

contents

About the Authors *xv*
 Preface *xvii*

1 INTRODUCTION TO CONCEPTS AND SYSTEMS 1

UNITS OF MEASURE	2
ELECTROMAGNETIC ENERGY	2
Properties of Electromagnetic Waves	2
Interaction Processes	3
ELECTROMAGNETIC SPECTRUM	3
Wavelength Regions and Bands	3
Atmospheric Effects	6
IMAGE CHARACTERISTICS	6
Scale	6
Brightness	6
Contrast Ratio	7
Resolution	8
Resolving Power	10
Other Characteristics of Images	12
VISION	12
Structure of the Eye	12
Resolving Power of the Eye	13
Detection Capability of the Eye	13
Effect of Contrast Ratio on Resolution and Detection	15
LOCATION AND NAVIGATION SYSTEMS	15
Global Navigation Satellite System and Global Positioning System	15
Inertial Navigation System	15

REMOTE SENSING SYSTEMS 15

Framing Systems 15
 Scanning Systems 15

REFLECTANCE AND RADIANCE 20

MULTISPECTRAL IMAGING SYSTEMS 21

Multispectral Framing Systems 21
 Multispectral Scanning Systems 22

HYPERSPECTRAL SCANNING SYSTEMS 23

Hyperspectral Technology 25
 GER Hyperspectral Scanner 25
 AVIRIS Hyperspectral Scanner 25
 Reflectance Spectra
 from Hyperspectral Data 25

SOURCES OF REMOTE SENSING INFORMATION 26

• Questions 28 • References 28

2 AERIAL AND SATELLITE PHOTOGRAPHS 29

DIGITAL TECHNOLOGY REVOLUTION 29

INTERACTIONS BETWEEN LIGHT AND MATTER 30

Atmospheric Scattering 30
 Effects of Scattering
 on Aerial Images 31

HANDHELD DIGITAL CAMERAS 32

CHARACTERISTICS OF AERIAL IMAGES 32

Spatial Resolution of Images 32
 Resolving Power of Lenses 32
 Ground Resolution 32
 Photographic Scale 35
 Relief Displacement 35

PHOTOMOSAICS 36

STEREO-PAIRS OF AERIAL PHOTOGRAPHS	39		
Test of Stereo Vision	39		
Vertical Exaggeration	39		
Interpretation of Stereo-Pairs	42		
Interpretation of Oil Tank Stereo-Pairs	43		
LOW SUN-ANGLE PHOTOGRAPHS	43		
BLACK-AND-WHITE PHOTOGRAPHS	44		
Panchromatic Black-and-White Photographs	45		
NIR Black-and-White Photographs	45		
UV Photographs	47		
COLOR SCIENCE	47		
NATURAL COLOR AND COLOR IR PHOTOGRAPHS COMPARED	49		
Signatures of Vegetation	49		
Detection of Stressed Vegetation	51		
Autumn Senescence of Vegetation	52		
Signatures of Other Terrain Features	52		
SOURCES FOR PHOTOGRAPHS/IMAGES OF THE UNITED STATES	52		
National Agriculture Imagery Program	53		
National Aerial Photography Program	53		
National High Altitude Photography Program	53		
NASA High-Altitude Photographs	53		
Online Sources for Aerial Photography	53		
PHOTOGRAPHS FROM SATELLITES	53		
Handheld Photographs from Satellites	53		
Declassified Photographs from Intelligence Satellites	54		
• Questions	54		
• References	55		
3 LANDSAT IMAGES	57		
FIRST GENERATION MSS: LANDSAT 1, 2, AND 3	58		
SECOND GENERATION TM AND ETM+: LANDSAT 4, 5, AND 7	59		
Satellites	59		
Thematic Mapper	59		
Enhanced Thematic Mapper	60		
THIRD GENERATION OLI AND TIRS: LANDSAT 8	60		
OLI Band 1	60		
OLI Band 8	62		
OLI Band 9	62		
ORBIT PATTERNS	63		
PATH-AND-ROW INDEX MAPS	64		
LANDSAT ARCHIVES	64		
LANDSAT COLOR IMAGES	65		
Images of Semiarid Terrain: Thermopolis, Wyoming	67		
Images of Tropical Terrain: West Papua, Indonesia	68		
Landsat Mosaics	71		
APPLICATIONS OF LANDSAT	71		
Snow and Ice Mapping: Northeast Afghanistan	71		
Bathymetry: Exumas Islands, The Bahamas	71		
Deforestation: Cambodia	73		
Water Quality: Lake Erie, United States	73		
Mapping Wildfires: Chile	73		
Geology: Saharan Atlas Mountains, Algeria	73		
SEASONAL INFLUENCE ON IMAGES	75		
Dry Season and Wet Season Images: Transvaal Basin, South Africa	75		
Winter and Summer Images: Bathurst Inlet, Canada	77		
• Questions	78		
• References	78		
4 MULTISPECTRAL SATELLITES	79		
OVERVIEW	79		
Resolution of Satellite Images	80		
Terrain Coverage of Satellite Images	81		
POLAR-ORBITING SATELLITES	81		
High Spatial Resolution Satellites	82		
Medium Spatial Resolution Satellites	90		
Satellite Images, Coral Reefs, Darwin, and the <i>Beagle</i>	99		
Low Spatial Resolution Satellites	102		
GEOSTATIONARY SATELLITES	107		
Geostationary Operational Environmental Satellites	107		
Meteosat	109		
Himawari (Sunflower)	109		
• Questions	109		
• References	109		

