

Table of Contents

| | |
|---|----------|
| Preface..... | xix |
| 1. CSS and Documents..... | 1 |
| A Brief History of (Web) Style | 1 |
| Elements | 3 |
| Replaced and Nonreplaced Elements | 3 |
| Element Display Roles | 3 |
| Bringing CSS and HTML Together | 7 |
| The link Tag | 8 |
| The style Element | 12 |
| The @import Directive | 13 |
| HTTP Linking | 14 |
| Inline Styles | 15 |
| Stylesheet Contents | 16 |
| Markup | 16 |
| Rule Structure | 16 |
| Vendor prefixing | 17 |
| Whitespace Handling | 18 |
| CSS Comments | 19 |
| Media Queries | 20 |
| Usage | 20 |
| Simple Media Queries | 21 |
| Media Types | 21 |
| Media Descriptors | 22 |
| Media Feature Descriptors and Value Types | 24 |
| Feature Queries | 25 |
| Summary..... | 28 |

| | |
|---|-----------|
| 2. Selectors..... | 29 |
| Basic Style Rules | 29 |
| Element Selectors | 30 |
| Declarations and Keywords | 31 |
| Grouping | 33 |
| Grouping Selectors | 34 |
| Grouping Declarations | 35 |
| Grouping Everything | 37 |
| New Elements in Old Browsers | 38 |
| Class and ID Selectors | 38 |
| Class Selectors | 39 |
| Multiple Classes | 41 |
| ID Selectors | 43 |
| Deciding Between Class and ID | 44 |
| Attribute Selectors | 45 |
| Simple Attribute Selectors | 45 |
| Selection Based on Exact Attribute Value | 46 |
| Selection Based on Partial Attribute Values | 48 |
| The Case Insensitivity Identifier | 53 |
| Using Document Structure | 54 |
| Understanding the Parent-Child Relationship | 54 |
| Descendant Selectors | 56 |
| Selecting Children | 59 |
| Selecting Adjacent Sibling Elements | 60 |
| Selecting Following Siblings | 62 |
| Pseudo-Class Selectors | 63 |
| Combining Pseudo-Classes | 63 |
| Structural Pseudo-Classes | 64 |
| Dynamic Pseudo-Classes | 76 |
| UI-State Pseudo-Classes | 81 |
| The :target Pseudo-Class | 87 |
| The :lang Pseudo-Class | 88 |
| The Negation Pseudo-Class | 89 |
| Pseudo-Element Selectors | 92 |
| Styling the First Letter | 92 |
| Styling the First Line | 93 |
| Restrictions on ::first-letter and ::first-line | 94 |
| Styling (or Creating) Content Before and After Elements | 95 |
| Summary | 95 |
| 3. Specificity and the Cascade..... | 97 |
| Specificity | 97 |

| | |
|--|------------|
| Declarations and Specificity | 99 |
| Universal Selector Specificity | 101 |
| ID and Attribute Selector Specificity | 101 |
| Inline Style Specificity | 101 |
| Importance | 102 |
| Inheritance | 103 |
| The Cascade | 106 |
| Sorting by Weight and Origin | 107 |
| Sorting by Specificity | 108 |
| Sorting by Order | 109 |
| Non-CSS Presentational Hints | 111 |
| Summary | 111 |
| 4. Values and Units | 113 |
| Keywords, Strings, and Other Text Values | 113 |
| Keywords | 113 |
| Strings | 116 |
| URLs | 117 |
| Images | 119 |
| Identifiers | 119 |
| Numbers and Percentages | 119 |
| Integers | 120 |
| Numbers | 120 |
| Percentages | 120 |
| Fractions | 121 |
| Distances | 121 |
| Absolute Length Units | 121 |
| Resolution Units | 124 |
| Relative Length Units | 125 |
| Calculation values | 130 |
| Attribute Values | 131 |
| Color | 132 |
| Named Colors | 132 |
| Colors by RGB and RGBA | 133 |
| Colors by HSL and HSLa | 138 |
| Color Keywords | 141 |
| Angles | 142 |
| Time and Frequency | 143 |
| Position | 143 |
| Custom Values | 144 |

