

<i>František Laufek, Jakub Plášil, Jan Cempírek, Radek Škoda</i>	
Foreword to the special issue arising from the 9 <sup>th</sup> European Conference on Mineralogy and Spectroscopy.....	1
<i>Andrea Giaccherini, Andrea Griesi, Giordano Montegrossi, Maurizio Romanelli, Giovanni O. Lepore, Alessandro Lavacchi, Georg Amthauer, Günther Redhammer, Gerold Tippelt, Stefano Martinuzzi, Giuseppe Cucinotta, Matteo Mannini, Andrea Caneschi, Francesco Di Benedetto</i>	
A new solvothermal approach to obtain nanoparticles in the $\text{Cu}_3\text{SnS}_4$ – $\text{Cu}_2\text{FeSnS}_4$ join .....	3
<i>Gwladys Steciuk, Radek Škoda, Jan Rohlíček, Jakub Plášil</i>	
Crystal structure of the uranyl–molybdate mineral calcurmolite $\text{Ca}[(\text{UO}_2)_3(\text{MoO}_4)_2(\text{OH})_4](\text{H}_2\text{O})_{-5.0}$ : insights from a precession electron-diffraction tomography study .....	15
<i>Lucy M. Mottram, Samuel Cafferkey, Amber R. Mason, Tom Oulton, Shi Kuan Sun, Daniel J. Bailey, Martin C. Stennett, Neil C. Hyatt</i>	
A feasibility investigation of speciation by Fe K-edge XANES using a laboratory X-ray absorption spectrometer .....	27
<i>Dariusz Malczewski, Agnieszka Grabias, Maria Dziurawicz</i>	
Activation energy of annealed, partially metamict davidite by $^{57}\text{Fe}$ Mössbauer spectroscopy .....	37
<i>Jaromír Tvrdý, Jakub Plášil, Radek Škoda</i>	
New crystal-chemical data on zincoberaunite from Krásno near Horní Slavkov (Czech Republic) .....	45
<i>Evgeny A. Vasilev, Dmitry A. Zedgenizov, Igor V. Klepikov</i>	
The enigma of cuboid diamonds: the causes of inverse distribution of optical centers within the growth zones .....	59
