

CONTENTS

List of contributors	7
Preface	19

Prenatal ontogeny

Metabolic differentiation of embryonic brain cells reaggregated at +4° and 0 °C Z. LODIN, A. BASS, J. ERŽEN, J. FALTIN, V. FLEISCHMANNOVÁ, J. FOLBERGEROVÁ, B. HÁJKOVÁ, J. HARTMAN, V. LISÝ, V. MAREŠ, A. PANOV, J. TEISSINGER	23
Brain Malformation and the encephalic fluid pressure R. JELÍNEK, M. DOSKOČIL	33
Stimulatory and inhibitory effect of hydrocortisone on morphogenesis of choroid plexus in chick embryo Z. RYCHTER, F. ŠTĀSTNÝ	39
Differential effect of cortisol on sodium-potassium adenosine triphosphatase and glutamyl transpeptidase in brain and choroid plexus of developing chick embryo V. LISÝ, F. ŠTĀSTNÝ, Z. RYCHTER, Z. LODIN	49
Developing participation of central aminergic systems in embryonic behavior (spontaneous motility) J. SEDLÁČEK	59

Developmental morphology and embryophysiology

Nerve-dependent development of Pacinian corpuscles J. ZELENÁ	69
The development of the sensory neurons by the transplantation N. I. CHALISOVA, E. I. CHUMASOV	77
Postnatal development of afferents in the rat's LGB E. WINKELMANN, K. BRAUER, L. WERNER	83
Ontogenetic investigations on relay cells in the rat's dorsal lateral geniculate nucleus K. BRAUER, E. WINKELMANN, L. WERNER	91
Geometry and electrophysiology of developing neurons of the brain stem reticular formation N. G. GLADKOVICH, K. V. SHULEIKINA, T. A. LEONTOVICH, V. V. RAYEVSKY	97
Autoradiographic investigation of the regeneration of retina and tectum in adult newts V. I. MITASHOV, E. N. GRIGORYAN, G. N. MOSKVIN	105
The regeneration of the retina and the tectum of the tadpoles and adult frog: an autoradiographic study V. I. MITASHOV, K. J. REZNIKOV, G. N. MOSKOVKIN, E. N. GRIGORYAN, S. D. MALIOVANOVA	109
Ontogeny of early forms of natural behavior of birds L. P. DMITRIYEVA, S. N. KHAYUTIN	113
Reaggregation of embryonic brain cells in vitro at 37 °C and 0 °C Z. LODIN, J. FALTIN, V. FLEISCHMANNOVÁ, J. HARTMAN, B. HÁJKOVÁ, V. MAREŠ	121
Visceral motility in the foetal cat and rabbit F. KATONA	132

Developmental neurochemistry

Development of intermembranous contacts of nerve and glial cells reaggregated in vitro Z. LODIN, J. FALTIN, V. FLEISCHMANNOVÁ, J. HARTMAN	137
Developmental pattern of glycoproteins and related enzymes in different areas of the rat brain D. BIESOLD, G. BRÜCKNER, T. BRAULKE, L. MÜLLER, K. WEISZ	145
Postnatal synthesis of extra DNA in neurons of the rat forebrain cortex C. C. KUENZLE	155
Autoradiographic study of glial cell kinetics in tissue cultures V. MAREŠ, V. FLEISCHMANNOVÁ, Z. LODIN, J. FALTIN	159
Membrane-bound enzyme activities in neuronal, glial and neuropil enriched fractions isolated from the developing mouse cerebral cortex F. ŠTASTNÝ, Z. LODIN, A. M. PANOV, V. LISÝ	167
Effects of brain extracts on glial cells in primary culture M. SENSENBRENNER, B. PETTMANN, E. BOCK, G. DEVILLIERS, G. LABOURDETTE, J. P. DELAUNOY	175
Further evidence for an active role of glial cells in K ⁺ homeostasis: biochemical, electrophysiological and isotopic analysis in vitro, during maturation	183
G. MOONEN, Y. SELAK, G. FRANCK	183
The influence of X-irradiation on cell and tissue kinetics in the developing brain G. BRÜCKNER, V. MAREŠ, D. BIESOLD	191
The appearance of serotonin and glutamate neurotransmitter receptors during brain development S. MURPHY, C. SANDERSON, M. G. UZBEKOV	197
Adrenergic mechanisms of the developing brain V. V. RAYFVSKY	205
Levels of free serine, glycine and related compounds and the activity of enzymes of their metabolism in rat brain hemisphere in postnatal ontogeny J. ŠAFANDA, P. SOBOTKA	213
Postnatal maturation of the rat hippocampus: effect of hypo- and hyperthyroidism G. N. MOSKOVKIN, T. L. MARSHAK	221
Developmental pattern of glycosidases in different brain areas D. BIESOLD, T. BRAULKE, G. BRÜCKNER, L. MÜLLER, K. WEISZ	227
Postnatal development of GABA metabolism in the visual system of normal and visually deprived rats E. KUNERT, V. BIGL	229
Pharmacological suppression of active (REM) sleep in infant rats: effect on adult sleep patterns M. MIRMIRAN, M. CORNER, H. BOUR	231
Paradoxical sleep periodicity in early human malnutrition I. FAGIOLI, C. RIGOUR, F. SALOMON, P. SALZARULO	239
Rhythmic cortical phenomena elicited by thalamic stimulation during ontogenesis in rats D. MAREŠOVÁ, P. MAREŠ, J. FISCHER, S. TROJAN, R. DRUGA	245
Specificity of regional development of thalamocortical relationships in dogs J. ZÁHLAVA, R. ROKYTA, P. SOBOTKA, V. ŽALUD	249
The development of activity of thalamocortical connections in awake, curarized and anesthetized animals R. ROKYTA, P. MAREŠ, V. ŽALUD, P. SOBOTKA, F. VOŽEH	251
Analysis of the interhemispheric response during ontogenesis in rats P. MAREŠ, J. MAREŠ, R. ROKYTA, J. SEIDL	253
Ontogenesis of the cortical epileptogenic activity P. SOBOTKA	257
Effect of antiepileptic drugs during ontogenesis in rats P. MAREŠ, D. MAREŠOVÁ, R. ROKYTA, R. SCHICKEROVÁ, J. SEIDL	263