| | |
|--------------------------------------|------------|
| 5. Fonts..... | 149 |
| Font Families | 149 |
| Using Generic Font Families | 151 |
| Specifying a Font Family | 152 |
| Using @font-face | 154 |
| Required Descriptors | 155 |
| Other Font Descriptors | 160 |
| Combining Descriptors | 163 |
| Font Weights | 166 |
| How Weights Work | 167 |
| Getting Bolder | 170 |
| Lightening Weights | 172 |
| The font-weight descriptor | 173 |
| Font Size | 174 |
| Absolute Sizes | 175 |
| Relative Sizes | 177 |
| Percentages and Sizes | 178 |
| Font Size and Inheritance | 179 |
| Using Length Units | 182 |
| Automatically Adjusting Size | 183 |
| Font Style | 185 |
| The font-style Descriptor | 187 |
| Font Stretching | 188 |
| The font-stretch Descriptor | 190 |
| Font Kerning | 191 |
| Font Variants | 192 |
| Level 3 Values | 193 |
| Font Features | 195 |
| The font-feature-settings Descriptor | 197 |
| Font Synthesis | 197 |
| The font Property | 199 |
| Adding the Line Height | 201 |
| Using Shorthands Properly | 202 |
| Using System Fonts | 202 |
| Font Matching | 203 |
| Summary | 205 |
| 6. Text Properties..... | 207 |
| Indentation and Inline Alignment | 207 |
| Indenting Text | 208 |
| Text Alignment | 211 |
| Aligning the Last Line | 215 |

| | |
|--|------------|
| Inline Alignment | 216 |
| The Height of Lines | 216 |
| Vertically Aligning Text | 220 |
| Word Spacing and Letter Spacing | 226 |
| Word Spacing | 226 |
| Letter Spacing | 228 |
| Spacing and Alignment | 229 |
| Text Transformation | 230 |
| Text Decoration | 232 |
| Weird Decorations | 234 |
| Text Rendering | 236 |
| Text Shadows | 237 |
| Handling Whitespace | 239 |
| Setting Tab Sizes | 242 |
| Wrapping and Hyphenation | 243 |
| Wrapping Text | 248 |
| Writing Modes | 249 |
| Setting Writing Modes | 249 |
| Changing Text Orientation | 253 |
| Declaring Direction | 254 |
| Summary | 256 |
| 7. Basic Visual Formatting..... | 257 |
| Basic Boxes | 257 |
| A Quick Refresher | 258 |
| The Containing Block | 259 |
| Altering Element Display | 260 |
| Changing Roles | 261 |
| Block Boxes | 263 |
| Horizontal Formatting | 265 |
| Horizontal Properties | 266 |
| Using auto | 268 |
| More Than One auto | 269 |
| Negative Margins | 270 |
| Percentages | 272 |
| Replaced Elements | 273 |
| Vertical Formatting | 274 |
| Vertical Properties | 275 |
| Percentage Heights | 276 |
| Auto Heights | 278 |
| Collapsing Vertical Margins | 279 |
| Negative Margins and Collapsing | 281 |

