

TABLE OF CONTENTS

FOREWORD.....	13
PREFACE.....	15
WORLD FOOD SUMMIT: SIX YEARS AFTER.....	17
SYLLABI.....	19
GLOSSARY.....	21
I. CHAPTER: FOOD, AGRICULTURE AND FOOD SECURITY.....	23
1.1 Food Security and Dietary Energy Supply.....	23
1.2 Past Developments.....	24
1.3 Future Prospects.....	25
1.3.1 Positive and Negative Developments.....	25
1.3.2 Estimated Progress until 2010.....	25
1.3.3 Conditions to Reach Targets.....	25
1.3.4 Realistic Targets.....	26
1.3.5 Causes of Food Insecurity.....	26
1.3.6 Food-insecure People.....	27
1.3.7 Trade and Production Constraints.....	27
1.3.8 Key Factors.....	27
1.3.9 Conclusions.....	28
1.4 Successes in Food Security.....	28
1.4.1 FAO's Committee on World Food Security.....	28
1.4.2 Some Examples.....	28
1.4.2.1 Africa.....	28
1.4.2.2 Burkina Faso.....	29
1.4.2.3 China.....	29
1.4.2.4 Costa Rica.....	29
1.4.2.5 Ecuador.....	29
1.4.2.6 India.....	30
1.4.2.7 Indonesia.....	30
1.4.2.8 Mozambique.....	30
1.4.2.9 Thailand.....	30
1.4.2.10 Tunisia.....	30
1.4.2.11 Turkey.....	31
1.4.2.12 Zimbabwe.....	31
1.4.2.13 Southern Africa.....	31
1.4.3 Conclusions.....	31
1.5 Socio-political and Economic Environment for Food Security.....	31
1.5.1 Historical.....	31
1.5.2 Factors.....	32
1.5.3 Global Interrelations.....	32
1.5.4 Institutional Framework and Assistance to Agriculture.....	33
1.5.5 Elements of Socio-political and Economic Environment.....	33
1.6 Food Requirements and Population Growth.....	34
1.6.1 Present Situation on Continents.....	34
1.6.1.1 Asia.....	34
1.6.1.2 Latin America.....	34
1.6.1.3 Africa.....	34
1.6.2 Future Prospects.....	34
1.6.3 Demographic Factors in Energy Requirements Growth.....	34
1.6.4 Food Energy Availabilities.....	35
1.6.5 Ways for Achieving Food Balance.....	35

1.7 Food Security and Nutrition	36
1.7.1 Relationships and Policies	36
1.7.2 Linkages	36
1.7.3 Nutritional Problems	37
1.7.4 Preconditions	37
1.7.5 Specific Actions	37
1.7.6 Priority Areas	38
1.7.7 Discussion	38
1.7.7.1 Costs of Nutritional Improvements	38
1.7.7.2 Nutrition Improvement Activities	38
1.8. Lessons from the Green Revolution: Towards a New Green Revolution	38
1.8.1 Definition and Circumstances	38
1.8.2 Science and Technology	39
1.8.3 Research and Bio-technologies in Green Revolution	39
1.8.4 Strategic Concepts	40
1.9 Food Production: the Critical Role of Water	41
1.9.1 Importance of the Water	41
1.9.2 Irrigated Agriculture	41
1.9.3 Water Supply	42
1.9.3.1 Asia	42
1.9.3.2 Africa	43
1.9.3.3 Latin America	43
1.9.4 New Water Supplies	44
1.9.5 Water Use Efficiency	44
1.9.6 Irrigation Economy	45
1.9.7 Water Policy	46
1.10 Food for Consumers: Marketing, Processing and Distribution	46
1.10.1 Characteristics	47
1.10.2 Handling, Storage and Distribution	47
1.10.3 Urbanisation	47
1.10.4 Agricultural Policies	48
1.11 Role of Research in Global Food Security and Agricultural Development	49
1.11.1 Importance of Research	49
1.11.2 Research Agenda	49
1.11.3 Links and Incentives	50
1.12 Investment in Agriculture: Evolution and Prospects	50
1.12.1 Forms of Investments	51
1.12.2 Investment in Regions	51
1.12.2.1 In Asia	51
1.12.2.2 In Africa	51
1.12.2.3 In Latin America	51