5 THERMAL INFRARED IMAGES 111

THERMAL PROCESSES	111
Kinetic Heat, Temperature, and Radiant Flux	111
Heat Transfer	112
Atmospheric Transmission	112
Radiant Energy Peaks and Wien's Displacement Law	112
IMAGING SYSTEMS AND PLATFORMS	113
Handheld Cameras	114
Small Unmanned Aircraft System (sUAS)/ Drone Cameras	115
Manned Aircraft Systems	115
Satellite Systems	115
THERMAL PROPERTIES OF MATERIALS	115
Blackbody Concept	116
Emissivity of Materials	116
Thermal Conductivity	119
Thermal Capacity	119
Thermal Inertia	119
Apparent Thermal Inertia	121
Thermal Diffusivity	122
Diurnal Temperature Variation	122
CHARACTERISTICS OF TIR IMAGES	122
Effects of Weather on Images	122
Penetration of Smoke Plumes	123
Influence of Water and Vegetation	123
CONDUCTING AIRBORNE TIR SURVEYS	124
Time of Day	125
Wavelength Bands	125
Spatial Resolution	127
Elevation of Flight Lines	127
Ground Measurements	127
HEAT-LOSS SURVEYS	129
CONSERVATION—AFRICA	129
THERMAL INERTIA FIELD EXPERIMENT	131
Diurnal Radiant Temperature Measurements	132
Data Analysis	133
Vegetation Signatures and Diurnal Cycle	133
THE IMLER ROAD AREA, CALIFORNIA	133
Terrain Expression	133
Anticline	134
Superstition Hills Fault	135
TIR Image and Aerial Photograph Compared	135

WESTERN TRANSVAAL, SOUTH AFRICA	135
SATELLITE TIR SYSTEMS	137
Landsat Daytime and Nighttime TIR Images	137
AVHRR	137
ASTER Urban Heat Island —Manila, Philippines	137
MODIS Sea Surface Temperature —North Atlantic	139
TIR SPECTRA	139
ASTER TIR Bands	140
TIR Multispectral Scanner	141
Hyperspectral TIR for Agriculture	141
• Questions	141
• References	141

6 RADAR IMAGES 143

RADAR TECHNOLOGY	143
Components	143
Imaging Systems	144
Typical Images	144
Radar Wavelengths	146
Depression Angle	147
Slant-Range and Ground-Range Images	147
Spatial Resolution	148
Real-Aperture and Synthetic-Aperture Systems	150
Polarization	150
HISTORIC RADAR SYSTEMS	151
Seasat	151
NASA Shuttle Imaging Radar Missions	151
Other Earth Orbiting Radar Satellites	154
Planetary Exploration	154
RECENT AIRBORNE AND SATELLITE RADAR SYSTEMS	154
Airborne Radar Systems	155
Satellite Radar Systems	155
CHARACTERISTICS OF RADAR IMAGES	158
Highlights and Shadows	158
Look Direction and Terrain Features	160
Topographic Inversion	160
Radar and Landsat Images Compared: Indonesia	162
Image Foreshortening	164
RADAR RETURN AND IMAGE SIGNATURES	165
Dielectric Properties and Water Content	165
Surface Roughness	166

