

Content

Rusek, J.: Preface	1
Balík, V.: Soil testate amoebae (Protozoa, Rhizopoda) from the Antarctic	3
Bauer, R.: The effect of diet on the supercooling ability of enchytraeids (Oligochaeta)	9
Čarnogurský, J.: Influence of the simulated flood on the collembolan communities in the former seasonally flooded Danubian forest near the Gabčíkovo waterwork (Slovakia)	13
Christian, E.: On disregarded biotopes and inadequate sampling: How rare are rare species?	19
Fend'a, P., Krumpál, M. & Cyprich, D.: The soil fauna in the birds' nests in Slovakia	23
Frouz, J.: Changes of crane-flies (Tipulidae) larvae population during secondary succession	31
Háněl, L.: Soil nematodes (Nematoda) in meadow and forest ecosystems of the Pálava Biosphere Reserve, Czech Republic	37
Hopkins, D.W., Bignell, D.E., Chudek, J.A., & Webster, E.A.: Organic transformations in termite guts investigated with solid-state ¹³ C nuclear magnetic resonance spectroscopy	45
Hubert, J., Smrž, J. & Šustr, V.: Feeding of oribatid mite Scheloribates laevigatus (Acari: Oribatida) in laboratory experiments: Preliminary results	51
Ilieva-Makulec, K.: Life-history and population parameters of two bacterial-feeding nematodes	59
Jäkel, A. & Roth, M.: Short-term effects of selected insecticides on non-target soil invertebrates of a forest ecosystem	65
Kajak, A., Galecka, B., Stanuszek, S., Stefaniak, O., Szanser, M., & Wasyluk, A.: Biomanipulation of macroarthropods - effect on decomposition and community structure	71
Kampichler, C.: Modelling abundance of edaphic Collembola in an agricultural landscape by means of artificial neural networks	79
Klimek, A. & Seniczak, S.: The mites (Acari) associated with salty soils from South Poland	87
Kostecka, J.: Earthworm (Oligochaeta, Lumbricidae) communities in some natural sites in the Bieszczady Mts. (South-Eastern Poland)	93
Kováč, L. & Miklisová, D.: Collembola (Hexapoda) of arable and inundated forest soils in the East-Slovak Lowland	103
Krajča, A.: Penetration and colonization of spiders (Araneae) into the extensive nickel leach dump near Sered' (Slovakia)	107
Krumpálová, Z.: The comparison of response of epigeic spider communities (Araneae) on the changes in ecosystem into the two inundation forests of the Danube river	117
Kühle, J. C.: Spatial patterns of distribution of earthworms in a hardwood floodplain forest	125

La France, M., Stiehler, C. & Roth, M.: Soil amelioration and re-afforestation with different tree species at sites highly polluted with acid rain - Effects on communities of saprophagous invertebrates	135
Mommertz, S., Jell, B., Winter, K. & Filser, J.: How to quantify the contribution of microflora and microfauna to nitrogen mineralisation in agricultural soils? - Some remarks	145
Petrov, P.: Changes in communities of Oribatida mites (Acari: Oribatida) during the plant succession on age different meadows	151
Pižl, V.: Earthworm communities in Pálava Biosphere Reserve (Southern Moravia) with special reference to the impact of floods	157
Rožen, A.: Growth and reproduction of earthworms <i>Dendrobaena octaedra</i> and <i>Dendrodrilus rubidus</i> in artificial soil	167
Rusek, J.: Changes in mesofauna communities of arable soils	173
Schlaghamerský, J.: The enchytraeids of a beech forest on a basalt-limestone gradient	179
Schmitt, G. & Roth, M.: Centipede and millipede communities in cultural landscapes of Northeast-Germany	191
Seniczak, A. & Seniczak, S.: The influence of lead on the morphology of <i>Archezogozetes longisetosus</i> (Acari, Oribatida)	199
Seniczak, S., Dąbrowski, J., Klimek, A. & Kaczmarek, S.: The mites (Acari) associated with young scots pine forests polluted by the 'Wistom' chemical factory, Poland	207
Sterzynska, M. & Ehrnsberger, R.: Collembola communities of different microhabitats of dunes (North Sea, Germany)	215
Šustr, V. & Starý, J.: Digestive enzymes in oribatid mites: Impact of factors	223
Szanser, M.: Advantages of using the simplified soil substrate in field mesocosm studies	229
Tajovský, K.: Terrestrial arthropods (Oniscidea, Diplopoda, Chilopoda) of the Labské pískovce Protected Landscape Area (North Bohemia, Czech Republic)	235
Tajovský, K.: To the distribution of the 'house-centipede' <i>Scutigera coleoptrata</i> Linnaeus, 1758 in the Czech Republic	243
Tuf, I.H. & Ožanová, J.: Chilopoda and Diplopoda in different ecosystems of the Litovelské Pomoraví Protected Landscape Area.....	247
Voigtländer, K. & Dunger, W.: Centipedes of the nature reserve „Leutratal“ near Jena (Thuringia, East Germany)	255
Wanner, M., Dunger, W., Schulz, H.-J. & Voigtländer, K.: Primary immigration of soil organisms on coal mined areas in Eastern Germany	267
Weyda, F.: Absorption of water by eversible vesicles in Archaeognatha	277
Index of Authors and Coauthors	283
