

Contents

1	History of <i>Meta</i>-Topolin and the Aromatic Cytokinins	1
	Miroslav Strnad	
2	Synthesis and Chemistry of <i>Meta</i>-Topolin and Related Compounds	11
	Lucie Plíhalová	
3	Cytokinin Properties of <i>Meta</i>-Topolin and Related Compounds . . .	23
	Jaroslav Nisler	
4	Occurrence, Interconversion, and Perception of Topolins in Poplar	31
	David Kopečný, Dominika Kaczorová, and Petr Tarkowski	
5	Cytokinin Signalling and Mechanism of Action of <i>Meta</i>-Topolin and Its Derivatives	39
	Ondřej Plíhal	
6	Topolin Metabolism and Its Implications for In Vitro Plant Micropropagation	49
	Karel Doležal and Magdalena Bryksová	
7	Effect of <i>Meta</i>-Topolins on Senescence	59
	Cemil İşlek	
8	Effects of Aromatic Cytokinins on Senescence-Induced Alterations in Photosynthesis	71
	Helena Janečková	
9	<i>Meta</i>-topolin and Related Cytokinins as a Solution to Some In Vitro Problems	85
	Stefaan P. O. Werbrouck	
10	The Role of <i>Meta</i>-topolin in Plant Morphogenesis In Vitro	93
	C. P. Krishna Vrundha, N. V. Aswathi, and T. Dennis Thomas
