

Table of Contents

Lecture Sessions

SATURDAY, SEPTEMBER 8

Function of Enzymes and Other Active Proteins I (Enzyme Function I)

15:00–15:50, 16:10–18:00

Magnetic Circular Dichroism Spectroscopy as a Probe of Heme Iron Coordination Structure 3

J. H. DAWSON

Invited Plenary Lecture

FTIR Spectroscopic Study on Protonable Sites in the Proton Pathways of the Cytochrome *c* Oxidase from *P. denitrificans* 4

P. HELLWIG, U. PFITZNER, A. BÖHM, O. M.-H. RICHTER, J. BEHR, A. KANNT,

H. MICHEL, B. LUDWIG AND W. MÄNTELE

Vibrational Study of the Carbon Monoxide Adducts of *Coprinus cinereus* Peroxidase and Selected Mutants 5

A. FEIS, E. SANTONI, K. G. WELINDER AND G. SMULEVICH

Optical and Infrared Absorption as a Probe of the Dynamics of Heme Proteins 6

S. S. STAVROV, W. W. WRIGHT, J. M. VANDERKOOI, J. FIDY AND A. D. KAPOSI

Micro-Raman Characterisation of High and Low Spin Haem Moieties Within a Single Living Red Blood Cell 7

B. R. WOOD, B. TAIT AND D. MCNAUGHTON

SUNDAY, SEPTEMBER 9

Function of Enzymes and Other Active Proteins II (Enzyme Function II)

9:00–10:45

Salt Dependence of Conformation and Stability of Rhodopsin and Its Photoproducts 8

R. VOGEL AND F. SIEBERT

Lecture at the Invitation of the European Committee

The Combination of Time-Resolved Step-Scan FT-IR and ATR Spectroscopy Monitors the Dynamics of Proton Pumping Proteins 9

C. BOLWIEN, D. HEITBRINK, R. NYQUIST, J. HEBERLE

Kinetic Multichannel Spectroscopy of Biological Molecules. Decomposition of the Spectral Matrix. 10

L. ZIMÁNYI, Á. KULCSÁR AND J. SALTIEL

IR Spectroscopic Studies of the Remarkable Variation in the Mechanisms of Bacterial Resistance to Beta-Lactam Antibiotics – Plastic and Rigid Transpeptidases. 11

C. W. WHARTON, A.-S. WILKINSON AND P. K. BRYANT

Function of Enzymes and Other Active Proteins III (Enzyme Function III)

11:00–12:45

Time-Resolved Fluorescence for Probing the Structure and Pharmacology of Agonist Binding Sites in a Ligand-Gated Ion Channel: Application to the *Torpedo* Nicotinic Acetylcholine Receptor 12

F. MÉROLA, K. L. MARTINEZ, P. J. CORRINGER, S. J. EDELSTEIN AND J. P. CHANGEUX
Lecture at the Invitation of the European Committee

Interpretation Tools in Infrared Difference Spectroscopy. From General Aspects to Atomic Resolution. 13

A. BARTH

Interaction of *Escherichia coli* Purine Nucleoside Phosphorylase (PNP) with Formycin A (FA) Probed by Effect of Induced Tautomeric Shifts and Enzyme → Ligand Fluorescence Resonance Energy Transfer on Fluorescence and Phosphorescence 14

J. WŁODARCZYK, G. STOYCHEV, B. KIERDASZUK

A Single Molecule Study on Nucleotide Excision Repair Complexes 15

G. M. J. SEGERS-NOLTEN, C. WYMAN, N. WIJGERS, W. VERMEULEN, A. T. M. LENFERINK, C. OTTO, J. H. J. HOEIJMAKERS, J. GREVE

Structural Properties of Proteins and Peptides (Protein Structure)

14:00–15:15

Spectroscopic Characterization of Selected Beta-Sheet Hairpins and Three-Stranded Beta-Sheet Models 16