SURFACE ROUGHNESS ON LANDSAT AND RADAR IMAGES 168
 Cottonball Basin, Death Valley, California 169
 Copper Canyon X-Band and L-Band Images Compared 172

RADAR SIGNATURES IN SAND-COVERED DESERT TERRAINS 174
 Selima Sand Sheet 174
 Other Sand-Covered Deserts 175

RADAR INTERACTION WITH TROPICAL TERRAIN, INDONESIA 176
 Terrain Categories 176
 Structural Interpretation 176

RADAR INTERACTION WITH VEGETATED TERRAIN 180

INTERFEROMETRY 183
 Grayscale Display of Fringes 184
 Color Display of Fringes 185

RADAR APPLICATIONS 185
 Shuttle Radar Topography Mission 185
 RADARSAT-2: Images of Floods 186
 Airborne Radar Images: Forestry 187
 Sentinel-1A Radar:
 Ice Bergs and Sea Ice 187
 Sources of Radar Data 188
 • Questions 189 • References 189

7 DIGITAL ELEVATION MODELS AND LIDAR **191**

PHOTOGRAMMETRY 191

STRUCTURE FROM MOTION 196

SURVEYING 198

LIDAR 199
 Lidar Principles 199
 Lidar Returns 201
 Lidar Intensity 202
 Airborne Lidar Systems 202

RADAR 208
 One Platform with Two Antennas (Single Pass InSAR) 209
 Satellite Platforms with One Antenna Each (Multiple Pass InSAR) 211
 Ground-Based InSAR 213

SONAR 213

SATELLITE RADAR ALTIMETRY 215
 Seafloor Bathymetry 215
 Polar Ice 216

GLOBAL DEMs 217
 ASTER GDEM3 218
 GMTED2010 219
 ETOPO1 219
 SRTM Global DEM 219

SYNTHETIC STEREO DEMs 220

STANDARDS 221

RESOURCES 221
 Sources of DEM Data 221
 Sources of Lidar Data 221
 Information Sources 221
 • Questions 221 • References 222

8 DRONES AND MANNED AIRCRAFT IMAGING **225**

HISTORY 225
 Manned Aircraft 226
 Unmanned Aircraft 227

PLATFORMS 227
 Manned Aircraft 227
 Small Unmanned Aircraft Systems 228

SENSORS 229
 Manned Aircraft 229
 Small Unmanned Aircraft Systems 231

AERIAL MAPPING 232
 Manned Aircraft 233
 Small Unmanned Aircraft Systems 234

sUAS REGULATIONS 237

NEW DEVELOPMENTS 237
 Cloud-Based Services 237
 Collision Avoidance 237
 Swarms 238
 Georeferenced Video 238
 Stopping Drones 238
 • Questions 238 • References 238

9 DIGITAL IMAGE PROCESSING 241

STRUCTURE OF DIGITAL IMAGES	241
Satellite Scenes	242
Digital Image Array	242
Digitization	242
Data Formats	244
IMAGE PROCESSING OVERVIEW	244
PREPROCESSING	244
Minimize Raster Data Errors and Noise	244
Evaluation of Image Statistics	244
Correcting for Atmospheric Scattering	247
Geometric Correction	248
Map Projections	249
Georeferencing	252
Orthorectification	254
IMAGE ENHANCEMENT	254
Contrast Enhancement	254
Density Slicing	257
Edge Enhancement	257
Intensity, Hue, and Saturation Transformations	261
Pan-Sharpening and Combination Images	265
Digital Mosaics	265
Masking	266
INFORMATION EXTRACTION	266
Principal Component Images	266
Ratio Images	270
Multispectral Classification	272
Change-Detection Images	279
Hyperspectral Processing	279
IMAGE PROCESSING	281
Desktop Hardware	282
Desktop Software	283
Project Workflow	283
• Questions	284
• References	285
10 GEOGRAPHIC INFORMATION SYSTEMS 287	
GIS DATA MODELS	288
RASTER IMAGES	289
DIGITAL ELEVATION MODELS	289
Hillshade	289
Slope and Aspect	289
Drainage Network	291
Perspective Views	291
Strike and Dip	292

