

O B S A H

| ÚVODNÍ ČÁST | I - VII |
|------------------|---------|
| TELOMOPHYTA | 1 |
| PTERIDOPHYTA | 1 |
| LYCOPSIDA | 1 |
| LYCOPODIALES | 1 |
| Huperziaceae | 1 |
| Lycopodiaceae | 1 |
| SELAGINELLALES | 2 |
| Selaginellaceae | 2 |
| ISOÉTALES | 3 |
| Isoétaceae | 3 |
| SPHENOPSIDA | 3 |
| EQUISETALES | 3 |
| Equisetaceae | 3 |
| PTEROPSIDA | 4 |
| OPHIOGLOSSALES | 4 |
| Ophioglossaceae | 4 |
| OSMUNDALES | 4 |
| Osmundaceae | 4 |
| PTERIDALES | 5 |
| Sinopteridaceae | 5 |
| Cryptogrammaceae | 5 |
| DICKSONIALES | 5 |
| Dennstaedtiaceae | 5 |
| Adiantaceae | 5 |
| Oleandraceae | 5 |
| HYMENOPHYLLALES | 5 |
| Hymenophyllaceae | 5 |
| ASPIDIALES | 5 |
| Thelypteridaceae | 5 |
| Aspidiaceae | 6 |
| Athyriaceae | 8 |
| Aspleniaceae | 9 |
| BLECHNALES | 10 |
| Blechnaceae | 10 |

| | |
|--------------------|----|
| POLYPODIALES | 10 |
| Polypodiaceae | 10 |
| MARSILEALES | 11 |
| Marsileaceae | 11 |
| SALVINIALES | 11 |
| Salviniaceae | 11 |
| Azollaceae | 11 |
| SPERMATOPHYTA | 11 |
| GYMNOSPERMOPHYTINA | 11 |
| GINKGOPSIDA | 11 |
| GINKGOALES | 11 |
| Ginkgoaceae | 11 |
| TAXOPSIDA | 11 |
| TAXALES | 11 |
| Taxaceae | 11 |
| CONIFEROPSIDA | 11 |
| PINALES | 11 |
| Pinaceae | 11 |
| Taxodiaceae | 14 |
| Cupressaceae | 14 |
| EPHEDROPSIDA | 15 |
| EPHEDRALES | 15 |
| Ephedraceae | 15 |
| MAGNOLIOPSIDA | 15 |
| DICOTYLEDONAE | 15 |
| MAGNOLIALES | 15 |
| Magnoliaceae | 15 |
| Schizandraceae | 15 |
| Calycanthaceae | 15 |
| Lauraceae | 15 |
| JUGLANDALES | 16 |
| Juglandaceae | 16 |
| BETULALES | 16 |
| Betulaceae | 16 |
| Corylaceae | 17 |
| FAGALES | 18 |
| Fagaceae | 18 |

| | |
|----------------|----|
| HAMAMELIDALES | 19 |
| Hamamelidaceae | 19 |
| PLATANALES | 19 |
| Platanaceae | 19 |
| SALICALES | 19 |
| Salicaceae | 19 |
| PIPERALES | 28 |
| Piperaceae | 28 |
| URTICALES | 28 |
| Moraceae | 28 |
| Ulmaceae | 28 |
| Urticaceae | 29 |
| Cannabaceae | 29 |
| PHYTOLACCALES | 29 |
| Phytolaccaceae | 29 |
| Aizoaceae | 29 |
| Tetragoniaceae | 30 |
| Nyctaginaceae | 30 |
| CACTALES | 30 |
| Cactaceae | 30 |
| PORTULACALES | 31 |
| Portulacaceae | 31 |
| Basellaceae | 31 |
| DIANTHALES | 32 |
| Paronychiaceae | 32 |
| Stellariaceae | 33 |
| Dianthaceae | 40 |
| PLUMBAGINALES | 46 |
| Plumbaginaceae | 46 |
| CHENOPODIALES | 47 |
| Chenopodiaceae | 47 |
| Amaranthaceae | 53 |
| POLYGONALES | 55 |
| Polygonaceae | 55 |
| RANUNCULALES | 63 |
| Paeoniaceae | 63 |
| Ranunculaceae | 63 |

| | |
|------------------|-----|
| NYMPHAEALES | 75 |
| Nymphaeaceae | 75 |
| Ceratophyllaceae | 75 |
| ARISTOLOCHIALES | 76 |
| Aristolochiaceae | 76 |
| BERBERIDALES | 76 |
| Berberidaceae | 76 |
| PAPAVERALES | 76 |
| Papaveraceae | 76 |
| Fumariaceae | 76 |
| BRASSICALES | 79 |
| Resedaceae | 79 |
| Brassicaceae | 79 |
| SAXIFRAGALES | 96 |
| Hydrangeaceae | 96 |
| Grossulariaceae | 96 |
| Crassulaceae | 98 |
| Parnassiaceae | 100 |
| Saxifragaceae | 100 |
| DROSERALES | 102 |
| Droseraceae | 102 |
| ROSALES | 102 |
| Rosaceae | 102 |
| Spiraeoideae | 102 |
| Rosoideae | 103 |
| Prunoideae | 122 |
| Maloideae | 124 |
| FABALES | 130 |
| Caesalpiniaceae | 130 |
| Fabaceae | 130 |
| HYPERICALES | 146 |
| Hypericaceae | 146 |
| CISTALES | 147 |
| Cistaceae | 147 |
| Actinidiaceae | 148 |
| TAMARICALES | 148 |
| Tamaricaceae | 148 |

| | |
|----------------|-----|
| ERICALES | 148 |
| Pyrolaceae | 148 |
| Monotropaceae | 149 |
| Ericaceae | 149 |
| Ericoideae | 149 |
| Vaccinioideae | 150 |
| Empetraceae | 151 |
| ELATINALES | 151 |
| Elatinaceae | 151 |
| LOASALES | 151 |
| Loasaceae | 151 |
| MALVALES | 151 |
| Tiliaceae | 151 |
| Malvaceae | 153 |
| GERANIALES | 154 |
| Oxalidaceae | 154 |
| Linaceae | 155 |
| Geraniaceae | 156 |
| Tropaeolaceae | 157 |
| Zygophyllaceae | 157 |
| POLYGALALES | 157 |
| Polygalaceae | 157 |
| RUTALES | 158 |
| Rutaceae | 158 |
| Simaroubaceae | 159 |
| CELASTRALES | 159 |
| Celastraceae | 159 |
| Aquifoliaceae | 159 |
| Staphyleaceae | 159 |
| SANTANALES | 160 |
| Santanaceae | 160 |
| Loranthaceae | 160 |
