1	Introduction.....	9
2	Study sites of the Křemelná River.....	9
3	Methods.....	12
4	Results and discussion.....	12
4.1	<b>Influences of abiotic factors upon zoobenthos quantity.....</b>	<b>12</b>
4.1.1	Water temperature.....	12
4.1.2	pH values.....	12
4.1.3	Conductivity.....	13
4.1.4	Oxygen content and water saturation.....	13
4.1.5	Floods.....	14
4.2	<b>Influences of biotic factors upon zoobenthos quantity.....</b>	<b>15</b>
4.2.1	Sources of the food in the mountains streams.....	15
4.2.2	Zoobenthos drift.....	17
4.2.3	Predator pressure of the fish and another vertebrate predators.....	17
4.3	<b>Quality, quantity and annual cycle of zoobenthos.....</b>	<b>18</b>
4.3.1	Species composition of zoobenthos in the Šumava Mountains and Bavarian Forest mountains trout brooks.....	18
4.3.2	Species composition of zoobenthos in the Křemelná River.....	20
4.3.3	Notes to the occurrence of some macrozoobenthos groups in the Šumava Mountains.....	21
4.3.4	Abundance and biomass of macrozoobenthos in the trout zone of the Šumava Mountains and Bavarian Forest.....	23
4.3.5	Species composition and quantity of the zoobenthos in the trout zone streams of the Czech Republic.....	24
4.3.6	Annual cycle of zoobenthos in trout zone waters.....	25
5	Summary.....	29
6	Souhrn.....	30
7	References.....	31
