PART I: INTRODUCING MUSIC PSYCHOLOGY 1

1 What Is Music Psychology?	3
A Brief Tour of the Model of Music Psychology	5
Contributions from Biology	5
Contributions from Anthropology	6
Contributions from Philosophy	6
Contributions from Education	6
Contributions from Psychology	7
Contributions from Sociology	7
Contributions from Physics	7
Contributions from Music	8
A Very Brief History of Music Psychology	9
An Overview of the Literature in Music Psychology	10
Conclusion	10
Discussion Questions	12
2 Philosophical Issues in Music Psychology	14
Human and Musical Nature	14
Biological Differences	15
Adaptability	15
Cultural Development	16
Symbolic Behaviors	16
Love	17
Play	17
Religion	18

	Technology	18
	Aesthetic Sensitivity	19
	Knowledge	19
	The Interface of Music Philosophy and Music Psychology	20
	General Philosophical Approaches	20
	The Science of Beauty	22
	Experimental Aesthetics	22
	The Golden Mean and Mathematical Influences	23
	A Philosophical Paradigm Shift in Music Psychology	24
	Music as a Way of Knowing	26
	Is Music Psychology Encroaching on Music Philosophy's Territory?	28
	Conclusion	29
	Discussion Questions	29
3	How We Came to Be Musical	31
	Rhythm, a Fundamental Life Process	32
	Natural Soundscapes	35
	Parent-Infant Bonding	39
	The Acquisition of Language	42
	Music as a Way of Knowing	42
	Social Organization	43
	Conclusion	44
	Discussion Questions	45
4	Music Around the World and Across Time	46
	Time Line of Early Artistic Behaviors	48
	Prehistoric Cave and Rock Art	51
	Art and Technology	53
	Invariants	54
	Religion	54
	Celebrations	55
	Altered States of Consciousness	55
	Music: A Human Invariant	56
	Emotional Expression (Merriam); Regulation of an Individual's Emotional, Cognitive, or Physiological State (Clayton)	58
	Aesthetic Enjoyment (Merriam)	59
	Entertainment (Merriam); Personal Enjoyment, Games (Gregory)	60
	Communication (Merriam, Gregory)	61
	Symbolic Representation (Merriam, Clayton); Personal Symbol (Gregory)	62
	Physical Response (Merriam); Dancing (Clayton)	62
	Enforcing Conformity to Social Norms (Merriam); Mediation Between Self and Other (Clayton)	62
	Validation of Social Institutions and Religious Rituals (Merriam); Ceremonies and Festivals; Religious Music (Gregory)	62
	Contribution to the Continuity and Stability of Culture (Merriam); Ethnic or Group Identity (Gregory)	63
	Contribution to the Integration of Society (Merriam)	63
	Lullabies (Gregory)	64

Work Music (Gregory); Coordination of Action (Clayton) 64	
Storytelling (Gregory) 64	
Battle (Gregory) 65	
Salesmanship (Gregory) 66	
Healing, Trance (Gregory) 66	
Court (Gregory) 66	
Conclusion 67	
Discussion Questions 68	
PART II: PERCEIVING, UNDERSTANDING, AND RESPONDING TO MUSIC	69
5 Acoustical Foundations of Music^{MT5}	71
What Is Sound? 71	
Important Parameters of Sound 74	
Measuring and Describing Sound 77	
Frequency 77	
Amplitude 79	
Waveform (Signal Shape) 82	
Time 84	
How Environment Affects Sound 85	
Transmission and Absorption 88	
Reflection 88	
Diffraction 89	
Refraction 89	
Interference 90	
Tuning Systems 90	
Tuning in Western Music 91	
Non-Western Tuning Systems 93	
Acoustics of the Voice and Musical Instruments 94	
The Voice 94	
Aerophones 95	
Chordophones 96	
Idiophones, Membranophones, and Corpophones 97	
Electrophones 98	
Room Acoustics 100	
Conclusion 101	
Discussion Questions 101	
6 Musical Hearing^{MT6}	103
The Hearing Mechanism 103	
Outer Ear 103	
Middle Ear 105	
Inner Ear 106	
From Ear to Brain 109	
The Auditory Cortex 111	
Conclusion 115	
Discussion Questions 115	

7	Psychoacoustics and the Perception of Music^{MT7}	117
	The Critical Band 118	
	The Perception of Pitch 119	
	Pitch Discrimination 121	
	Pitch Matching 123	
	Pitch Height and Pitch Chroma 123	
	Absolute Pitch 123	
	The Perception of Loudness 125	
	The Perception of Timbre 126	
	The Perception of Duration 128	
	Secondary Relationships 130	
	Pitch 130	
	Loudness 131	
	Timbre 131	
	Duration 132	
	Volume and Density 132	
	Conclusion 132	
	Discussion Questions 133	
8	Music Cognition^{MT8}	134
	Gestalt Laws of Cognitive Organization 135	
	Auditory Scene Analysis 138	
	Schemata 138	
	The Spotlight of Attention 139	
	The Cocktail Party Phenomenon and Auditory Stream Segregation 139	
	Musical Memory 140	
	Statistical Learning in Music 142	
	Expectancy Theory 143	
	Tonality 146	
	Cognition of Musical Elements 149	
	Melody and Harmony 149	
	Tonality in Melody Cognition 149	
	Melodic Contour 149	
	Consonance-Dissonance 149	
	Rhythm 150	
	Timbre 150	
	Cognition of Larger Musical Forms 151	
	Cross-Cultural Comparative Research in Music 153	
	Music and Language 155	
	Conclusion 157	
	Discussion Questions 159	
9	Music and the Brain	160
	Brief Introduction to the Brain 160	
	Plasticity 163	
	Pruning 164	
	Critical Periods 164	
	Neural Networks 165	