1.12.3 Investment Review	52
1.12.4 Efficiency of Investment	52
1.12.5 Future Investment	52
1.12.5.1 In Sub-Saharan Africa	53
1.12.5.2 In North Africa, the Near East and much of Asia	53
1.12.5.3 In Latin America	53
1.12.6 Hypothesis	53
1.12.7 Investment Principles	54
1.12.8 Requirements	54
1.13 Food Production and Environmental Impact	55
1.13.1 Position of the Agriculture	55
1.13.2 Sustainable Use	56
1.13.3 Sustainable Development	56
1.13.4 Environmental Aspects	56
1.13.5 Conditions of Environmental Approach	57
1.14 Food and International Trade	58
1.14.1 Role of Trade	58
1.14.2 Some Figures on Trade Generally	58
1.14.3 Trade and Food Security	59

1.14.4 Trade Liberalization.....	59
1.14.4.1 Trade Liberalization	59
1.14.4.2 Difficulties of Reform Process	59
1.14.4.3 Trade Liberalization and Food Aid.....	60
1.14.5 Trade Liberalization and Food Security.....	60
1.14.6 Trade, Environment, Sustainability and Food Security	60
1.15 Food Security and Food Assistance	61
1.15.1 Food Assistance	61
1.15.2 Hunger	61
1.15.3 Volume of Food Assistance	62
1.15.3.1 World Hunger	62
1.15.3.2 Local (National) Hunger.....	62
1.15.3.3 Food Aid Development.....	63
1.15.4 Food Assistance in Future.....	63
1.15.5 Size of the Present Food Assistance.....	63
II. CHAPTER: CURRENT AGRICULTURAL SITUATION.....	64
2.1 Overall Characteristics	64
2.1.1 Retrospective	64
2.1.2 Fighting Hunger	65
2.1.3 Concept of Inequity.....	66
2.1.4 Conclusions.....	66
2.2 Crop and Livestock Production.....	67
2.2.1 World Crop and Livestock Production in 1998	67
2.2.2 World Crop and Livestock Production in 1999	67
2.2.3 Developments in Continents and Countries	67
2.2.3.1 Far East.....	67
2.2.3.2 Latin America and the Caribbean	68
2.2.3.3 Africa.....	68
2.2.3.4 Near East and North Africa	68
2.2.3.5 The Transition Countries.....	69
2.2.3.6 Developed Countries	69
2.3 Food Shortages and Emergencies.....	69
2.3.1 In East Africa	70
2.3.2 In West Africa	70
2.3.3 In Coastal Countries along the Gulf Of Guinea	70
2.3.4 In the Great Lakes Region	71
2.3.5 In Southern Africa.....	71
2.3.6 In the Near East.....	71
2.3.7 In Asia.....	72
2.3.8 In Latin America	72
2.3.9 In Europe.....	73
2.3.10 In the CIS	73
2.4 World Cereal Supply Situation and Outlook.....	74
2.4.1 Global Production and Situation in Regions.....	74
2.4.2 Production by Main Cereals.....	74
2.4.3 Total Cereal Consumption	75
2.4.4 Total Cereal Stocks and Trade	75
2.4.5 Cereal Import Bill	76
2.4.6 The Current Evaluation.....	76
2.5 External Assistance to Agriculture	77
2.5.1 Multilateral and Bilateral Commitments.....	77
2.5.2 Flow of Funds	78
2.6 Food Aid Flows.....	78
2.6.1 Total Food Aid Shipments	78
2.6.2 Food Aid Shipments from Main Donors.....	78
2.6.3 Recipients.....	79
2.7 International Agricultural Prices	80
2.7.1 International Wheat Prices.....	80
2.7.2 International Course Grain Prices	80
2.7.3 International Rice Prices	81

2.7.4 International Cocoa Prices	81
2.7.5 International Cocoa Prices	81
2.7.6 International Cotton Prices.....	82
2.7.7 International Sugar Prices	82
2.7.8 International Black Tea Prices	83
2.7.9 International Banana Prices	83
2.8 Fisheries: Production, Disposition and Trade.....	83
