

CONTENTS

Foreword <i>Krupka V</i>	3
Imperfection Sensitivity of Cylindrical Shells With Longitudinal Imperfections Subjected to Uniform External Pressure. <i>Brede A, Schneider W</i>	5
Plastic Loads For Closed Toroids Subjected To Internal Pressure <i>Blachut J</i>	12
Elastis Stress Analysis of Axisymmetric Discontinuities in Shell of Revolution by an "Effective Ring" Analogy Model <i>Guggenberger W, Linder Ch</i>	21
Nonlinear Response and Buckling of Cylindrical Tanks due to Foundation Settlement <i>Holst J M F G, Rotter J M</i>	29
Effects of Pipings Attached to The Wall of Cylindrical Tanks <i>Saal H, Feifel E</i>	36
Deisgn of Large Storage Tanks With Respect of the Britle Fraction <i>Şafâr I</i>	43
Boudary Conditions For Stringer Stiffened Cylindrical Shells On Local Supports. <i>Vanlaere W, Lagae G, Van Impe R, Buffel P, Belis J, De Beule M</i>	55
Modeling and Analysis of Discretely Supported Thin-Walled Silo Shells with Longitudinal Stiffeners at the Supports <i>Wallner S, Guggenberger W,</i>	62
Buckling of Cylindrical Tank Shells under Local Axial Compression Stresses <i>Minjie Cai, Holst J M F G, Rotter J M</i>	70
An Introduction to the EEMUA publications No 159 - Users Guide to the Inspection, Maintenance and Repair of Above-ground Vertical Cylindrical Steel Storage Tanks <i>De Jong J</i>	77
Automated Analysis and Design of Thin-Walled Metal Tank and Silo Structures <i>Guggenberger W, Zotter J, Glaenger S</i>	86
Buckling Behaviour of Extensively-Welded Cylinders <i>Hübner A, Teng J G, Saal H</i>	93
Shear Buckling - a Limit State to be Considered in Cylindrical Steel Tank Design <i>Schmidt H, Müller B, Schiborr M</i>	102

Parametric Plastic Collapse Loads and Their Validation For Horizontal Saddle Supported Storage Vessels <i>Nash D H, Spence J</i>	109
Large Cylindrical Flat Bottom Storage Tanks - Design Calculations For Seismic Effects and Effects of Soil Foundations <i>Greiner R, Ofner R</i>	116
Simplified Sloshing Analysis for the Seismic Design of Industrial Vessels <i>Karamanos S A,</i>	122
Storage Tank Design For Seismic Region <i>Rohovský K</i>	130
Flat Bottom Tanks Endangered by Ice Lenses <i>Knödel P, Ummerhofer T</i>	136
Stresses at The Tank Shell With Shape Deformation <i>Kowalski D</i>	143
Most Frequently Problems Solving by Inspections and Repairs of Storage Tanks <i>Krupka V</i>	148
Behaviour of The Shell-To-Bottom Joint of Double Bottom Tanks <i>Holtzhauer E, Saal H</i>	155
Rethinking The Design of Liquid-Filled Conical Shells <i>Lagae G, Van Impe R, Vanlaere W, Buffel P, Belis J, De Beule M</i>	162
Buckling of Shallow Conical Shell Roofs for Small Diameter Tanks and Silos <i>Rotter J M</i>	169
Remaning Lifetime of Buckled Pipelines. <i>Gresnigt A M, Karamanos S A, Giakoumatos E, Kreber J</i>	176
Phased Array inspection of heavy wall vessels and spheres <i>Pörtzgen N, Dijkstra F, Wassink C</i>	183
Probabilistic Analysis of Risk of Vertical Steel Storage Tank Failure <i>VeJVoda S, Teplý B</i>	189
Contribution to Risk Assessment of Damage of Process Unit Important Components <i>Vincour D</i>	196
Life-Time Extension of Steel Pipelines by Prestressing (overloading by internal pressure) - Maximum Effect with Minimum Costs <i>Crha P, Parizek P, Zvada J</i>	202
Using Aluminium Structures In Storage Tanks <i>Zima M, O'Reilly N</i>	211
On Inspection of Main Pipelines and The Structures Supporting Them. <i>Mykytarenko M, Garf E, Kondra M</i>	218

Optimal Design of Sandwich Flat Heads of Cylindrical Vessels <i>Magnucki K, Malinowski M</i>	225
Foudation Techniques for Large Tanks - Case Studies <i>Falk E, Kummerer C</i>	232
Parafinic Sledge Reduction in Oil Storage Tanks Through the Use of Shearing and Resuspension <i>Heath G M, Heath R A, Eng P, Dundr Z,</i>	239
Extinguishing of Fires of Large-Volume Storage Tanks <i>Kováč P</i>	246
Cathodic Protection in the Central Oil Tank Farm of the MERO CZ <i>Klikar J</i>	253
Experience From The Operation of The Nelahozeves Oil Tank Farm <i>Šmolík O</i>	262
Performance Criteria In Oil Tank Reliability <i>Yegorov Y A</i>	266
Numerical Analysis of Influences on Residual Stress Distribution in Weld Joints of Storage Tanks <i>Junek J, Slováček M</i>	273
Features of The Stressed State of a Tank Wall In The Case of Welding-in Individual Sheets <i>Barvinko A Yu, Barvinko Yu P</i>	282
Errrection of Large-Capacity Crude-Oil Storage Tanks Built Within The Framework of The Extension of The Central Tank Farm in Nelahozeves <i>Michálek M</i>	286
Damage Repair of The Double Shell Tank <i>Ziólko J, Supernak E, Mikulski T</i>	291
Damage Tolerance Evaluation <i>Brož P</i>	298
Experimental Examination of Stress Corrosion Cracking of Welded Joint of Grade 11148.1M Steel in Liquid Ammonia <i>Matocha K, Jahns J, Cikryt F</i>	305
Fixed Roof-to-Wall Conection in Tank With an Internal Floating Cover <i>Perlinski A</i>	310
Post Repair of Cylindrical Tanks - Theory, Analysis and Some Practical Engineering Aplication <i>Shimanovsky O, Gordeyev V, Yuras Z</i>	316
Integrated Tank Inspection, a complete approach for a storage facility. <i>Roberts M A, Nagesar A S, Algra R</i>	323

Analysis of Local Defects of High-Pressure Pipelines
Jira JI, Micka M2 329

Stability Estimate of Vertical Cylinder-Shaped Tanks In Service
Yegorov YA, Ismagulov B G, Fedoryaka YV 336

Analysis of Influence of the Cylindrical Tanks Deformability On Measurement
Errors of Product Volumes
Hudramovych V, Demenkov A 342

On Certain Problems of Design, Investigation and Maintenance of Thin-Walled
Steel Silo
Banachewicz W 346

Acoustic Emission Monitoring of Storage Tanks For Evaluation of Flor
Conditions
Svoboda V, Žemlicka F, Lenain JC 351
