

This tourist and commercial guide gives you brief basic information about the history and the past of Kroměříž, Bystřice pod Hostýnem, Holešov and Přerov and the surrounding areas. Besides being a tourist guide it should serve as an educational means or be a suitable souvenir. The advertisements contained here should help private businesses or privately-owned companies and factories to establish trade relations and thus to reestablish market economy relations. It is a sequel to "Zlín and Southeast Moravia: A Guide to Moravia I.", published by the same authors in 1991. The offer of services provided all over the region will hopefully be of great help to our fellow countrymen living abroad as well to other visitors.