2.8.1 Production of Fish and Other Aquatic Animals	83
2.8.2 Value of Fish Catch	84
2.8.3 Value of Fish Trade	84
2.8.4 Value of Fish Trade	84
2.9 Production and Trade of Forest Products	85
2.9.1 Global Markets for Forest Products	85
2.9.2 Industrial Roundwood Production	85
2.9.3 Solid Wood Production.....	85
2.9.4 Global Market for Pulp and Paper	86
2.9.5 Global Trade in Forest Products	86
III. CHAPTER: FUTURE PROSPECTS.....	88
3.1 Introduction.....	88
3.1.1 Contents of the Chapter.....	88
3.1.1 Assessment of World Agricultural Parameters	88
3.2 Prospects for Food and Nutrition	89
3.2.1 Historical Developments.....	89
3.2.2 Population and Income Growth	89
3.2.2.1 The Population.....	90
3.2.2.2 The Incomes	90
3.2.3 Prospects for Food and Nutrition	90
3.2.3.1 Food Consumption	90
3.2.3.2 Nutrition and Numbers Undernourished.....	91
3.2.3.3 Pace of Progress.....	91
3.3 Prospects for Aggregate Agriculture and Major Commodity Sectors	92
3.3.1 Total Agriculture.....	92
3.3.2 Group of Developing Countries with More Progress.....	92
3.3.3 Reflection in All the Developing Countries.....	92
3.3.4 Reflection in All the Developing Countries	93
3.4 Prospects for Cereals.....	93
3.4.1 Per Caput Consumption	93
3.4.2 World Production and Consumption.....	94
3.4.3 Factors of Production and Consumption.....	94
3.4.4 Production Potential in Exporting Countries	94
3.5 Prospects for Livestock	95
3.5.1 Consumption of Livestock Products	95
3.5.2 Per Caput Production	95
3.5.3 World Meat Economy	95
3.5.4 Factors of Production and Consumption in the Future.....	95
3.5.5 Growth Rate of World Meat Demand and Production.....	96
3.5.6 Structural Changes in the Meat Sector	96
3.6 Oilcrops and Products	97
3.6.1 Importance for Developing Countries.....	97
3.6.2 World Oilcrops Economy	97
3.6.3 Oilseed and Oil Export/Import.....	97
3.7 Factors in the Growth of Crop Production	98
3.7.1 Crop Production in Developing Countries	98
3.7.1.1 Land Potential in Developing Countries.....	98
3.7.2 Role of Irrigation in Developing Countries.....	98
3.7.3 Deceleration of Growth.....	99
3.7.4 Fertilizer Use.....	99
3.8 Growth in Livestock Production	99
3.8.1 Trend in the Livestock Sector	99
3.8.2 Problems Associated with the Livestock Sector Development.....	100

3.8.2.1 Change in the Structure of Animal Feed	100
3.8.2.2 Food Safety of Livestock Products	100
3.9 Probable Developments in Forestry	100
3.9.1 Forest Management Objectives	100
3.9.2 Industrial Plantations	101
3.9.3 Wood Processing Industry	101
3.9.4 Non-wood Processing Industry	101
3.9.5 Better Information and Communication Technologies	101
3.10 Plausible Developments in Fisheries	101
3.10.1 World Consumption	101
3.10.2 Capture Fisheries Production	102
3.10.3 Aquaculture Production	102
3.10.4 Leisure Fishery	102
3.10.5 Problems in Fishery Production	102
3.11 Environmental Aspects of Natural Resources Use in Agriculture	103
3.11.1 Future Impacts of Agriculture on the Environment	103
3.11.2 Development in Agricultural Land and Livestock	103
3.11.3 Fertilizer and Pesticide Use	103
3.11.4 Development in Irrigation	104
3.11.5 Development in Livestock Production	104
