Foreword	7	The stratigraphical significance of the sections	66
Introduction	9	Localities according to lithostratigraphical or lithofacies units	67
A review of Pax's and Pojarkova's monographs	10	I. Basal Sandstone Complex	67
Development of the maple leaf	13	II. Zittau Basin (Varnsdorf)	67
Systematic part	14	III. Volcanogenic Series of the České středohoří Mts.	68
Section <i>Platanoidea</i> PAX emend. POJARK.	14	IV. Žatec facies (the so-called Žatec Beds)	69
Series <i>Platanoidea</i> POJARK.	14	V. The Overlying Complex of the Chomutov-Most-Teplice brown-coal Basin	69
Series <i>Picta</i> POJARK.	14	VI. Cypris Formation (Sokolov and Cheb Basins)	70
Series <i>Campestris</i> POJARK.	20	Palaeoecological conditions	71
Section <i>Rubra</i> PAX	22	Conclusions	73
Series <i>Rubra</i> POJARK.	24	Systematic revision	74
Series <i>Saccharina</i> POJARK.	36	References	76
Section <i>Negundo</i> (LUDW.) K. KOCH	42	Index	82
Section <i>Spicata</i> PAX	44	Czech summary	85
Section <i>Saccharina</i> PAX	47	Plates	87
Series <i>Sacchara</i> POJARK.	48		
Section <i>Goniocarpa</i> POJARK.	58		
Series <i>Monspessulana</i> POJARK.	61		
Palaeogeography and biostratigraphy	65		
Geographical elements among the maples in the Tertiary of North Bohemia	65
