

**PROCESSES in STEAM
and
MATERIAL PROTECTION in POWER PLANTS**

Contents

Program	3
<u>Andrzej Anderko</u> , M.M. Lencka, OLI Systems Inc., USA: Modeling Transport Properties of Electrolyte Solutions in Wide Concentration and Temperature Ranges	5
L. N. Trevani, J. C. Roberts, C. Collins and <u>P. R. Tremaine</u> , Memorial University of Newfoundland, Canada: Copper(II)-Ammonia Complexation Equilibria in Aqueous Solutions at Temperatures from 30 to 250°C by Visible Spectroscopy	13
G. J. Bignold, Innogy, Swindon, UK: Sources of Corrosive Conditions in Low Pressure Steam Turbines	29
<u>V.Petr</u> and M. Kolovratník, CTU Prague, Fac. of Mech. Engng., Czech Republic: Heterogeneous Effects in the Droplet Nucleation Process	35
<u>M. Šťastný</u> and M. Šejna, Consult Plzeň , PC Progress Praha Analysis of Heterohomogeneous Condensation of the Steam flowing in a Turbine Cascade by two Population Numerical Models	42
J. Hrubý and F. Maršík, Institute of Thermomechanics, AS CR Binary and Multi–component Homogeneous Nucleation in Aqueous Systems: A Process or a Thermophysical Property	50
A. Bursik, Power plant chemistry GmbH, Neulusheim, Gemany Chemistry in Cycles with Heat Recovery Steam Generators – a Problem and Challenge	58
<u>D.A. Palmer</u> , P. Bénézeth, D.J. Weselowski, S.A. Wood* and C. Xiao, Oak Ridge Laboratory, Oak Ridge TE, USA, *University of Idaho, Moscow ID, USA The Solubility of Metal Oxides and Hydroxides at High Temperatures – Results and Implications of Recent ORLN Measurements	67
I. Jiříček, Power Engineering Department, Inst. of Chemical Technology Three Cases of Organics in Water/Steam Cycle	76
R. Svoboda, M. Bodmer, H. Sandmann, ABB Alstom Power, Baden, Switzerland Impact of Organic Impurities on Steam Turbine Operation	83

J. Lyons, J. Bane
**Characterization of Organic Matter and a Field Study of its Role
in Turbine Corrosion**91

A.G.L. Zeijseink, and H.M. Van Deelen,
KEMA Power Generation and Sustainables , Arnhem, The Netherlands
Comparison of three types of degassed cation conductivity measurements102

M.Zmítko, M.Pištělka, J.Janešík, P.Marcinský, J.Bolcha
**Water chemistry and operational experience during hot functional tests at
Mochovce and Temelín NPPs**.....103

J. Vošta, J. Macák, M. Hezinová
Chemical cleaning of steam generators by HSO₃NH₂104

Addendum

O. Šifner, Institute of Thermomechanics AS CR
**International Cooperation in the Research and Standardization
of Thermophysical Properties of Water and Steam**.....105
