

TABLE OF CONTENTS

FORWARD	9
I. FARM STRUCTURES – PRESENTATION TECHNIQUES	10
1.1 Drawing Technique	10
1.2 Drawing Office Practices	10
1.3 Documentation of a building project	13
1.4 List of Drawings	18
1.5 Technical Specifications	18
1.6 Functional and Management Instructions	18
1.7 Bill of Quantities	18
1.8 Cost Estimate	19
1.9 Time Schedule	19
1.10 Building Materials	19
1.10.1 Wood	19
1.10.2 Bamboo	20
1.10.3 Natural Fibres	21
1.10.3.1 Thatch	21
1.10.3.2 Grass	21
1.10.3.3 Reeds	21
1.10.3.4 Sisal Stems	21
1.10.3.5 Sisal Fibre	21
1.10.3.6 Coir Waste	21
1.10.3.7 Elephant Grass	22
1.11 Natural stones	22
1.12 Earth as building material	22
1.12.1 Burnt-clay bricks	23
1.13 Concrete	23
1.13.1 Reinforced concrete	23
II. ANIMAL HOUSING	25
2.1 Animal Behaviour and Building Design	25
2.2 Cattle housing	26
2.2.1 Heard Profiles	26
2.2.3 General Housing Requirements	27
2.2.3.1 Housing for the Small Herd	32
2.2.3.2 Housing for the Medium to Large Scale Herds	32
2.2.4 Animal Housing in Temperate or Cold Climates	34

2.2.4.1	The housing of dairy cattle.....	34
2.2.5	The Housing of Breeding Calves and Young Stock.....	46
2.2.6	The Housing of Growing Bulls and Stock Bulls.....	52
2.2.6.1	The houses for rearing stock-bulls.....	52
2.2.6.2	The housing of stock-bulls.....	52
2.2.7	The Housing of Slaughter Cattle.....	54
2.2.7.1	The construction and equipment of veal calf houses.....	54
2.2.7.2	The construction and equipment of slaughter cattle houses.....	57
2.3	Pig Housing.....	61
2.3.1	Management Improvements.....	61
2.3.2	General Requirements for Pig Housing.....	63
2.3.3	Special Arrangements for Warm Climates.....	63
2.3.3.1	Housing for a Small Scale Pig Unit.....	64
2.3.3.2	Housing for the Medium Scale Pig Unit.....	66
2.3.4	Management Systems in Intensive Commercial Pig Production.....	66
2.3.4.1	Farrowing-Suckling Pens.....	66
2.3.4.2	Dry Sow Pens.....	67
2.3.4.3	Weaner and Fattening Pens.....	67
2.3.4.4	Replacement Pens.....	67
2.3.5	Determining the Number of Pens and Stalls Required in a Pig Unit.....	68
2.3.6	The Housing of Pigs on Intensive Scale.....	72
2.3.6.1	The construction of pig houses.....	72
2.3.6.2	The layout of the breeding pig house.....	73
2.3.6.3	The house for pregnant sows.....	74
2.3.6.4	The farrowing house.....	76
2.3.6.5	The weaner house.....	79
2.3.6.6	Special provisions for a breeding house.....	80
2.3.6.7	The layout of houses for fattening pigs.....	82
2.3.7	Mechanised operations.....	88
2.3.7.1	The ad lib dry feeding by means of feed hopper (automatic feeder).....	88
2.3.7.2	Trough feeding.....	89
2.3.7.3	Various trough feeding systems.....	90
2.3.7.4	The gravimetric trough feeding system.....	91
2.3.7.5	Wet feeding.....	92
2.4	Poultry Housing.....	94
2.4.1	General Housing Requirements for Chickens.....	94
2.4.1.1	Environmental Requirements.....	94
2.4.2	Construction Details.....	95
2.4.3	Housing Systems for Layers.....	96
2.4.3.1	Semi-intensive Systems.....	97
2.4.4	Intensive Housing of Poultry in cold climates.....	101
2.4.4.1	The housing of layers.....	101
2.4.4.2	The housing of Broilers.....	113
2.5	Sheep and Goat Housing.....	116
2.5.1	Housing.....	116
2.5.2	Parasite Control.....	118
III.	ANIMAL ENVIRONMENTAL REQUIREMENTS AND THE VENTILATION OF LIVESTOCK BUILDINGS... 120	
3.1	Environment.....	120
3.1.1	Heat.....	120
3.1.1.1	Heat terminology.....	120