J. HILARIO, J. KUBELKA AND T. A. KEIDERLING

Raman Studies of the Helix Stabilization Tendencies in Alanine-Based Model Peptides 17

J. POPP, R. PETRY AND W. KIEFER

The Atomic Structure of *Mycobacterium tuberculosis* Cytochrome P450 Rv2276 (P450 MT2) – a Novel Drug Target in the War Against Multi-Drug Resistant Tuberculosis 18

A. W. MUNRO, K. J. MCLEAN, A. SOUTER, W. E. SMITH, M. ORTIZ LOMBARDIA, P. M. ALZARI, S. L. RIVERS, S. K. CHAPMAN, M. D. WALKINSHAW, C. G. MOWAT AND D. LEYS

MONDAY, SEPTEMBER 10

Structural Dynamics of Proteins (Protein Folding)

9:00–10:45

Polymorphism of a Tetralin Derivative for the Therapy of Cardiovascular Diseases: a Vibrational Study <i>P. TADDEI, A. TORREGGIANI AND <u>G. FINI</u></i>	132
Precursor Structures of Pharmaceutically Interesting Paroxetine and Femoxetine: Study by Vibrational Circular Dichroism Spectroscopy <i>M. <u>URBANOVA</u>, V. SETNICKA, P. BOUR, H. NAVRATILOVA AND K. VOLKA</i>	133
Mass Spectral Study on New Daunorubicin Derivatives <i>A. <u>ZIMNIAK</u>, M. OLEJNIK, M. WĄSOWSKA, I. OSZCZAPOWICZ AND W. DANIKIEWICZ</i>	134
Photoinduced Processes in Biomolecules	
Searching for the Chemical Equivalent of Nitrogenase: Dinitrogen Rhenium (I) Complex in UV Radiation Field <i>J. O. <u>DZIĘGIELEWSKI</u>, J. MRZIGOD, B. MACHURA, S. MICHALIK AND <u>R. HASSA</u></i>	137
Stability of the Vitamin A in Cosmetic Formulations. Study by Raman Spectroscopy. <i>N. <u>FAILLOUX</u>, I. BONNETI AND M. H. BARON</i>	138
Comparative Study of Provitamin D Photoisomerization in Solution and in Nematic LC Matrix Using UV Absorption Spectroscopy <i>I. A. <u>GVOZDOVSKYY</u> AND <u>L. P. TERENETSKAYA</u></i>	139
Red-Edge Excitation Effect on Excited-State Intramolecular Proton Transfer in Flavonols <i>J. V. <u>KRUCHENOK</u>, N. A. NEMKOVICH, A. N. SOBCHUK, <u>E. P. PETROV</u>, A. N. RUBINOV AND V. G. PIVOARENKO</i>	140
Axial Ligand Binding and Release Processes in Nickel(II)-Tetraphenylporphyrin Revisited: a Resonance Raman Study <i><u>S. G. KRUGLIK</u>, V. V. ERMOLENKOV, V. A. ORLOVICH AND P.-Y. TURPIN</i>	141
New Mechanism of Photodestructive Action of Porphyrins in Biological Membranes: Spectral Study <i><u>M. P. TSVIRKO</u>, V. V. GURINOVICH, A. V. VOROBEY</i>	142
Author Index	143

