Final test	20
Electronic presentations	23

- What services have a publishing character (article, FTP, WWW)
- The symbols in the preceding point.
- The structure and using of domain names
- Domain, computer name, back ward decomposition: an example can be `http://dk.vub.ac.be/~Czechexp/~vub/~organisation (technical university) VUB ERNO, Cs - some part of the organisation (the information services centre), http - server name.`
