Unit 3: Chemical Laboratory	21
Unit 4: Plant Body, Cell, Physiology	26
Unit 5: Herbaceous (Medicinal) Plants	33
Unit 6: National Health Service	40
Unit 7: Micro-organisms	47
Unit 8: Infectious Diseases I	54
Unit 9: Infectious Diseases II	61
Unit 10: HIV and AIDS	67
Unit 11: Cancer	74
Unit 12: Homeopathy and Other Alternative Treatment	81
Unit 13: Antibiotics	89
Unit 14: Hormones	95
Unit 15: The Value of Vitamins and Minerals	104
Unit 16: The Human Body	112
Unit 17: The Systems of the Human Body	120
Unit 18: The Main Organs – The Brain	133
Unit 19: The Main Organs – The Heart	145
Unit 20: Cholesterol	153
Unit 21: Immunity and Immunology	161
Unit 22: First Aid	168
Unit 23: Pharmacology	175
Unit 24: Types of Drugs	182
Unit 25: Medical Prescription	191
Unit 26: Various Dosage Forms	198
Unit 27: Epidemiology	204
Unit 28: Psychology	210
Unit 29: Careers in Pharmacy	218
Unit 30: Work Experience	223
Appendix 1: National Health Care Systems in the USA, Canada and Great Britain	228
Appendix 2: The List of Abbreviations Used in Prescriptions	231
Appendix 3: The Periodic Table of Elements	234
Dictionary	235
References and Resources, Web Pages, Quotations, Figures	282
Index	284

We would like to thank to PhDr. Kvetoslava Kuncová, Ph.D. for her professional suggestions and to Mgr. Romana Procházková for her corrections of all the exercises written in Czech. We are also grateful to PharmDr. Helena Marešová for her revisions, professional advice and her review. Our thanks are due to Doc. PhDr. Bohuslav Mánek, CSc. for his review.