Music in the Brain	167	
Support from Ancillary Disciplines	167	
Support from Indirect Approaches	167	
The Effects of Brain Damage on Musical Behaviors	168	
Imaging Techniques for Studying Music	170	
Electroencephalography	170	
Event-Related Potentials	171	
Magnetoencephalography	172	
Positron Emission Tomography	172	
Magnetic Resonance Imaging	173	
Functional Magnetic Resonance Imaging	173	
Transcranial Magnetic Stimulation	174	
Diffusion Tensor Imaging	174	
Imaging Music Perception and Cognition	175	
Imaging Affective Responses to Music	175	
Imaging Musical Performance	177	
Imaging Music Learning	178	
Conclusion	180	
Discussion Questions	181	
10 Bodily Responses to Music		183
Physiological Responses to Music	183	
Heart Rate and Pulse Rate	185	
Blood Pressure	185	
Respiration	186	
Skin Conductance Responses	186	
Biochemical Responses	186	
Skin, Finger, or Body Temperature	189	
Miscellaneous Responses	189	
Physical Responses to Music	189	
Muscular and Motor Responses	189	
Chills	190	
Facial Gestures	191	
Body Movements	192	
Discussion of Psychophysiological Variables	192	
Conclusion	194	
Discussion Questions	195	
11 Musical Emotions^{MT11}		197
Introduction to the Study of Emotions	198	
The Role of Expectations in Musical Emotions	200	
Measuring Musical Emotions	203	
Perceived Emotions: The Cognitivist Position	206	
Induced Musical Emotions: The Emotivist Position	208	
A Third Viewpoint: Aesthetic Trinity Theory	213	
Musical Emotions in Everyday Experiences	215	
Conclusion	217	
Discussion Questions	218	

PART III: BEING MUSICAL		219
12	The Musical Person	221
	Is Musicality Inherited or Acquired? 221	
	Genetic Factors in Musicality 221	
	The Acquisition of Musical Attributes 224	
	Summary of the Inheritance/Acquisition of Musical Attributes 225	
	The Relationship of Musical Attributes to Other Human Attributes 225	
	The Musical Personality 226	
	Religious and Spiritual Aspects 229	
	Musical Identity 232	
	Musical Preferences 234	
	Preferences for Instruments 235	
	Preferences for Musical Genres 236	
	The Listener 237	
	The Music 237	
	Situations and Contexts 238	
	Conclusion 238	
	Discussion Questions 239	
13	Music Performance	241
	Motor Skills 242	
	Neuromotor Aspects of Music Making 243	
	Motor Aspects of Music Making 245	
	The Acquisition of Motor Skills 247	
	Audio-Motor and Mirror Neuron Systems 248	
	Quantity of Practice 248	
	Cognitive Skills 249	
	Quality of Practice 249	
	Mental Rehearsal 251	
	Music Reading 252	
	Metacognition, Self-Regulation, Motivation, and Self-Efficacy 253	
	Expressive Skills 255	
	Body Movement 255	
	Musical Cues for Expressiveness 258	
	Musical Creativity 261	
	Memory and Creativity 262	
	Divergent and Convergent Thinking 262	
	Flow 262	
	Improvisation 264	
	Conclusion 264	
	Discussion Questions 264	
14	The Psychology of Music Learning	266
	Psychoanalysis 266	
	Behavioral Psychology 269	

Cognitive Approaches	272
Humanistic Psychology	272
Gestalt Psychology	275
Developmental Psychology	275
Social Psychology	277
Cognitive Psychology	282
Jerome Bruner	282
Taxonomies	283
Music Intelligence	285
Music Cognition, Music Learning, and Reflective Thinking	287
Cognitive Neuroscience	289
Music Teaching and Learning	291
Conclusion	292
Discussion Questions	293
15 Music and Health	295
Music Therapy	295
Alzheimer's Disease	299
Autism	299
Cerebral Palsy	300
Dyslexia	300
Parkinson's Disease and Stroke	301
Premature and Newborn Infants	301
Psychiatric Disorders	301
Music Medicine	302
Stress, Pain, Anxiety, and the Immune System	303
Aphasia	304
Performing Arts Medicine	305
Hearing Health ^{MT6.4}	305
Vocal Health	308
Bodily Health	309
Psychosocial Health	310
Performance Anxiety	311
Other Mental Health Issues	314
Conclusion	316
Discussion Questions	316
16 Music in Social Contexts	317
Music in Society	317
From Birth to Death	317
From Lowest to Highest Cognitive Functioning	318
From One Person to Thousands	318
Reflections of Society in Music	321
Social Behaviors Among Performing Musicians	321
Social Behaviors Among Music Listeners	324

Contents

The Influence of Music on Social Behaviors	325
Music as a Socializing Agent	325
The Influence of Music in the Workplace	328
The Influence of Music on Thought, Attitude, and Social Behavior	330
Conclusion	332
Discussion Questions	333