3.11.6 Development in Biodiversity	104
3.11.6.1 Climate Change: Agriculture's Role in Climate Change	104
3.11.6.2 Climate Change: The impact on Agriculture	104
IV. CHAPTER: OVERALL ECONOMIC ENVIRONMENT AND AGRICULTURE. WORLD TRADE AND	
COMMODITY PRICES	106
4.1 World Economic Environment	106
4.2 Situation in Main Areas	106
4.2.1 Industrial Countries	106
4.2.2 Economies in Transition	106
4.2.3 Developing Countries	107
4.2.3.1 Asia	107
4.2.3.2 Africa	107
4.2.3.2 Near East	108
4.2.3.3 Latin America and the Caribbean	108
4.3 World Economic Environment	109
4.4 Commodity Prices	109
4.5 Impact on Agricultural Performance	110
4.6 Prospects for Countries Particularly Dependent on Agricultural Trade	110
4.6.1 Short-term Economic Forecasts	110
4.6.2 Medium-term Agricultural Forecasts	111
V. CHAPTER: AGRICULTURAL PRODUCTION, FISHERIES AND FORESTRY	112
5.1 Historical Review and Present Situation	112
5.1.1 Traditional Agricultural Systems	112
5.1.1.1 Sub-Saharan Africa	112
5.1.1.2 India	113
5.1.1.3 Southeast Asia and China	113
5.1.1.4 Latin America	113
5.1.1.5 All Over the World	113
5.1.2 Modern Agricultural Systems	113
5.1.2.1 Europe	113
5.1.2.2 North America	113
5.1.2.3 Equatorial, Sub-Equatorial and Tropical Zones	114
5.1.3 World Agriculture – Its Functions, Constraints and Prospects in World Nutrition System	114
5.1.3.1 Functions of World Agriculture	114
5.1.3.2 World Nutrition System (WNS)	114
5.1.3.3 World Nutrition System Constraints	114
5.1.3.4 Measures to be Implemented	115
5.1.3.5 Special Tasks to Improve Human Diet	115
5.2 Importance and Position of the Agricultural Production within the World Economy	116
5.2.1 Agricultural Production as a Material Production	116

5.2.2	Agriculture as Provider of Food.....	116
5.2.3	Agriculture as Employer.....	117
5.3	Classification of the Agricultural Production.....	117
5.3.1	Main Criteria of the Production.....	117
5.3.2	Main Tendencies.....	117
5.3.3	Some Notions.....	118
5.3.3.1	Mechanisation.....	118
5.3.3.2	Chemisation.....	118
5.3.3.3	Services.....	118
5.4	Natural Conditions.....	119
5.4.1	Influence of Natural Conditions.....	119
5.4.1.1	Dryland.....	119
5.4.1.2	Soil.....	119
	A. Importance of the Soil.....	119
	B. Soil Evolution.....	120
	C. Agricultural Land.....	120
5.4.1.3	Climate.....	120
	A. Temperature.....	120
	B. Precipitation.....	121
	C. Interaction of Rainfall and Temperature.....	121
	D. Air Humidity.....	122
5.4.2	Natural (Agricultural) Zones and Their Importance.....	122
5.4.2.1	Equatorial Zone.....	122
5.4.2.2	Sub-Equatorial Zones.....	123
5.4.2.3	Tropical Zones.....	124
5.4.2.4	Subtropical Zones.....	125
5.4.2.5	Temperate Zones.....	125
5.4.2.6	Sub-Arctic and Sub-Antarctic Zones.....	126
5.4.2.7	Arctic and Antarctic Zones.....	127
5.5	Crop Production.....	127
5.5.1	Main Food Staples.....	128
5.5.1.1	Cereals.....	128
	I. Socio-Economic and Natural Factors of Cereal Production Development.....	128
	II. Cereals of The Temperate Zones.....	129
	III. Cereals of Other Zones (Narrow Areas).....	129
	IV. Importance of Cereals.....	129
	V. Importance of Wheat, Rice and Maize.....	130
	VI. Importance of Other Cereals.....	130
	VII. Consumption of Cereals.....	130
