

# Contents

<b>Acknowledgments</b> .....	ix
<b>Introduction</b> .....	1
What Is Causal Inference? .....	3
Do Not Confuse Correlation with Causality .....	6
Optimization Makes Everything Endogenous .....	8
Example: Identifying Price Elasticity of Demand .....	10
Conclusion .....	14
<b>Probability and Regression Review</b> .....	16
<b>Directed Acyclic Graphs</b> .....	96
Introduction to DAG Notation .....	97
<b>Potential Outcomes Causal Model</b> .....	119
Physical Randomization .....	123
Randomization Inference .....	148
Conclusion .....	174
<b>Matching and Subclassification</b> .....	175
Subclassification .....	175
Exact Matching .....	191
Approximate Matching .....	198
<b>Regression Discontinuity</b> .....	241
Huge Popularity of Regression Discontinuity .....	241
Estimation Using an RDD .....	252
Challenges to Identification .....	282
Replicating a Popular Design: The Close Election .....	289