3.1.1.2 Heat Regulation	121
3.1.2 Animal Moisture and Heat Production	122
3.1.3 Climatic Factors	122
3.1.3.1 Temperature	122
3.1.3.2 Humidity	122
3.1.3.3 Radiation	123
3.1.3.4 Air Movements	124
3.1.3.5 Precipitation	124
3.1.4 Effect of Climatic Factors on Livestock Performance	124
3.2 Ventilation	125
3.2.1 Natural Ventilation	126
IV. MILKING	138
4.1 Hand Milking	138
4.2 Design and Operation of Milking Machine Components	139
4.2.1 Vacuum Pumps and Associated Components	140
4.2.2 Regulators	143
4.2.3 Vacuum Gauges	144
4.2.4 Airlines and Fittings	145
4.2.5 Milklines	146
4.2.6 Pulsation Equipment	146
4.2.8 Bucket and direct-to-can units	151
4.2.9 Recorder Jars	151
4.3.0 Milk Transport and Releasing Systems	152
4.3.1. Automatic Cluster Removal (ACR or Detachers)	154
4.3.2 Clean-in-Place (CIP) Equipment	155
4.3 TYPES OF MILKING PARLOURS	156
4.3.1 Static Parlours with Individual Cow Entry and Exit	157
4.3.2 Static Parlours with Batch Entry and Exit	158
4.3.5 Rotary Parlour with an External Work Area	161
V. MANURE HANDLING SYSTEMS:	163
5.1 Collection, Transfer, and Storage	163
5.1.1 Characteristics of manure:	164
5.1.2 Collection and Transfer	165
5.1.2.1. Slotted and Woven-Wire Floors	165
5.1.2.2. Scrapers	165
5.1.2.3 Front-End Loaders	165
5.1.2.4 Flushing Systems	165
5.2 Manure-Handling Alternatives	166
5.2.1 Dairy	166
5.2.1.1 Solid handling	166
5.2.1.2 Liquid handling	166
5.2.2 Beef	167
5.2.3 Pig	167
5.2.4 Poultry	168
5.3 Advantages and Disadvantages of Various Manure storage systems	171

5.3.1 Daily Haul	171
5.3.2 Uncovered Storages	171
5.3.3 Stacks	171
5.3.4 Earthen Bank with concrete Floor	172
5.3.5 Earthen Bank with Earthen Floor	172
5.3.6 Anaerobic Treatment Basin	172
5.3.7 In-Ground Tank	172
5.4 Management For Environment Protection	173
5.4.1 Above-Ground Silo or Rectangular Tank	173
5.4.2 Picket Dam	173
5.4.3 Covered Storages	173
5.4.4 Underground Tank Beneath Slotted Floor	173
5.4.5 Roofed Vertical-Wall Storage	174
5.4.6 Bedded Pack	174
VI. LIVESTOCK FEEDING PRACTICES AND ANIMAL FEED PROCESSING	175
6.1 Animal Feeding Practices	175
6.1.1 Dairy and Beef Cattle	175
6.1.1.1 Types of Feed	175
6.1.2 Pigs	176
6.1.3 Poultry	176
6.2 Equipment for Mechanised Feeding	177
6.2.1 Mechanical Cattle Feeding Equipment	177
6.2.1.1 Belt Feeders	177
6.2.1.2 Auger Feeders	178
6.2.1.3 Endless-chain Feeders	178
6.2.1.4 Chain-and-paddle Feeder	178
6.2.1.5 Mobile Silage Feeders and Mixer-Feeders	179
6.2.1.6 Concentrate Feed Conveyors	180
6.2.1.7 Feed Dispensers for Milking Parlours	181
6.2.2 Mechanical Pig Feeding Equipment	181
6.2.2.1 Dry feeding – using dry pig feeders	181
6.2.3 Mechanised poultry feeding systems	182
6.2.3.1 Floor/slat feeding systems	182
6.2.3.2. Mechanised feeding of caged birds	183
6.3 ON FARM FEED PROCESSING	185
6.3.1 Grinding/bruising	185
6.3.1.1 Hammer mills	185
6.3.2 Cubing	188
6.3.3 Mixing	189
6.3.3.1 Feed mixing machines	189
VII. FARM WATER SUPPLY	191
7.1 Pumps	192
7.1.1 Capacities and Efficiencies of Pumps	195
7.1.2 Choice of pump	195
7.2 Pump Storage Tanks	196
7.2.1 Systems	196

7.2.1.1	Hydropneumatic Systems	196
7.2.1.2	Gravity System	198
7.3	Pipe flow	199
VIII	ALTERNATIVE SOURCES OF ENERGY	203
8.1	The Shape of Renewable Energy Technologies Today	203
8.2	Renewable energy sources	203
8.2.1	Biomass (Bio fuels)	203
8.3	Wind Energy	205
8.3.1	Wind Turbine Design	205
8.4	Solar Energy	207
REFERENCES	208