	VIII. Tendencies in Cereal Consumption.....	130
5.5.1.2	Main Production and Consumption Areas of Cereals.....	131
	A. Wheat.....	131
	B. Rye.....	131
	C. Rice.....	131
	D. Millet.....	132
	E. Maize.....	132
	F. Barley.....	132
	G. Oats.....	132
5.5.1.3	Root Crops.....	132
	I. Some Information about Root Crops.....	132
	II. Potatoes.....	133
	III. Root Crops of Low Latitudes (Tropical) Regions.....	133
5.5.1.4	Legumes.....	134
5.5.1.5	Oil Crops.....	135
	I. The Group of Oil Crops.....	135
	II. Soya Beans.....	136
	III. Groundnuts.....	136
	IV. Cotton Seed.....	136
	V. Sunflower Seed.....	137
	VI. Rape Seed.....	137

VII. Flax Seed	137
VIII. Olives	137
IX. Coco and Oil Palms	138
X. Other Oil Plants	138
5.5.1.6 Crops for Sugar Production	138
A. Sugar Cane	138
B. Sugar Beet	139
C. Sugar	140
5.5.1.7 Seasoning Crops and Spices	140
I. General Information	140
II. The First Group of Seasoning Plants - Providing Refreshing and Nutritive Drinks	141
III. The Second Group of Seasoning Plants -Providing Alcoholic Drinks	142
5.5.1.8 Fruits and Vegetable	144
A. Fruits	145
B. Vegetables	146
5.5.1.9 Industrial Crops	147
1. Introduction	147
2. Agronomy	147
3. Textile Crops	147
5.6 Animal Production	151
5.6.1 History	151
5.6.2 Present Status	152
5.6.3 Importance of Animal Production.....	152
5.6.3.1 Global Scale.....	152
5.6.3.2 Food Supplier	152
5.6.3.3 Global Production.....	152
5.6.4 Theoretical Considerations	152
5.6.4.1 Food Chain	152
5.6.4.2 Food Energy	153
5.6.5 Factors Impacting Localization of the Animal Production	153
5.6.6 Feedstuff Base for Animal Production.....	153
5.6.6.1 Feedstuff Base for Different Kinds of Animal Husbandry	153
5.6.6.2 Pastures as the Most Natural Feed Base	154
5.6.6.3 Animal Feed Structure	154
5.6.6.4 Animal Feed Production.....	154
5.6.6.5 Animal Production in Sub-Urban Areas	154
5.6.7 Animal Production in the Most Developed Countries	155
5.6.8 Animal Production in Third World Countries.....	155
5.6.9 Animal Production in Central and Eastern Europe	155
5.6.10 Animal Production in Russia and Central Asia	156
5.6.11 Dietary Patterns – Habits and Necessities.....	156
5.6.12 Classification of Animal Production	156
5.6.12.1 Extensive Animal Husbandry Forms	156
I. Nomad Breeding	156
II. Semi-Nomad Breeding	157
III. Transhumance	157
IV. Modern Extensive Breeding.....	157
5.6.12.2 Intensive Animal Husbandry Forms	157
V. Breeding of Alpine Type	157
VI. Intensive Breeding in Stables as Complementary Branch	157
VII. Intensive Breeding in Stables as Superior to the Crop Production	158
5.6.13 World Animal Husbandry	158
5.6.13.1 World Animal Herd Structure	158
5.6.13.2 Animal Population and Production.....	158
5.6.14 Worldwide Production of Domestic Animals	159
5.6.14.1 Cattle Husbandry	159
I. Importance	159
II. Specialization Efforts	159
III. Different Criteria	159
IV. Europe.....	159

V. North America (USA)	159
VI. Beef Production	159
5.6.14.2 Pig Husbandry	160
I. Pig Production Priorities and Inconveniences.....	160
II. World Pig Production	160
III. Pig Production in China	160
IV. Pig Production in Europe	160
V. Pig Production in North America	160
VI. Pig Production in Islamic Countries	161
