

## CONTENTS

---

Introduction . . . . .	5
A survey of deposition techniques . . . . .	7
Structure of DLC films . . . . .	12
Optical properties of DLC films . . . . .	17
Chemical properties of DLC films . . . . .	20
Electrical properties . . . . .	22
Mechanical properties . . . . .	24
Thermal conductivity of DLC films . . . . .	27
Plasma etching of DLC films . . . . .	28
Special methods of preparation . . . . .	29
Investigation of DLC films by special diagnostic methods . . . . .	31
Proposed applications of DLC films . . . . .	33
Experiment . . . . .	35
Results . . . . .	39
The reflectivity measurements on DLC films . . . . .	49
Photoelectronic properties . . . . .	53
An ellipsometric study of DLC films . . . . .	55
Hardness testing of thin DLC films . . . . .	70
Conclusion . . . . .	78
