## SECTION 1

### Concepts, designs, and methods

1. **A historical perspective on neurological and neuropsychiatric definitions** 3  
*German E Berrios and Ivana S Marková*
2. **Neuroimaging and fluid biomarkers of Alzheimer's disease: implications for definition, diagnosis, and treatment** 9  
*Vijay R Varma, Yi-Fang Chuang, and Madhav Thambisetty*
3. **Life course, exposure, and ageing populations** 21  
*Yoav Ben-Shlomo*
4. **Examining trends in dementia incidence and prevalence using an age-period-cohort framework** 29  
*Kenneth M Langa, Eileen M Crimmins, and Mark D Hayward*
5. **Overview of common designs, measures of effect, and biases in neuroepidemiological studies** 37  
*Derrick A Bennett*
6. **Conducting research in low- and middle-income settings** 47  
*Maëlynn Guerchet, Rosie Mayston, and A Matthew Prina*
7. **Trial designs, including observational to interventional** 57  
*Edo Richard*
8. **Cardiometabolic morbidities and dementia** 65  
*Chengxuan Qiu, Davide Liborio Vetrano, and Laura Fratiglioni*

---

## SECTION 2

### Neurodegenerative disorders

9. **Early onset Alzheimer's disease** 75  
*Ratnavalli Ellajosyula*
10. **Huntington's disease** 83  
*Juliana R Dutra, Tanya P Garcia, and Karen Marder*
11. **Idiopathic Parkinson's disease and classification of parkinsonisms** 93  
*Valentina Gallo, Honglei Chen, and Neil Pearce*
12. **Dementia and Parkinson's disease** 115  
*Rodolfo Savica and Pierpaolo Turcano*
13. **Amyotrophic lateral sclerosis (ALS) and fronto-temporal dementia (FTD)** 119  
*Giancarlo Logroscino and Adriano Chiò*
14. **Rare neurodegenerative parkinsonism (PSP, MSA, CBD)** 133  
*James B Rowe and Ian TS Coyle-Gilchrist*
15. **Posterior cortical atrophy** 141  
*Keir XX Yong, SJ Crutch, and JM Schott*
16. **Epidemiology of essential tremor** 153  
*Elan D Louis*

---

## SECTION 3

### Dementia as final common outcome

17. **Detecting dementia early in populations** 165  
*Amy R Borenstein*
18. **The oldest-old and dementia at the end of life** 171  
*María M Corrada and Claudia H Kawas*

---

**SECTION 4**
**Vascular disorders**

19. **Global stroke burden and prevention strategies: findings from GBD 2015** 183  
*Rita Krishnamurthi and Valery L Feigin*
20. **Stroke and TIA** 193  
*Bo Norrving*
21. **Small vessel disease** 203  
*Fergus N Doubal, Anna Poggesi, Leonardo Pantoni, and Joanna M Wardlaw*
22. **Migraine: descriptive epidemiology and related neurobiology** 213  
*Julio R Vieira and Richard B Lipton*

---

**SECTION 5**
**Neurology, neuropsychiatry, and phenomenology**

23. **The clinical spectrum of neurodegenerative disease: moving beyond mild cognitive impairment** 227  
*Stina Saunders, Graciela Muniz-Terrera, Tom C Russ, Craig W Ritchie, and Karen Ritchie*
24. **The epidemiology of apathy in neurological disorders** 239  
*Sergio Starkstein, Bradleigh Hayhow, and Pierre Wibawa*
25. **Behavioural and psychological symptoms of dementia** 247  
*Rianne van der Linde and Tom Dening*
26. **Delirium** 259  
*Daniel Davis, Sarah Richardson, and Esteban Sepulveda*
27. **Methods and approaches to examining the interface of late-life depression and dementia** 267  
*Mirjam I Geerlings*
28. **Epidemiology of schizophrenia and related disorders** 277  
*Assen Jablensky, Hannah E Jongasma, James B Kirkbride, and Peter B Jones*

---

**SECTION 6**
**Other key neurological conditions**

29. **Multiple sclerosis: descriptive epidemiology and related neurobiology** 295  
*Elisabeth Gulowsen Celius*
30. **Myasthenia gravis** 303  
*Anne Taraldsen Heldal and Nils Erik Gilhus*
31. **Epilepsy** 313  
*Ettore Beghi, Giorgia Giussani, and Torbjorn Tomson*
32. **Neuropathies: descriptive epidemiology and related neurobiology** 331  
*Ettore Beghi, Giorgia Giussani, and Marco Poloni*
33. **Sensory loss—vision** 345  
*Paul J Foster, Anthony Khawaja, Lisanne J Balk, Zaynah Muthy, and Axel Petzold*
34. **Sensory loss—hearing** 355  
*Adele M Goman and Frank R Lin*

---

**SECTION 7**
**Infections, exposures, injuries, and the brain**

35. **The neuroepidemiology of human prion disease** 367  
*Patrick JM Urwin and Anna M Molesworth*
36. **Epidemiology of bacterial and parasitic infections of the central nervous system** 379  
*Charles R Newton*
37. **Infection, other than bacterial, including HIV** 387  
*Inès Yoro-Zohoun, Jaime Luna, Salmane Amidou, and Pierre-Marie Preux*
38. **Traumatic brain and spinal cord injury** 397  
*Alice Theadom and Kelly M Jones*
39. **Electromagnetic fields** 407  
*Joachim Schüz and Maria Feychting*
40. **Metals and neurodegeneration** 417  
*Susan Peters, Anne E Visser, Marc Weisskopf, Marianthi-Anna Kioumourtzoglou, and Roel Vermeulen*

---

**SECTION 8****Global health and public health**

41. **Estimating the global burden of stroke: methods and challenges** 427  
*Thomas Truelsen, Catherine Johnson, Mohsen Naghavi, Theo Vos, Valery L Feigin, and Gregory Roth*
42. **What is the role of trials and other 'well-designed' studies in the understanding of neurological and neuropsychiatric conditions** 441  
*Carol Brayne*
43. **Research and methodologic opportunities and challenges conducting research among US military personnel** 445  
*Ann I Scher, David W Niebuhr, and Darrell Singer*
44. **Global evidence generation** 453  
*Adesola Ogunniyi*
45. **The role of prevention in common neurological disorders** 465  
*Giancarlo Logroscino, Carol Brayne, and Rosanna Tortelli*
- Index* 479