Determinants of the postnatal development of the central nervous system

The role of early experience in social behaviour of female laboratory-bred rats	271
V. NOVÁKOVÁ, J. ŠTERC, A. BABICKÝ	
Effect of undernutrition on developing cerebellar cortex	277
V. BIJLANI, K. DEO, M. G. DEO	
Long term effects of protein deprivation and of psychological stress	281
S. FRAŇKOVÁ	
The short-term fasting and hypoxia: internal environment and some enzymatic activities in the developing brain	289
J. MOUREK	
Adaptation of the central nervous system to lack of oxygen during ontogenesis	291
S. TROJAN	
The effect of aerogenic hypoxia on the red and white blood cell counts, hematocrit and the osmotic resistance of red blood cells in rats	301
E. TRÁVNÍČKOVÁ, S. TROJAN	
The functional state of CNS in young rats after repeated exposure to aerogenic hypoxia	307
K. ČÍROVÁ, S. TROJAN	
Changes of the presynaptic dense projections of cortical synapses produced by prolonged aerogenic hypoxia during ontogeny in rats	311
J. FISCHER, M. LANGMEIER, S. TROJAN	
Changes in the geometry of dendrites and in the number of spines of the CA ₁ hippocampal pyramidal cells due to prolonged aerogenic hypoxia during postnatal ontogeny in rats	317
J. POKORNÝ, S. TROJAN, J. FISCHER	
Oxygen consumption in the brain and diaphragm in young rats adapted to altitude hypoxia	325
M. TROJANOVÁ, J. MOUREK, S. TROJAN	
Effect of single and repeated aerogenic hypoxia on the content of amino acids in the rat brain	331
J. KOUDELOVÁ, S. TROJAN	
Influence of repeated altitude hypoxia on early postnatal development of nucleic acid content in the rat prosencephalon	337
S. ŠTÍPEK, S. TROJAN, J. CRKOVSKÁ, J. MARTÍNEK	
Production of autoantibodies against the brain tissue during hypoxia	341
Z. JEŽKOVÁ, S. TROJAN	
Cortical interhemispheric response in young rats repeatedly exposed to hypobaric hypoxia	349
J. MAREŠ, P. MAREŠ, S. TROJAN	
Electrocorticographic effect of locally applied acetylcholine in rats exposed to repeated hypoxia	355
D. MAREŠOVÁ, P. MAREŠ, S. TROJAN	
The effect of fasting and hypoxia on the mitochondrial cytochromoxidase activity in the developing brain	361
J. KOUDELOVÁ, Z. DOBEŠOVÁ, J. MOUREK	
The effect of age and starvation on some dehydrogenases activities	367
V. HRACHOVINA, J. MOUREK	
The respiratory activity and the R.c. value of CNS mitochondria during the development and under various experimental conditions	375
Z. DOBEŠOVÁ, J. MOUREK	
The ATPase activity under various experimental conditions in the developing rat brain	385
J. MOUREK, F. ŠĚASTNÝ	
Effect of orotic acid on memory retention of adult rats undernourished in early life	393
H. L. RÜTHRICH, W. WETZEL, H. MATTHIES	
Short-term inhibition of protein synthesis applied at brain growth spurt: behavioral teratology model	397
A. PAVLÍK, R. JELÍNEK, J. TEISINGER	
Acetylcholinesterase and hypoxia	405
V. MYDLIL, H. TOMÁŠOVÁ	