Time-Resolved Resonance Raman Study on Ultrafast Structural Relaxation and Vibrational Cooling of Photodissociated Carbonmonoxy Myoglobin	19
<i>T. KITAGAWA AND Y. MIZUTANI</i>	
<i>Invited Plenary Lecture</i>	
Single Molecule Protein Folding with Cytochrome <i>c</i>	20
<i>C. RISCHEL</i>	
<i>Lecture at the Invitation of the European Committee</i>	
Applications of Ultrafast, Laser-Induced pH-Jump to the Study of Early Events in Protein Folding	21
<i>S. ABBRUZZETTI, M. CARCELLI, P. PELAGATTI, D. ROGOLINO AND C. VIAPPANI</i>	
<i>Lecture at the Invitation of the European Committee</i>	
Ultrafast Phenomena in Biospectroscopy I (Ultrafast Phenomena I)	
11:00–11:25	
Searching for Relationships Between the Structure and Function of Melanin	22
<i>J. D. SIMON, J. B. NOFSINGER, C. M. R. CLANCY</i>	
New Approaches in Microspectroscopy and Microimaging I (Microspectr. I)	
11:30–12:45	
Integration of a Confocal Raman Microscope with a Scanning Electron Microscope	23
<i>Y. Y. AKSENOV, E. G. J. REINDERS, J. GREVE, C. VAN BLITTERSWIJK, J. DE BRUIJN, A. VAN APELDORN, C. OTTO</i>	
FT-IR Spectroscopic Imaging of Tissue Thin Sections	24
<i>P. LASCH, M. BOESE AND M. DIEM</i>	
Poster Session A	
<u>SUNDAY, SEPTEMBER 9</u>	
15:30–19:00	
Structural Properties of Proteins and Peptides	
Spectroscopic Investigations of the Structure and Dynamics of Dipeptide Mimetics	29
<i>A. R. HIGHT WALKER, E. J. HEILWEIL, R. D. SUENRAM, J. T. HOUGEN, G. T. FRASER, D. F. PLUSQUELIC, C. BROWN, D. A. NEUMAN, D. B. ROMERO, R. J. LAVRICH, M. J. TUBERGEN AND I. KLEINER</i>	
Simulation of Vibrational Spectra for Peptides in Various β -Sheet Conformations	30
<i>J. KUBELKA AND T. A. KEIDERLING</i>	
Raman and NMR Spectroscopy of the Elastin Like Polypentapeptides	31

<i>D. KURKOVÁ, P. SCHMIDT, J. DYBAL, J. KRÍŽ, J. C. RODRIGUEZ-CABELLO</i> <i>AND M. ALONSO</i>	
An Investigation into the Conformation and Vibrational Spectra of the Cyclic Dipeptide (L-Met-L-Met)	32
<i>A. P. MENDHAM, B. Z. CHOWDHRY, R. WITHNALL, B. S. POTTER, R. A. PALMER</i> <i>AND T. J. DINES</i>	
Monitoring Selective Substitutions of Amino Acids in Helical Peptides by Raman Spectroscopy	33
<i>R. PETRY, J. POPP, H. KLUMP, D. PALM AND W. KIEFER</i>	
Structural Features and Conformational Equilibria of 3 ₁₀ -Helical Peptides in Solution by Spectroscopic and Molecular Mechanics Studies	34
<i>B. PISPISA, C. MAZZUCA, A. PALLESCHI, L. STELLA, M. VENANZI, F. FORMAGGIO,</i> <i>A. POLESE AND C. TONIOLO</i>	
A Vibrational Investigation of the Co(II)-Carnosine Oxygenated Complexes at Basic pH	35
<i>A. TORREGGIANI, P. TADDEI AND G. FINI</i>	
Selective Monitoring of 3 Vibrations of a Protein with 50 000 Normal Modes	36
<i>A. BARTH</i>	
Effects of Lipids on the Conformational Structure of Proteins	37
<i>M. V. FRAILE, M. BLANCO-MELGAR, M. RODRÍGUEZ-TORMO,</i> <i>L. DE LA IGLESIA SANTAMARÍA, R. MARTÍNEZ-MUNOZ, G. LÓPEZ-RODRÍGUEZ,</i> <i>J. A. GALLEGU-NICASIO AND P. CARMONA</i>	
Resonance CARS Spectra of Fluorescent Protein dsRed	38
<i>S. G. KRUGLIK, V. SUBRAMANIAM, J. GREVE AND C. OTTO</i>	
Use of Voigt Bands in Curve Fitting of Deconvoluted Amide I of Proteins	39
<i>V. A. LÓRENZ, J. VILLVERDE AND E. PADRÓS</i>	
Conformational Studies of Different Silk Fibroins by Raman Spectroscopy	40
<i>P. MONTI, P. TADDEI, G. FREDDI, T. ASAKURA AND M. TSUKADA</i>	
Impact of ¹³ C Labeled Prolines on the FTIR-Spectrum of Ribonuclease T1	41
<i>R. MORITZ, H. FABIAN, U. HAHN AND D. NAUMANN</i>	
Infrared Spectroscopic Studies of Main Cellular Components: Effect of Hydration on Spectra of Proteins and Nucleic Acids	42
<i>A. PEVSNER AND M. DIEM</i>	
Structural Characterization of a LDL Receptor-Active Apolipoprotein E Peptide	43
<i>V. RAUSSENS, C. M. SLUPSKY, B. D. SYKES AND R. O. RYAN</i>	