SPATIAL ANALYSIS	293
HEADS-UP DIGITIZING	296
FIELD TOOLS	297
VIRTUAL 3-D GLOBES	297
GIS CONFIGURATIONS	298
Web GIS	298
Cloud Computing	299
Big Data	299
SOFTWARE	300
Commercial	300
Open Source	300
• Questions	300
• References	300

11 ENVIRONMENT 301

ENVIRONMENTAL SATELLITES	301
UV RADIATION AND OZONE CONCENTRATION ...	302
Ozone Monitoring Instrument	304
Ozone Depletion Trends and the Antarctic Ozone Hole	304
AIR POLLUTION	304
Nitrogen Dioxide	304
Sulfur Dioxide	305
CLIMATE AND WEATHER	306
Cloud Mapping	306
Rainfall Mapping	307
Wind Patterns over the Oceans	308
Weather Prediction	310
OCEANOGRAPHY	310
Sea Surface Temperature	310
Salinity	310
Chlorophyll and Ocean Color	311
Global Productivity	312
Productivity and Upwelling along the California Coast	312
OCEAN CURRENTS	312
Modeling Ocean Currents	313
Radar Images of Internal Waves	313
SEA ICE	314
Landsat Images	315
TIR Images	317
Radar Images	319
Multi-angle Imaging SpectroRadiometer	323
GLOBAL VEGETATION	323

GLOBAL FIRES 324

WETLANDS 324

SOIL MOISTURE 325

ANIMAL COUNTING 325

HAZARDOUS WASTE SITES 326

THERMAL PLUMES 326

OIL SPILLS 328

 Characteristics and Interaction
 Mechanisms of Oil Spills 329

 UV Images 329

 Visible and Reflected IR Images 331

 TIR Images 334

 Radar Images 336

• Questions 338 • References 338

12 RENEWABLE RESOURCES 341

AGRICULTURE 341

 Grapevine Water Status 342

 Corn Yield Models 344

 Landsat: Mapping
 Agricultural Water Use 345

FORESTRY 345

 Lidar for Forestry 346

 Photogrammetry and
 sUAVs for 3-D Trees 347

 UAVs for Mapping Forest Gaps 348

 Understanding Drivers
 of Deforestation 350

FISHERIES 351

 Airborne TIR Mapping of Rivers 351

 Monitoring Fishing Vessels 352

FRESH WATER 352

 The Shrinking Aral Sea 352

 Mapping Nuisance Algae 354

 Shifting River in Bolivia 354

RENEWABLE ENERGY 354

 Geothermal 354

 Solar 355

 Wind 355

• Questions 355 • References 356

13 NONRENEWABLE RESOURCES 357

OIL EXPLORATION AND DISCOVERY 357

 Papua New Guinea Project 358

 Central Arabian Arch Project 361

 Modern Analogs 368

 Direct Detection of Oil and Gas 371

MINERAL EXPLORATION AND DISCOVERY 373

 Mapping Hydrothermally
 Altered Rocks 374

 Goldfield Mining District, Nevada 374

 AVIRIS Hyperspectral System
 and Goldfield Alteration 380

 Porphyry Copper Deposits 382

 Collahuasi Copper Mine, Chile 385

 Balkhab Valley, Afghanistan 387

 Geologic Mapping
 with ASTER TIR 388

**MONITORING DEVELOPMENT
WITH REMOTE SENSING** 390

 Radar Interferometry to
 Monitor Steam Injection 390

 Drill Cores 391

• Questions 392 • References 393

14 LAND USE/ LAND COVER 395

GLOBAL MAPS 395

 Food and Agriculture Organization
 of the United Nations 396

 European Space Agency 396

 GLOBE 396

 Human Impact 398

USGS NATIONAL MAPS 398

 National Land Cover Database 398

 USGS Anderson
 Classification System 401

 NLCD Percent Developed
 Impervious Map 402

 Other National Maps 402

REGIONAL MAPPING 402

LOCAL MAPPING 404

ACCURACY ASSESSMENT 405