| | |
|--|------------|
| List Items | 283 |
| Inline Elements | 285 |
| Line Layout | 285 |
| Basic Terms and Concepts | 287 |
| Inline Formatting | 289 |
| Inline Nonreplaced Elements | 290 |
| Building the Boxes | 290 |
| Vertical Alignment | 293 |
| Managing the line-height | 295 |
| Scaling Line Heights | 297 |
| Adding Box Properties | 298 |
| Changing Breaking Behavior | 301 |
| Glyphs Versus Content Area | 302 |
| Inline Replaced Elements | 303 |
| Adding Box Properties | 304 |
| Replaced Elements and the Baseline | 305 |
| Inline-Block Elements | 308 |
| Flow Display | 310 |
| Contents Display | 312 |
| Other Display Values | 312 |
| Computed Values | 313 |
| Summary | 313 |
| 8. Padding, Borders, Outlines, and Margins..... | 315 |
| Basic Element Boxes | 315 |
| Width and Height | 316 |
| Padding | 318 |
| Replicating Values | 320 |
| Single-Side Padding | 322 |
| Percentage Values and Padding | 323 |
| Padding and Inline Elements | 325 |
| Padding and Replaced Elements | 327 |
| Borders | 328 |
| Borders with Style | 329 |
| Border Widths | 333 |
| Border Colors | 337 |
| Shorthand Border Properties | 339 |
| Global Borders | 341 |
| Borders and Inline Elements | 342 |
| Rounding Border Corners | 344 |
| Image Borders | 352 |
| Outlines | 369 |

| | |
|---|------------|
| Outline Styles | 370 |
| Outline Width | 371 |
| Outline Color | 372 |
| How They Are Different | 374 |
| Margins | 375 |
| Length Values and Margins | 377 |
| Percentages and Margins | 378 |
| Single-Side Margin Properties | 379 |
| Margin Collapsing | 379 |
| Negative Margins | 381 |
| Margins and Inline Elements | 383 |
| Summary | 385 |
| 9. Colors, Backgrounds, and Gradients..... | 387 |
| Colors | 387 |
| Foreground Colors | 388 |
| Affecting Borders | 390 |
| Affecting Form Elements | 391 |
| Inheriting Color | 392 |
| Backgrounds | 392 |
| Background Colors | 393 |
| Clipping the Background | 396 |
| Background Images | 399 |
| Background Positioning | 404 |
| Changing the Positioning Box | 414 |
| Background Repeating (or Lack Thereof) | 417 |
| Getting Attached | 428 |
| Sizing Background Images | 433 |
| Bringing It All Together | 442 |
| Multiple Backgrounds | 444 |
| Gradients | 450 |
| Linear Gradients | 451 |
| Radial Gradients | 466 |
| Manipulating Gradient Images | 478 |
| Repeating Gradients | 481 |
| Box Shadows | 485 |
| Summary | 488 |
| 10. Floating and Shapes..... | 489 |
| Floating | 489 |
| Floated Elements | 490 |
| Floating: The Details | 492 |

| | |
|--|------------|
| Applied Behavior | 499 |
| Floats, Content, and Overlapping | 503 |
| Clearing | 504 |
| Float Shapes | 508 |
| Creating a Shape | 509 |
| Shaping with Image Transparency | 521 |
| Adding a Shape Margin | 522 |
| Summary | 524 |
| 11. Positioning..... | 525 |
| Basic Concepts | 525 |
| Types of Positioning | 525 |
| The Containing Block | 526 |
| Offset Properties | 527 |
| Width and Height | 530 |
| Setting Width and Height | 530 |
| Limiting Width and Height | 532 |
| Content Overflow and Clipping | 534 |
| Overflow | 534 |
| Element Visibility | 536 |
| Absolute Positioning | 537 |
| Containing Blocks and Absolutely Positioned Elements | 537 |
| Placement and Sizing of Absolutely Positioned Elements | 540 |
| Auto-edges | 541 |
| Placing and Sizing Nonreplaced Elements | 543 |
| Placing and Sizing Replaced Elements | 547 |
| Placement on the Z-Axis | 550 |
| Fixed Positioning | 554 |
| Relative Positioning | 555 |
| Sticky Positioning | 557 |
| Summary | 561 |
| 12. Flexible Box Layout..... | 563 |
| Flexbox Fundamentals | 563 |
| A Simple Example | 566 |
| Flex Containers | 569 |
| The flex-direction Property | 570 |
| Other Writing Directions | 574 |
| Wrapping Flex Lines | 576 |
| Defining Flexible Flows | 578 |
| flex-wrap Continued | 584 |
| Arranging Flex Items | 586 |