Determination of Structural Features of Proteins by UV-Resonance-ATR-SPP-Raman Spectroscopy	44
<i>D. ZERULLA, G. ISFORT, M. KÖLBACH, A. BOST, K.-D. SCHIERBAUM AND A. OTTO</i>	
Secondary and Tertiary Structure of the Nucleotide-Binding Domain of the α -Subunit of Na ⁺ /K ⁺ -ATPase	45
<i>K. HOFBAUEROVÁ, V. KOPECKÝ JR., R. ETTRICH, O. ETTRICHOVÁ AND E. AMLER</i>	
A 2D-IR Study of Thermal Denaturation of Ca ²⁺ -ATPase from Sarcoplasmic Reticulum	46
<i>I. ILORO, F. M. GOÑI AND J. L. R. ARRONDO</i>	
pH-Dependent Structural Changes of NhaA Na ⁺ /H ⁺ Antiporter of <i>Escherichia coli</i> Investigated by Infrared Spectroscopy	47
<i>O. KLEIN, M. VENTURI, E. PADAN, H. MICHEL, W. MÄNTELE AND C. ZSCHERP</i>	
Enhanced Vibrational Circular Dichroism of Low-Spin Azide- and Cyanide-Bound Metmyoglobins	48
<i>D. DUNMIRE, X. CAO, T. B. FREEDMAN AND L. A. NAFIE</i>	
Common Structural Features of Plant Peroxidases under Different Physical and Chemical Conditions as Monitored by Resonance Raman and Absorption Spectroscopy	49
<i>M. P. MARZOCCHI AND G. SMULEVICH</i>	
Spectroscopic Characterization of Rhodopsin Mutants Associated with Retinitis Pigmentosa	50
<i>A. ANDRÉS, P. GARRIGA AND J. MANYOSA</i>	
On the Conformational Structure of LDL Generated Upon Oxidation with Copper and Glucose	51
<i>J. A. GALLEGU-NICASIO, R. MARTÍNEZ-MUNOZ, G. LÓPEZ-RODRÍGUEZ, P. CARMONA AND M. V. FRAILE</i>	
Behaviour of the Chaperone-Like Protein Haptoglobin under Heat Shock Conditions	52
<i>R. ETTRICH, V. KOPECKÝ JR., V. BAUMRUK, K. HOFBAUEROVÁ AND Z. PAVLÍČEK</i>	
Thermal Stability of Human Blood Serum Acid α_1 -Glycoprotein (Orosomucoid) in Acid Media	53
<i>K. HOFBAUEROVÁ, V. KOPECKÝ JR., J. SÝKORA AND V. KARPENKO</i>	
Fatty Acid Composition of Lipoproteins and Its Effects on Protein Structure	54
<i>G. LÓPEZ-RODRÍGUEZ, R. MARTÍNEZ-MUNOZ, J. GALLEGU-NICASIO, S. VILLANUEVA, M. MENDIALDUA, P. CARMONA AND M. V. FRAILE</i>	
Infrared Spectroscopic Study of Plasmatic Lipoproteins in Relation to Diet and Hypolipemic Agents	55
<i>R. MARTÍNEZ-MUNOZ, G. LÓPEZ-RODRÍGUEZ, J. GALLEGU-NICASIO, S. VILLANUEVA, M. MENDIALDUA, M. J. TARANCÓN, P. CARMONA AND M. V. FRAILE</i>	