Development of the behavior functions and memory

Feeding, food reward, and learning: an appetitive system for ingestive behavior in infant rats	
W. G. HALL	404
Learning and memory of various complexity mature and culminate differentially	
J. MYSLIVEČEK, J. HASSMANNOVÁ, F. JANDA, D. ŠTASTNÁ, A. ROMOLINIOVÁ	417
Neural signals in the ontogeny of alimentary behavior	
K. N. SHARMA	425
Relationship between emotional reactions and feeding behaviour in dogs of different age ranges	
V. G. KASSIL, L. A. VATAEVA	429
The development of hemispherical dominance of speech during recovery from acquired aphasia in childhood	
P. POHL	437
Letencies of extraocular muscle movement after vestibular and oculomotor nerve stimulation in postnatal growing rabbits	
J. SCHÖNFELDER	443
Physiological and morphological studies of otolith organs in postnatal growing rabbits	
P. SCHWARTZE, H. TEGETMEYER	449
EMG activity in the neck muscles related to head and body position in the human newborn	
H. H. BAKKER, H. F. R. PRECHTL	457
Diaphragmatic, intercostal and abdominal muscle tonic EMG activity in normal and hypotonic newborns	
M. J. O'BRIEN, L. A. VAN EYKERN, H. F. R. PRECHTL	471
Development of the so called "flexion pyramidal signs" in the prematures	
I. LESNÝ, M. PROŠKOVÁ, V. MYDLIL	481
Respiratory dependence on mechanical respiration according to sleep states in infants	
L. CURZI-DASCALOVA, M. F. RADVANYI	489
Comparative study of sleep in full-term and premature newborns at 37—41 weeks conceptional age	
N. PAJOT, G. VICENTE, C. DREYFUS-BRISAC	495
The development of hemispherical dominance of speech in children from 4 to 10 years of age	
P. POHL, H. G. GRUBMÜLLER and R. GRUBMÜLLER	505
Tests of auditive behaviour	
M. BERÉNYI, P. SZABADOS	507
Early diagnosis of impaired brain ontogenesis in the human	
F. KATONA, M. BALÁZS	513
The synthesis of glycoproteine in the cell and tissue compartments of the developing mouse cerebellum. An autoradiographic and biochemical study	
V. MAREŠ, L. MÜLLER, G. BRÜCKNER, D. BIESOLD	517
Constancy and variability of DNA content in Purkinje cells. Re-evaluation of data on ontogeny and cytological analysis of this phenomenon	
T. L. MARŠAK, V. MAREŠ, V. LISÝ, B. N. KUDRJAVCEV, Z. LODIN, V. Ja. BRODSKY	523

Developmental electrophysiology

Ordinary and partial coherence functions in the EEG of the rat during ontogeny	
A. GRAMSBERGEN, J. E. VOS, J. MOOIBROEK	531
The development of EEG and other physiological variables in premature infants	
K. PAUL, J. DITTRICHOVÁ, J. ZEŽULÁKOVÁ	539
Functional maturation of visual cortex during prenatal and early postnatal ontogenesis	
E. V. MAXIMOVA, L. N. MAXIMOVA	547
Electrophysiological evidence and development of a visual temporal evoked response in young rabbits	

R. FLORES-GUEVARA	555
The earliest evidence of evoked responses to receptor stimulation in the rat cerebral cortex	
J. HASSMANNOVÁ, J. MYSLIVEČEK, A. ROMOLINIOVÁ, D. ŠŤASTNÁ	563
Projections of the common fur of the muzzle upon the cortical area for mystacial vibrissae (PMBSF) in rodents with vibrissal follicles destroyed since birth	
R. VERLEY, E. FARKAS, B. PIDOUX	571
General organizing principles of the neuronal discharge activity of limbic structures in early ontogenesis	
G. M. NIKITINA	579
Development of infant attention and evoked potentials	
B. Z. KARMEĽ, M. LESTER, D. DENTEMARO, J. GARDNER	589
Author index	597
Subject index	605
