

CONTENTS

Preface	7
The Foundations of Tichý's Logic	9
Short Biography of Pavel Tichý	25
Complete List of Publications by Pavel Tichý	31
Note from the Editors	35
I. An Exposition of Gödel's Incompleteness Proof in the Simple Type Theory	37
II. Do Logically True Sentences Have Content?	43
III. On Explicating the Notion 'the Content of a Sentence'	53
IV. A Remark on the Notion of Problem and Solvability	69
V. Sense and Procedure	77
VI. Intensions in Terms of Turing Machines	93
VII. An Approach to Intensional Analysis	111
VIII. On the Vicious Circle in Definitions	139
IX. Synthetic Components of Infinite Classes of Postulates	161
X. Plantinga on Essence: A Few Questions	175
XI. On <i>de dicto</i> Modalities in Quantified S5	189
XII. On Popper's Definitions of Verisimilitude	197
XIII. What Do We Talk About?	205
XIV. A Counterexample to the Stalnaker-Lewis Analysis of Counterfactuals	221
XV. Verisimilitude Redefined	227
XVI. De dicto and de re	247
XVII. A New Theory of Subjunctive Conditionals	265
XVIII. Questions, Answers, and Logic	293

XIX.	Two Kinds of Intensional Logic	305
XX.	Verisimilitude Revisited	329
XXI.	Existence and God	353
XXII.	The Logic of Temporal Discourse	373
XXIII.	Merrill on What a Sentence Says	403
XXIV.	The Semantics of Episodic Verbs	409
XXV.	The Transiency of Truth	445
XXVI.	Foundations of Partial Type Theory	465
XXVII.	The Logic of Ability, Freedom and Responsibility	481
XXVIII.	Kripke on Necessity a posteriori	505
XXIX.	Ability and Freedom	525
XXX.	Subjunctive Conditionals: Two Parameters vs. Three	541
XXXI.	Do We Need Interval Semantics?	577
XXXII.	Constructions	599
XXXIII.	Frege and the Case of the Missing Sense	623
XXXIV.	Indiscernibility of Identicals	647
XXXV.	Putnam on Brains in a Vat	673
XXXVI.	Two Fallacies in Formal Semantics	685
XXXVII.	Individuals and Their Roles	709
XXXVIII.	Resplicing Properties in the Supervenience Base	749
XXXIX.	<i>Sinn & Bedeutung</i> Reconsidered	763
XL.	The Scandal of Linguistics	775
XLI.	The <i>Tractatus</i> in the Light of Intensional Logic	789
XLII.	The Analysis of Natural Language	801
XLIII.	Cracking the Natural Language Code	843
XLIV.	The Myth of Non-Rigid Designators	859
XLV.	Constructions as the Subject-Matter of Mathematics	873
XLVI.	On Inference	887