Structural Dynamics of Proteins

- ATR/FTIR Spectroscopy with Microsecond Time Resolution: Dynamics of Halo- and Bacteriorhodopsin on the Single Residue Level 59

C. BOLWIEN, D. FASTERMANN, J. HEBERLE

- A New Method Coupling Polarized ATR-FTIR Spectroscopy and ¹H/²H Exchange to Study the Dynamics of the Membrane Embedded Domain of LmrA During Its Catalytic Cycle 60

V. GRIMARD, C. VIGANO, A. MARGOLLES, R. WATTIEZ, H. W. VAN VEEN,
W. N. KONINGS, J.-M. RUYSSCHAERT AND E. GOORMAGHTIGH

- Effect of Proteolysis on the Internal Dynamics of *Escherichia coli* Alkaline Phosphatase Tested by the Room-Temperature Phosphorescence Method 61

S. G. KANANOVICH, V. M. MAZHUL

- Structural Changes in bR During the Photocycle Measured by Kinetic Polarized FTIR Spectroscopy 62

L. KELEMEN AND P. ORMOS

- pH-Induced Conformational Changes of the Recombinant Hamster Prion Protein Pr⁹⁰⁻²³³ by FT-IR Spectroscopy 63

R. MASUCH, F. SOKOLOWSKI, M. BEEKES, D. MOSS, M. BAIER AND D. NAUMANN

- Room-Temperature Phosphorescence of Native and Inactivated Actin 64

V. M. MAZHUL, E. M. ZAITSEVA, M. M. SHAVLOVSKY, I. M. KUZNETSOVA
AND K. K. TUOVEROV

- Laser-Induced Temperature Jump: Generation, Calibration, Application 65

T. NAZAROVA, C. ZSCHERP AND W. MÄNTELE

Function of Enzymes and Other Active Proteins

- Investigation of the Conformational Properties of the Cyanide Bound Human Hemoglobin by FTIR Spectroscopy 69

J. I. AL-MUSTAFA MALKAWI

- Interaction of c-Myb(R₂R₃) Fragment with Target DNA Sequence: A Raman Study. 70

V. BAUMRUK, N. JAMIN, B. ALPERT, C. ZENTZ AND P.-Y. TURPIN

- Binding of Cytochrome *c*₅₅₂ from *Thermus thermophilus* and Cytochrome *c* from Horse Heart to Phospholipid Vesicles (DOPG): Similarities and Differences 71