| | |
|---|------------|
| Flex Container | 587 |
| Justifying Content | 587 |
| justify-content Examples | 594 |
| Aligning Items | 596 |
| Start, End, and Center Alignment | 599 |
| Baseline Alignment | 601 |
| Additional Notes | 602 |
| The align-self Property | 602 |
| Aligning Content | 604 |
| Flex Items | 609 |
| What Are Flex Items? | 609 |
| Flex Item Features | 611 |
| Minimum Widths | 613 |
| Flex-Item-Specific Properties | 614 |
| The flex Property | 614 |
| The flex-grow Property | 616 |
| Growth Factors and the flex Property | 619 |
| The flex-shrink Property | 623 |
| Proportional Shrinkage Based on Width and Shrink Factor | 626 |
| Differing Bases | 628 |
| Responsive Flexing | 630 |
| The flex-basis Property | 633 |
| The content Keyword | 634 |
| Automatic Flex Basis | 635 |
| Default Values | 636 |
| Length Units | 637 |
| Zero Basis | 642 |
| The flex Shorthand | 643 |
| Common Flex Values | 643 |
| The order property | 648 |
| Tabbed Navigation Revisited | 650 |
| 13. Grid Layout..... | 655 |
| Creating a Grid Container | 655 |
| Basic Grid Terminology | 658 |
| Placing Grid Lines | 660 |
| Fixed-Width Grid Tracks | 662 |
| Flexible Grid Tracks | 666 |
| Fitting Track Contents | 674 |
| Repeating Grid Lines | 676 |
| Grid Areas | 680 |
| Attaching Elements to the Grid | 686 |

| | |
|--|------------|
| Using Column and Row Lines | 687 |
| Row and Column Shorthands | 692 |
| The Implicit Grid | 694 |
| Error Handling | 697 |
| Using Areas | 698 |
| Grid Item Overlap | 701 |
| Grid Flow | 702 |
| Automatic Grid Lines | 708 |
| The grid Shorthand | 710 |
| Subgrids | 713 |
| Opening Grid Spaces | 714 |
| Grid Gutters (or Gaps) | 714 |
| Grid Items and the Box Model | 716 |
| Aligning and Grids | 721 |
| Aligning and Justifying Individual Items | 722 |
| Aligning and Justifying All Items | 723 |
| Layering and Ordering | 727 |
| Summary | 729 |
| 14. Table Layout in CSS | 731 |
| Table Formatting | 731 |
| Visually Arranging a Table | 731 |
| Table Display Values | 733 |
| Anonymous Table Objects | 738 |
| Table Layers | 742 |
| Captions | 744 |
| Table Cell Borders | 745 |
| Separated Cell Borders | 746 |
| Collapsing Cell Borders | 749 |
| Table Sizing | 754 |
| Width | 755 |
| Height | 761 |
| Alignment | 762 |
| Summary | 766 |
| 15. Lists and Generated Content | 767 |
| Lists | 767 |
| Types of Lists | 768 |
| List Item Images | 771 |
| List-Marker Positions | 774 |
| List Styles in Shorthand | 775 |
| List Layout | 776 |

