|---|-------|
| Úvodní poznámky . . . . .   | 3     |
| Table 1 - Mathematics . . . . .   | 5     |
| Table 2 - Geometry . . . . .  | 7     |
| Lesson 1. Mechanics of Solids . . . . .                                       | 9     |
| Lesson 2. Mechanics of Fluids . . . . .                                       | 12    |
| Lesson 3. Thermomechanics . . . . .   | 15    |
| Lesson 4. Electricity and Magnetism . . . . .                                 | 18    |
| Lesson 5. Nuclear Energy . . . . .  | 22    |
| Lesson 6. Strength of Materials . . . . .                                     | 25    |
| Lesson 7. Engineering Materials . . . . .                                     | 28    |
| Lesson 8. Metal Working Processes . . . . .                                   | 32    |
| Lesson 9. Machining and Machine Tools . . . . .                               | 37    |
| Lesson 10. Measurement in Manufacturing Processes                             | 41    |
| Lesson 11. Machine Part Joints . . . . .                                      | 44    |
| Lesson 12. Bearings and Lubrication . . . . .                                 | 48    |
| Lesson 13. Transmission Machine Parts . . . . .                               | 52    |
| Lesson 14. Pipes and Pipe Fittings . . . . .                                  | 55    |
| Lesson 15. Turbines . . . . .   | 58    |
| Lesson 16. Electric Generators and Motors . . . . .                           | 62    |
| Lesson 17. Steam Boilers and Steam Engines . . . . .                          | 66    |
| Lesson 18. Jet-Propulsion Engines . . . . .                                   | 70    |
| Lesson 19. Internal Combustion Piston Engines . . . . .                       | 73    |
| Lesson 20. Automotive Vehicles . . . . .                                      | 77    |
| Lesson 21. Pumps, Compressors, Fans and Blowers                               | 80    |
| Lesson 22. Chemical Machinery . . . . .                                       | 83    |
| Lesson 23. Hoisting and Conveying Machines . . . . .                          | 86    |
| Items from Anglo-American Technical Journals . . . . .                        | 91    |
| Czech Equivalent of Terms Used in Description<br>of Figures in Text . . . . . | 105   |
