

CONTENTS

Preface

- **J. Wanner, P. A. Wilderer**

Oral presentations:

Improved permeabilisation protocols for fluorescence in situ hybridization (FISH) of mycolic-acid containing bacteria found in foams

- **E. L. Carr, K. L. Eales, J. Soddell, R. J. Seviour** 1

Population structure and chemical analyses of activated sludge and scum

- **E. Müller, G. Lind, H. Lemmer, P. A. Wilderer** 9

The In situ physiology of PTLO in activated sludge foams

- **K. L. Eales, J. L. Nielsen, C. Kragelund, R. J. Seviour, P. H. Nielsen** 18

Dynamics of population and foaming on a full-scale WWTP

- **T. Hug, M. Ziranke, H. Siegrist** 26

Foaming estimation tests in activated sludge systems

- **M. Torregrossa, G. Viviani, V. Vinci** 33

Measurement of foam quality of activated sludge in MBR process

- **J. Nakajima** 41

Control of *Microthrix parvicella* in activated sludge plants by dosage of polyaluminium salts: Possible mechanisms

- **P. H. Nielsen, C. Kragelund, J. L. Nielsen, S. Tiro, M. Lebek, A. Gesesesse** 50

Dosing aluminum chloride as a means to fight *Microthrix parvicella*

- **S. Paris, G. Lind, H. Lemmer, P. A. Wilderer** 51

Posters:

Bulking and foaming in France – The 1999-2001 survey

- **L. Graveleau, E. Cotteux, P. Duchène** 59

Non-famous scum bacteria: biological characterization and troubleshooting

- **H. Lemmer, G. Lind, E. Müller, M. Schade** 64

Enzyme activities in activated sludge and scum

- **M. Schade, H. Lemmer** 69

Biological foam control by chemical additives dosing – part I: Chemical aspects

- **J. Bindzar, R. Armič-Sponza** 74

Biological foam control by chemical additives dosing – part II: biological and physico-chemical aspects	
- I. Růžičková, Ž. Remešová, K. Vanžurová	78
Study of occurrence and properties of biological foams in laboratory models	
- L. Spěváčková, I. Růžičková, J. Wanner	83
Effect of coagulant dosing on physicochemical and microbiological characteristics of activated sludge and foam formation	
- M. Lánský, I. Růžičková, A. Benáková, J. Wanner	87
Screening of filamentous microorganisms in activated sludge plants	
- O. Krhůtková, N. Denis, J. Wanner	91
A case study of foaming in an anaerobic digester	
- H. M. Stratton, P. G. Griffiths	95
Foaming Potential in mesophilic and thermophilic anaerobic digesters	
- P. Zaplatílková, P. Jeníček	100