S. BERNAD, S. SERVAGENT-NOINVILLE, M. PATERNOSTRE, T. SOULIMANE AND S. LECOMTE

- FT-IR Spectroscopic Studies on Cytochrome *c* Oxidase 72

A. BOEHM, P. HELLWIG, T. SOULIMANE, W. MÄNTELE

Design and Construction of an Infrared Laser Spectrometer for Sub-Millisecond Time Resolution Stopped-Flow Kinetics Experiments on Enzyme/Substrate Systems in Bacterial Resistance to Beta-Lactam Antibiotics	73
<i>P. K. BRYANT AND C. W. WHARTON</i>	
H-D Exchange by ATR-FTIR Reveals Conformational Changes of Melibiose Permease of <i>Escherichia coli</i> .	74
<i>N. DAVE, V. A. LÓRENZ, J. VILLAVERDE, R. LEMONNIER, G. LEBLANC AND E. PADRÓS</i>	
Spectroscopic Study of Cation-Induced Conformational Changes in Rhodopsin	75
<i>L. J. DEL VALLE, J. CAÑAVATE, E. RAMON AND P. GARRIGA</i>	
Heme Coordination Changes and E-Helix Displacement in Myoglobin-Surfactant Complexes	76
<i>A. FEIS, L. TOFANI, R. E. SNOKE AND G. SMULEVICH</i>	
Anion-Binding to the Blue Form of Halorhodopsin from <i>Natronobacterium pharaonis</i>	77
<i>J. GUIJARRO, M. ENGELHARD AND F. SIEBERT</i>	
FTIR Studies of the Structural Relationships Between the Binuclear Center and the Proton-Input Channels of Cytochrome <i>c</i> Oxidase	78
<i>D. HEITBRINK, R. M. NYQUIST, C. BOLWIEN, R. B. GENNIS AND J. HEBERLE</i>	
Mapping the Nucleotide Binding Site of Calcium ATPase with Infrared Spectroscopy	79
<i>M. LIU, F. VON GERMAR AND A. BARTH</i>	
Perfusion-Induced Differences in Cytochrome <i>c</i> Oxidase: ATR/FT-IR Studies	80
<i>R. M. NYQUIST, D. HEITBRINK, C. BOLWIEN, R. B. GENNIS AND J. HEBERLE</i>	
Fluorescence Decay Time Distribution Analysis Reveals Two Binding Sites of 1,8-Anilinonaphthalene Sulfonate in Intact Human Oxyhemoglobin	81
<i>E. P. PETROV, A. N. SOBCHUK, N. A. NEMKOVICH, D. A. PARUL, S. B. BOKUT, A. A. MILYUTIN AND B. M. DZHAGAROV</i>	
FTIR-Spectroscopic Study on the Calcium Binding Site of the Cytochrome <i>c</i> Oxidase from <i>Paracoccus denitrificans</i>	82
<i>U. PFITZNER, W. MÄNTELE, B. LUDWIG, T. SOULIMANE AND P. HELLWIG</i>	
Resonance Raman Studies of Ligated Mesomyoglobin, Mesohemoglobin, and Its Meso- α and Meso- β Subunits	83
<i>E. PODSTAWKA AND L. M. PRONIEWICZ</i>	
Characterization of the Quinone Binding Sites of the Cytochrome <i>bc₁</i> Complex from <i>Paracoccus denitrificans</i> by Electrochemically Induced FTIR Difference Spectroscopy and Specific Inhibitors	84
<i>M. RITTER, O. ANDERKA, B. LUDWIG, P. HELLWIG AND W. MÄNTELE</i>	

The Catalytic Cycle of the Gastric H ⁺ , K ⁺ -ATPase Described by Infrared Spectroscopy	85
<i>E. SCHEIRLINCKX, J.-M. RUYSSCHAERT AND E. GOORMAGHTIGH</i>	
Time-Resolved Step-Scan FTIR Investigations of the Photophobic Receptor Sensory Rhodopsin II (psRII) from <i>Natronobacterium pharaonis</i>	86
<i>F. SIEBERT, M. HEIN AND M. ENGELHARD</i>	
Resonance Raman and Surface Enhanced Resonance Raman Studies of Cytochrome P450, Cytochrome b ₅ and their Interactions	87
<i>S. J. SMITH, W. E. SMITH AND A. W. MUNRO</i>	
Structural Changes and Hydroxylamine Reactivity of the Membrane Protein Bacteriorhodopsin in the Reversible Premelting Temperature Region	88
<i>M. SONOYAMA AND S. MITAKU</i>	
Active Na ⁺ /K ⁺ -ATPase Samples for Infrared Spectroscopy	89
<i>D. THOENGES, E. GRELL, C. ZSCHERP AND A. BARTH</i>	
Protein Complexes: Structure and Physico-Chemical Properties	
Imaging Aggregates of Isolated Light-Harvesting Complexes LH2 with the Atomic Force Microscope	93
<i>S. BAHATYROVA, R. KASSIES, C. N. HUNTER, R. VAN GRONDELLE, J. GREVE AND C. OTTO</i>	
Magneto-Optics of Ferritine	94
<i>A. DOBEK, J. GAPINSKI, M. PANKOWSKA</i>	
Structural and Optical Properties of LH2-Complexes	95
<i>R. KASSIES, S. BAHATYROVA, C. N. HUNTER, R. VAN GRONDELLE, J. GREVE, C. OTTO</i>	
Structural Rearrangement of Thylakoid Membrane Proteins in Barley Seedlings during Greening	96
<i>Z. KÓTA, B. SZALONTAI, M. DROPPA, G. HORVÁTH AND T. PÁLI</i>	
Zero-Field Splittings of Spin Levels in Polynuclear Iron-Sulfur Proteins	97
<i>M. I. BELINSKY</i>	
Interaction of a New Antiviral and Antitumor Photosensitizer Hypericin with Human Serum Albumin: Molecular Modeling Study Based on Experimental Results	98
<i>J. HRITZ, J. ULIČNÝ AND P. MIŠKOVSKÝ</i>	
The Binding of Ochratoxin A to Human Serum Albumin: Using Photochemistry to Probe Biological Activity	99
<i>YU. V. IL'ICHEV, J. L. PERRY, J. D. SIMON</i>	
Fluorescence Study of Interactions between Aluminium Octacarboxyphthalocyanine and Human Serum Albumin	100

