

CONTENTS

Preface 9

Acknowledgements 11

List of Symbols 13

Part 1 – The Method of Prediction of Atmospheric Stress and Deterioration of Technological Materials

1. Prediction of Atmospheric Stress and Deterioration 19
2. Chronological Transformation: Substance of the Method 22
3. Variants of the Chronological Transformation Method 26
4. Parameter Deterioration vs. Period of Real Stress (Sets of Curves) 30
5. Decisive Parameter vs. Material Stress Factors (Characteristics) 33
6. Standard Values of Atmospheric Stress Factors 38
7. Computational Matrixes for Chronological Transformation of Atmospheric Stress 41
8. Calculations of Atmospheric Stress 50

Part 2 – Prediction of Stress and Deterioration of Technological Materials

9. Prediction of Sorption Stress 55
10. Prediction of Desorption Stress 60
11. Prediction of Cyclic Sorption/Desorption Stress 64
12. Prediction of Temperature Stress 65
13. Prediction of Corrosion Stress 69
14. Prediction of Microbiological Stress 74

Part 3 – Prediction of Stress, Degradation and Operational Lifetime of Constructional Components

15. Design Considerations with Regard to Environmental Stress 81
16. Controlling Stresses 82
17. Climatic and Operational Conditions 83
18. Prediction of Complex Stress on Constructional Component Parts or Whole Technological Systems 86
19. Prediction Based on Deterioration or Lifetime of Constructional Component Parts in Comparison Conditions 89
20. Prediction Based on Model Tests Using Abbreviated Stress Modes 92
21. Prediction Based on Tests under Conditions of a Complex Model Stress 94

Part 4 – Maps Predicting Atmospheric Stress on Technological Materials in South-West, South, Central, East and South-East Asia, Australia and Oceania

22. Meteorological and Cartographic Data on the Maps 105
23. Microclimatic and Altitude Data on the Maps 106

24. Atmospheric Stress on Materials in Temperate Climatic Zones (A Reference Case: Europe)	108
25. The Map of Average Yearly Sorption Stress for Class A Materials	126
26. The Map of Five-Years' Average Sorption Stress for Class A Materials	133
27. The Map of Ten-Years' Extreme Monthly Sorption Stress for Class A Materials	140
28. The Map of Average Yearly Sorption Stress for Class B Materials	147
29. The Map of Five-Years' Average Sorption Stress for Class B Materials	154
30. The Map of Ten-Years' Extreme Monthly Sorption Stress for Class B Materials	161
31. The Map of Average Monthly Sorption Stress Acting on Dried-Up Materials	168
32. The Map of Periods of Critical Sorption Stress Acting on Materials	175
33. The Map of Average Yearly Desorption Stress for Class E Materials	182
34. The Map of Five-Years' Average Desorption Stress for Class E Materials	189
35. The Map of Average Yearly Desorption Stress for Class F Materials	196
36. The Map of Five-Years' Average Desorption Stress for Class F Materials	203
37. The Map of Yearly Average Number of Cycles and Daily Amplitudes of Sorption and Desorption Stresses on Materials	210
38. The Map of Yearly Average Day and Night Temperature Stress for Class I Materials Placed in Buildings	217
39. The Map of Yearly Average Day Temperature Stress for Class I Materials Placed in Buildings	224
40. The Map of Yearly Average Day and Night Temperature Stress for Class J Materials Placed in Buildings	231
41. The Map of Yearly Average Day Temperature Stress for Class J Materials Placed in Buildings	238
42. The Map of Yearly Average Day and Night Temperature Stress for Class K Materials Placed in Buildings	245
43. The Map of Yearly Average Day Temperature Stress for Class K Materials Placed in Buildings	252
44. The Table of Yearly Average Day Temperature Stress Including Solar Radiation for Class I, Class J and Class K Materials Placed on Open-Air Sites	259
45. The Table of Average Yearly (Day and Night/Day) Temperature Stress for Class I, Class J and Class K Materials Placed under Sheds	263
46. The Map of Average Yearly Corrosion Stress for Steel	270
47. The Map of Average Yearly Corrosion Stress for Copper	278
48. The Map of Ten-Years' Extreme Monthly Corrosion Stress for Copper	286
49. The Map of Average Yearly Corrosion Stress for Aluminium	293
50. The Map of Ten-Years' Extreme Monthly Corrosion Stress for Aluminium	300
51. The Map of Average Yearly Corrosion Stress for Brass and Zinc	307
52. The Map of Ten-Years' Extreme Monthly Corrosion Stress for Brass and Zinc	315
53. The Table of Yearly Average Night Corrosion Stress for Steel, Copper, Aluminium, Brass and Zinc	322
54. The Map of Ten-Years' Extreme Monthly Microbiological Stress for Class T Materials	
The Table of Ten-Years' Extreme Monthly Microbiological Stress for Class S Materials	326
55. The Map of Ten-Years' Extreme Monthly Microbiological Stress for Class U Materials	333
56. The Map of Ten-Years' Extreme Monthly Microbiological Stress for Class V Materials	340
57. The Map of Periods of Critical Microbiological Stress Acting on Materials	347
58. The Table of Average Yearly Microbiological Stress for Class S, Class T, Class U and Class V Materials	354
References	359
Geographical Index	363