VII. Pig Production in Latin America	161
5.6.14.3 Sheep Breeding	161
I. Sheep Breeding – General Information	161
II. Sheep Breeding in Australia and New Zealand	161
III. Sheep Breeding in Central Asia and Caucasus Region	161
IV. Sheep Breeding in Europe and North America	162
V. Sheep Breeding in Africa and Near East	162
5.6.14.4 Poultry Breeding.....	162
I. Generally.....	162
II. Modern Poultry Breeding	162
III. World Poultry Flock	162
IV. Egg Production.....	162
V. Poultry Meat Production	163
5.6.14.5 Goat Breeding.....	163
5.6.14.6 Draught Animal Breeding.....	163
5.6.15 World Animal Production in Figures	164
5.6.15.1 Milk Production	164
5.6.15.2 Butter Production.....	164
5.6.15.3 Cheese Production	164
5.6.15.4 Meat Production	164
A. Beef	165
B. Pork	165
C. Mouton	165
D. Poultry Meat.....	165
E. Trade with Live Livestock.....	165
5.6.15.5 Circumstances of Meat Production.....	165
5.6.15.6 Egg Production	165
5.6.15.7 Wool Production.....	165
5.6.15.8 Leather Production	166
5.7 Fisheries and Fish Production	166
5.7.1 Generally about Fisheries.....	166
5.7.2 Fishery Production	166
5.7.2.1 Constraints of Fishery Production	166
5.7.2.2 Main Fishing Areas	167
5.7.2.3 Factors of Fish Production.....	167
5.7.3 Convention on Maritime Rights (1982).....	167
5.7.4 Maritime Fish Catch Structure and Regions	167
5.7.6 Inland Fish Catch Structure and Regions.....	168
5.7.7 World Overall Fish Production	168
5.7.7.1 Yearly Fish Catch	168
5.7.7.2 Main Fish Producers	168
5.7.8 Particular Kinds of Sea Fruits	169
5.7.8.1 Cetaceans.....	169
5.7.8.2 Molluscan	169
5.7.8.3 Crustaceans.....	169
5.7.9 Fish Production Prospects.....	169
5.8 Forestry and Woods	170
5.8.1 Importance of Forests and Wood	170
5.8.2 Use of Wood	170
5.8.3 Forest as Regulating Element in the Nature.....	170
5.8.4 Destruction of Forests	170

5.8.5 World Forest Coverage	171
5.8.5.1 Percentage and Area	171
5.8.5.2 World Coverage Zones	171
5.8.6 Importance of Wood Species and Wood Processing.....	172
5.8.7 Situation in Less Developed Countries	173
5.8.8 Future Prospects.....	173
VI. CHAPTER: ENVIRONMENTAL ASPECTS OF NATURAL RESOURCE USE IN AGRICULTURE	174
6.1 Introduction	174
6.2 Major Trends and Forces.....	174
6.2.1 Production Intensification and Land Expansion	174
6.2.2 Dominant Agri-environmental Costs and Benefits	174
6.2.3 Two Groups of Agro-environmental Constraints.....	175
6.2.4 Effective Measures.....	175
6.2.5 At the National Level	175
6.2.6 At the International Level	176
6.3 Sustainable Agricultural Land Use.....	176
6.3.1 Land Cover Change	176
6.3.2 Arable Land Development in Developing Countries	176
6.3.3 Cultivation of Slope Lands	177
6.3.4 Reclamation of Wetlands	178
6.3.5 Loss of and Competition for Good Arable Land.....	178
6.4 Land Degradation	179
6.4.1 Current Situation	179
6.4.2 Impact of Degradation	180
6.4.3 Facts about the Future Degradation Form.....	180
6.5 Desertification	181
6.5.1 Expansion of World Deserts	181
6.5.2 Extent of Land Degradation.....	182
6.6 Sustainable Agricultural Technology and Input Use.....	182
6.6.1 Main Environmental Issues.....	182
6.6.2 Consequences of High Fertilizer Use	183
6.6.3 Ground Water Contamination	183