<u>G. V. SHARONOV</u> , <u>A. I. FILYASOVA</u> AND <u>A. V. FEOFANOV</u>	
Stability of Drug-Serum Albumin Complex	101
<u>A. SUŁKOWSKA</u> , <u>M. KŁOCZKO</u> AND <u>W. SUŁKOWSKI</u>	
Properties and Structural Models of Biological Membranes	
Carotenoid-Rigidified Lipid-Domains in the Thylakoid Membranes of <i>Cylindrospermopsis Raciborskii</i> May Contribute to Structure Stabilisation. An FTIR Spectroscopic Study.	105
<u>M. DEBRECZENY</u> , <u>ZS. VÁRKONYI</u> , <u>T. FARKAS</u> , <u>K. MASAMOTO</u> , <u>Z. GOMBOS</u> AND <u>B. SZALONTAI</u>	
Comparative FTIR-Spectroscopic Studies of Phospholipids with Phytanoyl Chains	106
<u>D. R. GAUGER</u> , <u>H. BINDER</u> , <u>C. SELLE</u> AND <u>W. POHLE</u>	
Does Sucrose Influence the Properties of DMPC Vesicles?	107
<u>M. A. KISELEV</u> , <u>S. WARTEWIG</u> , <u>M. JANICH</u> , <u>P. LESIEUR</u> , <u>D. LOMBARDO</u> , <u>A. M. KISSELEV</u> , <u>M. OLLIVON</u> AND <u>R. NEUBERT</u>	
Organization and Location of Short- and Long-Chain Ubiquinones in Model Membranes: Spectroscopic and Calorimetric Studies	108
<u>Y. ROCHE</u> , <u>S. BERNARD</u> AND <u>P. PERETTI</u>	
Optical Interference Study of Physiological Fluids Transportation Through Semipermeable Membranes	109
<u>M. SURMA</u> , <u>M. KACZMAREK</u> , <u>Z. WOŹNIAK</u> , <u>Z. BIA SZCZAK</u> , <u>J. GAGAŁSKA</u>	
Two-Component Analysis of $\nu_{\text{sym}}\text{CH}_2$ Bands Reveals Different Lipid-Domains in Thylakoid Membranes of Wild Type, Fatty-Acid Mutant and Transformant Strains of <i>Cyanobacteria</i> PCC 6803 and 7942.	110
<u>B. SZALONTAI</u> , <u>Z. GOMBOS</u> , <u>N. MURATA</u>	
Liposomes Coated Liposomes. Fluorescence Study	111
<u>Z. H. ZAWADA</u> , <u>A. MICHNIK</u> AND <u>Z. DRZAZGA</u>	
Saccharides: Structure, Interactions and Spectroscopic Characterisation	
On the Fermi Resonance in Relation to Hydrogen Bonds of Carbohydrates in Aqueous Solution	115
<u>P. CARMONA</u> , <u>M. MOLINA</u> , <u>N. ABOITIZ</u> , <u>J. HAWLEY</u> AND <u>C. VICENT</u>	
Analysis of Ca and Al Polygalacturonate by Means of FT-Raman Spectroscopy	116
<u>C. MARZADORI</u> , <u>G. FERRO</u> , <u>Q. FRANCIOSO</u> , <u>S. SANCHEZ-CORTES</u> AND <u>C. GESSA</u>	
Investigation of Anomeric Effect by Vibrational Spectroscopy	117
<u>N. SEKKAL</u> , <u>M. SEKKAL-RAHAL</u> , <u>L. TALEB</u>	

