prostate carcinoma . . . . .	70
5.3.3.1 Locally confined prostatic carcinoma T1-2N0M0 . . . . .	70
5.3.3.2 Locally advanced prostatic carcinoma T3-4N0-1M0 . . . . .	72
5.3.3.3 Generalized prostatic carcinoma TXNXM1 . . . . .	72
5.3.4 Screening and early detection of prostate carcinoma . . . . .	74
5.4 Testicular tumours(C 62) . . . . .	74
5.4.1 Classification of testicular tumours . . . . .	75
5.4.1.1 Histological classification . . . . .	75
5.4.1.2 Clinical classification – by radiosensitivity . . . . .	75
5.4.1.3 Characteristics of individual testicular tumours . . . . .	75
5.4.2 Clinical notes . . . . .	76
5.4.3 Treatment of testicular tumours . . . . .	78
5.4.3.1 Seminomas . . . . .	78
5.4.3.2 Non-seminomas . . . . .	78
5.5 Cystic kidney disease . . . . .	79
5.6 Kidney tumours . . . . .	81
5.6.1 Clinical notes . . . . .	81
5.6.2 Treatment of renal cell carcinoma (RCC) . . . . .	82
5.6.2.1 Localized tumours . . . . .	82
5.6.2.2 Metastatic renal cell carcinoma (mRCC) . . . . .	82

5.6.3 Treatment of other histological types of kidney tumours . . . . .	83
5.7 Urothelial tumours . . . . .	84
5.7.1 Urinary bladder tumours (C 67) . . . . .	84
5.7.1.1 Clinical notes . . . . .	84
5.7.1.2 Therapy . . . . .	85
5.7.2 Urothelial carcinoma of the renal pelvis (C 65) and ureter (C 66) . . . . .	88
5.8 Adrenal diseases . . . . .	89
<b>6. RETROPERITONEAL DISEASES . . . . .</b>	<b>91</b>
6.1 Upper urinary tract obstruction . . . . .	91
6.2 Causes of ureteral obstruction . . . . .	91
6.2.1 Vascular lesions . . . . .	92
6.2.2 Benign diseases of the female reproductive system . . . . .	92
6.2.3 Gastrointestinal diseases . . . . .	92
6.2.4 Retroperitoneal tumours . . . . .	92
6.2.5 Retroperitoneal fibrosis (Ormond's disease) – RPF . . . . .	93
<b>7. LOWER URINARY TRACT DISEASES . . . . .</b>	<b>94</b>
7.1 Urodynamics . . . . .	94
7.1.1 Urodynamics of the lower urinary tract . . . . .	94
7.2 Neurogenic bladder . . . . .	97
7.3 Urinary incontinence . . . . .	101
7.4 Enuresis . . . . .	104
7.5 Urinary fistulas . . . . .	105
7.6 Benign prostatic hyperplasia – BHP . . . . .	106
7.6.1 Pathology . . . . .	107
7.6.2 Clinical signs . . . . .	108
7.6.3 Examination . . . . .	109
7.6.4 BPH treatment . . . . .	109
<b>8. NON-NEOPLASTIC DISEASES OF THE MALE GENITALIA . . . . .</b>	<b>113</b>
8.1 Penis diseases . . . . .	113
8.1.1 Balanitis . . . . .	113
8.1.2 Phimosis and paraphimosis . . . . .	113
8.1.3 Lichen sclerosus et atrophicus . . . . .	114
8.1.4 Condylomata accuminata . . . . .	114
8.2 Scrotal diseases . . . . .	114
8.2.1 Hydrocele . . . . .	114
8.2.2 Varicocele . . . . .	115
8.2.3 Spermatocele . . . . .	116
8.2.4 Testicular torsion (or spermatic cord torsion) . . . . .	116
8.2.5 Torsion of appendix testis or epididymis . . . . .	116
8.3 Fracture of the penis . . . . .	116
8.4 Urethral stricture . . . . .	117
8.5 Urethritis . . . . .	117
8.5.1 Acute urethritis . . . . .	117
8.5.2 Chronic urethritis . . . . .	119
<b>9. ANDROLOGY . . . . .</b>	<b>120</b>
9.1 Hormonal control . . . . .	120
9.2 Erection and ejaculation . . . . .	121
9.3 Male infertility . . . . .	124
9.4 Priapism . . . . .	127
9.5 Health of the aging man . . . . .	128
9.6 Induratio penis plastica (Morbus Peyronie) . . . . .	128

<b>10. UROGENITAL TRAUMA</b> .....	130
10.1 Kidney trauma .....	130
10.2 Ureteral trauma .....	131
10.3 Bladder trauma .....	132
10.4 Urethral trauma .....	133
10.5 Penile trauma .....	134
10.6 Scrotal and testicular trauma .....	135
<b>11. ACUTE UROLOGICAL CONDITIONS</b> .....	136