6.6.4 Fertilizer Use Efficiency	183
6.6.5 Environmental Problems for Inefficient Fertilizer Use	184
6.6.6 Reducing the Overuse of Pesticides.....	184
6.6.6.1 Growth of Pesticide Use	184
6.6.6.2 Minimizing Pesticide Adverse Effects	184
6.6.6.3 Breaks from Recent Trends in Pesticide Use.....	185
6.6.6.4 On Balance Statement	185
6.6.7 Genetically Modified Crops.....	185
6.6.7.1 Risks and Benefits of GM Crops	185
6.6.7.2 Consequences	186
6.6.8 Changes in Soil Organic Matters Levels.....	186
6.6.8.1 SOM Content Role	186
6.6.8.2 SOM Breakdown or Built Up	187
6.7 Environmental Aspects of Water Use by Agriculture	187
6.7.1 Extent of Water Use in Agriculture	187
6.7.2 Resource Management Issues	187
6.7.3 Water Withdrawal and Use Efficiency.....	187
6.7.4 Over-extraction of Groundwater	188
6.7.5 Salinization of Agricultural Land.....	188
6.8 Livestock and the Environment.....	188
6.8.1 Main Issues	188
6.8.2 Role of Some Factors.....	189
6.8.3 Differences Between Regions.....	189
6.8.4 Livestock Feedstuff Production	190
6.8.5 Implications for Future Environmental Pressures	190
6.8.6 Intensification of Livestock Production and Ammonia Emissions	190
6.8.6.1 Causative Factor	190
6.8.6.2 Main Environmental Implications	191

6.9	Agriculture and Environmental Issues of a Global Nature.....	191
6.9.1	Climate Change.....	191
6.9.2	Agriculture as a Driving Force for Climate Change.....	191
6.9.3	Main Driving Forces.....	192
6.9.3.1	Methane.....	192
	I. Methan Power.....	192
	II. Global Methan Emissions.....	192
6.9.3.2	Nitrous Oxide (N ₂ O).....	193
	I. Factors of N ₂ O Formation and Release.....	193
	II. Sources of N ₂ O Formation.....	193
	III. Prospects of N ₂ O Release.....	193
6.9.3.3	Carbon Sequestration.....	193
	I. Role of Crop and Livestock Production.....	193
	II. Potential Contribution of Cropland.....	194
	III. Global Non-harvested Residues and its Sequestration Potential.....	194
	IV. Conservation Tillage Contribution.....	194
	V. Degraded Land Contribution.....	195
6.9.4	Climate Change Impacts on Agriculture.....	195
6.9.4.1	Positive and Negative Impacts.....	195
6.9.4.2	Climate Models.....	195
6.9.4.3	Climate Change Impacts on Agriculture: Direct Impacts.....	196
	I. Impact of Carbon Dioxide.....	196
	II. Impact of Temperature.....	196
	III. Impact of Precipitation.....	196
	IV. Net Impacts on Land Suitability and Yields.....	196
	V. Net Impacts on Forestry.....	196
	VI. Net Impacts on Grasslands and Livestock Production.....	196
	VII. Net Impacts on Fisheries.....	197
6.9.4.4	Climate Change Impacts on Agriculture: Indirect Impacts.....	197
	I. Effects on Resource Availability.....	197
	II. Distribution of Major Pests.....	197
	III. Higher Wind Speeds.....	198
6.10	Changes in Biological Diversity.....	198
6.10.1	Area Expansion and Agricultural Intensification Impacts.....	198
6.10.2	Agriculture's Main Impacts.....	199
6.10.3	Impact of Livestock Production.....	199
6.11	Conclusions.....	200
6.11.1	Future Agro-environmental Impacts.....	200
6.11.2	General Focus of Concern.....	200
6.11.3	Trends at the Global Level.....	201
6.11.4	Overall Pattern of Future Agro-Environmental Impacts.....	201