Harmonic Dynamics of α -L-Fucose in the Crystalline State	118
<i>L. TALEB AND M. SEKKAL-RAHAL</i>	
Physico-Chemical Properties of Chemotherapeutics and Agents	
Relaxation Processes and Structural Changes in Immunoactive 8-Azasteroid Molecules	121
<i>A. A. AKHREM, N. A. BORISEVICH, A. L. MIKHALCHUK AND G. B. TOLSTOROZHEV</i>	
Study of Carvedilol by Combined Raman Spectroscopy and <i>Ab Initio</i> MO Calculations	122
<i>L. A. E. BATISTA DE CARVALHO, M. P. M. MARQUES, A. J. MORENO AND P. J. OLIVEIRA</i>	
Some Aspects of Cis/Transplatin Coordination to the DNA Bases and a Comparison of the Pt and Pd Complexes: Quantum Chemical Computational Studies	123
<i>J. V. BURDA, J. ŠPONER, M. ZEIZINGER</i>	
Variable Temperature Raman Spectroscopic Study of Dimethyldecylphosphine Oxide	124
<i>B. Z. CHOWDHRY, M. J. SNOWDEN AND R. WITHNALL</i>	
Variable Temperature Raman Spectroscopic Study of a Novel Ionic Surfactant (2C ₁₈ E ₁₆)	125
<i>B. Z. CHOWDHRY, R. WITHNALL, R. HARVEY AND M. J. LAWRENCE</i>	
Experimental and Calculated Spectra of Selected Phosphonatepyridine Acids. Structural Study.	126
<i>K. CHRUSZCZ, M. BARAŃSKA, M. FOŚNIAK, H. KOZŁOWSKI, B. BODUSZEK, L. M. PRONIEWICZ</i>	
Spectroscopic Analysis (IR, Raman and RX) of Polymorphism of Gepirone Hydrochloride	127
<i>L. DOUZIECH EYROLLES, F. GUILLET AND P. DUBOIS</i>	
The Interaction of Novel Platinum Drugs with Guanine and S-Containing Amino Acids: A Combined Density Functional Theoretical (DFT) and Surface-Enhanced Raman Spectroscopic (SERS) Approach	128
<i>B. GIESE AND D. MCNAUGHTON</i>	
Intramolecular Rearrangements in Pt(II) Complexes: Cisplatin and Transplatin – An <i>Ab Initio</i> Study	129
<i>M. P. M. MARQUES AND L. A. E. BATISTA DE CARVALHO</i>	
Surface Enhanced Raman Spectroscopy and Theoretical Studies on 1,4-Dihydrazinophthalazine Sulfate	130
<i>I. PAVEL, D. MOIGNO, S. CINTĂ AND W. KIEFER</i>	
A Theoretical and pH Dependent Surface Enhanced Raman Spectroscopy Study on Caffeine	131
<i>A. SZEGHALMI, I. PAVEL, D. MOIGNO, S. CINTĂ AND W. KIEFER</i>