| | |
|---|------------|
| Generated Content | 779 |
| Inserting Generated Content | 780 |
| Specifying Content | 783 |
| Counters | 788 |
| Defining Counting Patterns | 796 |
| Fixed Counting Patterns | 798 |
| Cyclic Counting Patterns | 800 |
| Symbolic Counting Patterns | 803 |
| Alphabetic Counting Patterns | 806 |
| Numeric Counting Patterns | 807 |
| Additive Counting Patterns | 812 |
| Extending Counting Patterns | 814 |
| Speaking Counting Patterns | 815 |
| Summary | 817 |
| 16. Transforms..... | 819 |
| Coordinate Systems | 819 |
| Transforming | 823 |
| The Transform Functions | 827 |
| More Transform Properties | 841 |
| Moving the Origin | 842 |
| Choosing a 3D Style | 845 |
| Changing Perspective | 847 |
| Dealing with Backfaces | 852 |
| Summary | 854 |
| 17. Transitions..... | 855 |
| CSS Transitions | 855 |
| Transition Properties | 857 |
| Limiting Transition Effects by Property | 861 |
| Setting Transition Duration | 867 |
| Altering the Internal Timing of Transitions | 869 |
| Delaying Transitions | 875 |
| The transition Shorthand | 878 |
| In Reverse: Transitioning Back to Baseline | 880 |
| Animatable Properties and Values | 884 |
| How Property Values Are Interpolated | 885 |
| Fallbacks: Transitions Are Enhancements | 888 |
| Printing Transitions | 889 |
| 18. Animation..... | 891 |
| Defining Keyframes | 892 |

| | |
|--|------------|
| Setting Up Keyframe Animations | 893 |
| Naming Your Animation | 894 |
| Keyframe Selectors | 894 |
| Omitting from and to Values | 895 |
| Repeating Keyframe Properties | 897 |
| Animatable Properties | 897 |
| Nonanimatable Properties That Aren't Ignored | 899 |
| Scripting @keyframes Animations | 899 |
| Animating Elements | 900 |
| Naming Animations | 901 |
| Defining Animation Lengths | 904 |
| Declaring Animation Iterations | 905 |
| Setting an Animation Direction | 907 |
| Delaying Animations | 909 |
| Animation Events | 911 |
| Changing the Internal Timing of Animations | 920 |
| Setting the Animation Play State | 932 |
| Animation Fill Modes | 933 |
| Bringing It All Together | 935 |
| Animation, Specificity, and Precedence Order | 939 |
| Specificity and Important | 939 |
| Animation Order | 939 |
| Animation Iteration and display: none; | 940 |
| Animation and the UI Thread | 940 |
| Seizure and Vestibular Disorders | 941 |
| Animation Events and Prefixing | 942 |
| animationstart | 942 |
| animationend | 942 |
| animationiteration | 943 |
| Printing Animations | 943 |
| 19. Filters, Blending, Clipping, and Masking..... | 945 |
| CSS Filters | 945 |
| Basic Filters | 946 |
| Color Filtering | 948 |
| Brightness, Contrast, and Saturation | 949 |
| SVG Filters | 951 |
| Compositing and Blending | 952 |
| Blending Elements | 952 |
| Darken, Lighten, Difference, and Exclusion | 953 |
| Multiply, Screen, and Overlay | 955 |
| Hard and Soft Light | 956 |

| | |
|---|-------------|
| Color Dodge and Burn | 957 |
| Hue, Saturation, Luminosity, and Color | 959 |
| Blending Backgrounds | 960 |
| Blending in Isolation | 963 |
| Clipping and Masking | 964 |
| Clipping | 965 |
| Clip Shapes | 966 |
| Clip Boxes | 967 |
| Clip Filling Rules | 970 |
| Masks | 971 |
| Defining a Mask | 972 |
| Changing the Mask's Mode | 974 |
| Sizing and Repeating Masks | 976 |
| Positioning Masks | 979 |
| Clipping and Compositing Masks | 980 |
| Bringing It All Together | 984 |
| Mask Types | 985 |
| Border-image Masking | 986 |
| Object Fitting and Positioning | 987 |
| 20. Media-Dependent Styles..... | 991 |
| Defining Media-Dependent Styles | 991 |
| Basic Media Queries | 991 |
| Complex Media Queries | 994 |
| Paged Media | 1002 |
| Print Styles | 1002 |
| Summary | 1016 |
| A. Animatable Properties..... | 1017 |
| B. Basic Property Reference..... | 1025 |
| C. Color Equivalence Table..... | 1037 |
| Index..... | 1041 |
